

DOES THIS MEAN YOU?

Are you one of the many who are suffering with eczema, obstinate sores, ulcers or any other skin trouble? If so, lose no time in trying Zam-Buk, and you will be amazed at its curative powers.

The healing power of any ointment is in proportion to its medicinal ingredients. Ordinary ointments being composed chiefly of animal fats, with only a small percentage of medicinal ingredients, have not sufficient healing power to overcome a bad case of skin trouble. Zam-Buk, on the contrary, is purely herbal, and is all medicine, which explains its superiority over other ointments, and its many marvelous cures.

Besides being best for eczema, ulcers, and skin diseases of all kinds, it is equally good for blood-poisoning, piles, burns, cuts, heat rashes, sore and blistered feet, insect bites and sunburn. 50c. box all druggists, or Zam-Buk Co., Toronto. Send 1c. stamp for postage on free trial box.

Kamloops AND Irrigation

THE western Canada Irrigation Association held its Tenth Annual Convention at the City of Kamloops the last week in July. The picturesque little city takes its name from the Indian equivalent "Meeting of the Waters," where the sun shines every day and good fellowship, health and happiness radiate from all, and opens wide in hospitality its doors to you. Away back over a hundred years ago, the North West Fur Trading Co., with keen appreciation of the advantages of the location, established a post on the present site of Kamloops—the junction of the now called North and South Thompson rivers. Its excellent water communications; its central position in a wide open stretch of splendid grazing country and its healthy, growing climate, attracted Indians and traders from all parts, and soon the little trading-post grew in importance and population. Seventy-five years afterwards the Canadian Pacific Railway thrust its steel rails through the main street of the aspiring little community, and it was but an endorsement of the opinion of the old trading company, that Kamloops was indeed, "The Place in the Sun."

There are irrefutable reasons why Kamloops claims the distinction of being the leading inland city of the Province of British Columbia. Its geographical position marks it as serving a very large area; 254 miles from Vancouver, 536 from Calgary,

and 540 from Edmonton, it sees no possible rival. With a population of some 5000, it points with pardonable pride to its splendid streets and pavements, to its modern electric lights, power, water and telephone systems, and to its uninterrupted steady progress. With abundance of water, continuous bright sunshine and undisturbed soil-fertility, it contains all the attributes necessary to future commercial and agricultural development.

Mr. and Mrs. J. H. Bishop of Wolfville are visiting their daughter Mrs. J. F. Ryan, Pleasant St.

Mr and Mrs J. F. Ryan and family have returned from their outing with Mrs Ryan's people in Kings County. While away they motored some four hundred miles in Mr Lewis Bishop's fine new Dodge car.

Rev. H. T. DeWolfe, D. D., the talented and energetic principal of Acadia Ladies Seminary, Wolfville, N. S. was in Truro a day or two ago en route to Sackville, where a Short Course Summer School is in progress. The Doctor, despite the supposed vacation for college men

in the summer, always finds lots to do in the summer months in the interests of the Institution that he has so successfully worked up to such an state of efficiency as the Seminary has attained.

A church member, who did not favor church bazaars, was going along a dark street when a robber suddenly appeared and, pointing his pistol began to realize his victim of his money.

The thief, however, apparently suffered some pangs of remorse.

"It's pretty rough to be gone through like this, ain't it, sir?" he inquired.

"Oh, that's all right, my man," the "held-up" one answered, cheerfully. "I was on my way to a church bazaar. You're first, and there's an end to it."

Illinois shoe dealers see a possibility of wooden shoes being largely worn in the United States in coming years, if the prophecies made at their recent convention represent the feeling of the majority. This is

what one of them said: "Unless the world develop a substitute for leather within two years America will be the next wooden shoe nation."

He had twenty-five men working under him. I want it understood, said Danny, with the look of a lion, "that I kin lick any man on the job."

"Another Irishman straightened up and said: "What's that? Ye think ye can lick any of us?"

"Certainly, I can lick any man that works under me." "Well you can't lick me." He threw down his pick and spat on his hands.

"All right," said Danny, "go to the timekeeper and get your pay, I won't have any man under me that I can't lick."
