#### THREE BRITISHERS AGAINST TEN HUNS IN THE AIR

In a Battle Between Airplanes Over Flanders, Three British and Ten German Were Engaged For Sixteen Minutes.—Victory With the British.

London, June 26.—Three British naval airplanes fought a battle with ten German machines over Flanders on Monday. An official account of the fight says one and probably three of the Germans were driven down. All the British airmen returned safely. The announcement follows:—

"In the course of a patrol, three naval airplanes encountered and engaged ten enemy machines in the vicinity of Roulers. They fought for sixteen minutes and brought down one enemy in flames. It is believed two others were driven down out of control, but clouds interrupted the view. Our machines returned safely."

#### DOMINION DEPARTMENT OF AGRICULTURE Dairy Branch SUBSTANTIAL INCREASES

What did your best cow earn for you last year? A seven-year-old grade in a herd Oxford Mills, Ont., that milked from March 30, 1916, to January 30, 1917, gave 363.9 lb fat, which at 45 cents per pound equals the substantial sum of \$163.75. Perhaps you got more.

Fortunately, the owner of this herd is keeping records of each cow that he owns and has the satisfaction of knowing that six out of his fifteen cows earned over \$150.00 each.

With milk weighed every tenth day, and a composite sample once a month, the actual yield of each cow for her full period of lactation can be found with but little trouble.

Milk and feed record forms are free on application to the Dairy Division, Ottawa. A study of records should mean an increase in your cows earning capacity by at least fifty per cent in three years.

### THE CORRECT WAY TO TREAT A COLD

A cough is not a distinct disease, it is the result of inflammation caused by a cold. Therefore, the only way to cure a cough is to allay the inflammation which invades the delicate bronchial tubes. All of the narcotics in the world will not correct the conditions which cause a cough—they simply deaden the senses and afford temporary relief.  
Penslar White Pine and Spruce Balsam with Menthol will promptly soothe and heal the inflamed membranes and overcome the nervous irritation. Price, 25c and 50c the bottle.

#### OTTAWA LETTER

OTTAWA, June 23.—All this week has been devoted to the debate on compulsory military service and it has been full of events of startling significance. During the two weeks that negotiations were going on between the Prime Minister and Sir Wilfrid Laurier there was a lot of guessing. It is known that several of Sir Wilfrid's followers were favorable to a co-partnership, but the Quebec wing was bitterly opposed to it, and the Pugsley-Oliver-McDonald crowd were just as hostile. None of these was ever mentioned as a possibility in a coalition government, and that accounts for the unrelenting opposition to it.

After the coalition overtures were declared off the dissension in the Liberal ranks came to the surface. They had a party caucus and could not agree. A committee was appointed to try and frame up an amendment that would hold the crowd together. But that proved to be impossible, because the Quebec men would make no compromise—they are opposed to compulsory service and opposed to the continuation of Canada in the war—that is the rock bottom fact, while on the other hand the strong men of Ontario and the West are in favor of compulsory service.

There was therefore a split that could not be bridged, and Laurier had to make a choice. He decided to stick to the Quebec wing and those who will follow him on a motion for referendum in a sense he is to be pitied. His position is trying. The once great leader is no longer a leader of a party. He is only the leader of a faction.

His speech on the second reading was an apology and an appeal. "Bear me, hear me, for my cause," was his plaintive cry. He tried to argue that his Militia Act of 1904 did not authorize the government to send troops out of Canada; but the fallaciousness of his contention faded away in the presence of the law. As Sir George Foster pointed out the words of the law are plain and the meaning is clear. Sir Wilfrid admitted that Quebec had made a poor response in enlistments. He tried to excuse the default by blaming the government; but he did not offer to go into Quebec and get the men required. He held out no hope in that regard.

The official figures show that out of a population of 1,605,339 French Canadians in Quebec only 6,979 have gone overseas. The total enlistments from Quebec Province are 23,000. Of these 6,979 are French, the remainder English speaking. There are 400,000 French Canadians outside of Quebec, and these have sent more men to the front than have the 1,605,339 of Quebec men. The French Canadians outside of Quebec have responded well.

These startling figures staggered Sir Wilfrid, and his speech was a great disappointment, especially when he concluded by asking that the great and pressing duty of sending reinforcements to our brave sons at the front he shelve while we fight out a referendum at home.

Sir George Foster replied to Sir Wilfrid Laurier in a brilliant oration. But the stroke that fell heaviest on the old Liberal Leader was delivered by one of his biggest men who sits immediately behind him Hugh Guthrie believed to be the ablest man in the Liberal ranks, delivered it in a powerful speech on Tuesday. He demolished Sir Wilfrid's specious arguments the Militia Act, described a referendum as un-British, and

declared that he is in favour of coalition, of extension of parliament and of the Borden compulsory service Bill. He will vote against Laurier's amendment and for the Borden Bill. His great speech made a profound impression.

On Wednesday Mr. Barrette of Berthier threw a bombshell at Laurier by moving the six months hoist as an amendment to the amendment. This means that Sir Wilfrid must get out from his referendum and vote squarely for or against the principle of compulsory service. He is much worried over this, as his Quebec friends are demanding a square avowal from him, and he is trying to hedge on referendum.

The next crack came on Tuesday when the Chief Liberal Whip F. F. Pardee who is the closest man to Laurier, made a strong speech and took the same ground as Hugh Guthrie. He breaks, and will vote against the Laurier referendum and for the Borden Bill.

The same evening a western Liberal, George McCraney, of Saskatoon followed the lead of Guthrie and Pardee and declared against Laurier's referendum and for compulsory service.

Before Mr. McCraney spoke Thursday night L. J. Gauthier of St. Hyacinthe caused a sensation. He spoke strongly for the Laurier policy and closed with a memorable threat that his electors would "fight the matter out." The House understood his extreme language "in this fight there will be pain and suffering." "We may have to go to the direst consequences" to mean that the law would be opposed by force. In other words that he and his electors would rebel.

On Friday Sir Wilfrid was given another stunning blow by his first lieutenant, George P. Graham—the man who sits beside him in the House, at the same desk. Mr. Graham, it is true, prepared the way for his revolt by making a violent attack on his government; but when the wind had subsided he announced that he too would vote against his leader's referendum amendment and in favour of Sir Robert Borden's compulsory service Bill.

Added to Mr. Graham on Friday were two other Liberals, W. A. Buchanan of Medicine Hat and E. W. Nesbitt of Oxford, who announced their intention to vote against the referendum and for the Compulsory Bill.

Comment at this stage is unnecessary. Sir Wilfrid's adherence to the Quebec malcontents is causing his party to crumble to pieces. His best men are going him; and he sits in his place a picture of despair. There are more to follow; and the signs of times are that his days as the leader of a united party are quickly running out. There may be new parties but Sir Wilfrid if he remains can never be more than the head of a faction.

The debate will likely continue all of next week. Meantime the government are dealing effectively with great and important public matters. A fuel controller has been named. A Grain Board has been appointed, and a food controller is also appointed. These are all given the greatest of powers to deal with the vital questions of coal and other fuel, wheat and foods, the pieces thereof, and transportation of them. These public officials will all co-operate with the United States' authorities to make section common to both countries.

#### G. A. L. MONEY WASTED.

On Luxuries is Needed by the Country.

In one city alone in the Dominion it is estimated that half a million dollars a year is spent in unnecessary parcel deliveries from departmental stores. In England small parcels deliveries have been refused since the early months of the war. Millions of dollars are being wasted in Canada in just such small ways. Those millions are required for war purposes. The average Canadian family before the war wasted 25 per cent of its food.

That waste is still going on, though to a lesser extent. But there must be elimination of waste, denial of luxuries, sacrifice of personal convenience and rigid exclusion of extravagant methods if the country is to bear its war burden and maintain its military industrial and financial establishments.
