### OWNING A HOME. (Duluth Herald)

We have advocated home owning for people on ealaries and wages because it is only going into debt for something of this sort that the average owner of moderate pay can ever hope to get anything ahead.

The trouble with a salary, in about 99 cases out of 100, is that it is merely a living. The man on \$12 a week lives on it, and he lives on his salary when it is doubled, trebled or quadrupled. Rarely he save, because his demands exstart toward building and take

and at least as rapidly as his pay.
But if he gets enough ahead to make bull by the horns by investing what he has and becoming responsible for the balance, he will meet his obligation some how, and when he is paid up he owns something. If he keeps on renting, all he has after a term of years is a bundle of rent receipts that he can't cash in for as much as a cup of coffee and a dough-

Never, he says have conditions been so conductive to romance as they are to-day. Modern in entions have made the path easy for lovers. A century ago a woman waited for weeks or even months for a message from a distant lover; to-day "long distance" brings them into direct communication whenever the desire arises—and even may ever the desire arises—and even may she speak with him far out at sea by means of the wireless, while by means of the phonograph his very voice may ring in her ears at any of the day she wills to a button.
