THE TORMENT IS REAL

Dr. Torrey Says "Hell Is the Insane Asylum of the Universe, Where Men and Women Remember.

Toronto, Jan. 17.-A material hell Toronto, Jan. F.—A material hell, like in its nature unto the Calvinistic conception of a place of torment, wat that preached by Dr. Torrey in Massey Hall last night.

Dr. Torrey said he was going to speak

on a solemn and awful subject, one that he never dealt with without reluctance and pain. He would be very glad to believe that there was no hell. There had been a time when he tried to believe in universal salvation, but he had had to face the truth that there was a bell.

"By the grace of God I will save you," pronounced Dr. Torrey. "Almost anything other than sin is better than hell," was a phrase twice repeated.

Hell was an absolute certainty Many people might say that all the scholarly preachers had given up faith in an orthodox hell. This wasn't true. There was scholarly preachers who believed in such a hell. Others who did

belleved in such a hell. Others who did not had given up their conception out of sentimental reasons. Anyway, it didn't prove anything.

Hell was certain Jesus, the Aposties and God Himself had said there was a hell. Against this there were only the speculations of theologians and the dreams of poets.

Thousands of men and women in Toronto were in a very practical hell, which was getting worse every day. The Bible showed a way of escape, and

The Bible showed a way of escape, and

the infidel was guilty of incredible folly, in refusing to accept it.

"Hell is more certain than that when the sun goes down to-night it will rise again to-morrow," declared

the preacher.

Hell was a place of very great bodily suffering, said Dr. Torrey, who quoted Biblical passages descriptive of torment of the damned. It might be claimed that the terms used were figurative, but it should always be remembered that they stood for facts, and that God's figures never overstated the facts.

cts.
"Remember, that in the next world "Remember, that in the next worta we are not disembodied spirits. That idea is not Bible, but Greek philosophy," said the speaker, who went on to say that the Bible taught resurrections at the present of a body as real as the present

one.

If hell was a place of bodily suffer-

ing...it was still more so a place of memory and remorse. "You men will remember the women whose lives you blasted and blighted. "You men will remember the women whose lives you blasted and blighted. You women will remember how you spolled your lives in fashion and foolishness and frivolity instead of living for God, who made you. Everybody will remember the opportunities despised of taking Christ," was the assertion of Dr. Torrey. There was no torment like that of an accusing conscience.

"Hell is the insane asylum of the universe, where men and women re-member," was the concluding meta-phor.

"The blood is the life." Science has never gone beyond that simple state-ment of scripture. But it has illumnever gone beyond that simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. No one can be well balanced in mind and body whose blood is impure. No one can have a wholesome and pure life unless the blood is pure. Foul blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. When the blood is pure, body and brain are alike healthy, and life becomes a daily happiness.

Free.—Dr. Pierce's Common Sense Medical Adviser, 1008 pages, 700 illustrations, is sent free on receipt of stamps to defray expense of mailing and customs. Send 31 one-cent stamps for paper covers, or 50 stamps for cloth, to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y.

Everywhere the great changes are regarded as a revolution, portending big changes in the future. In England discussion as to the causes of the de-bacle has begun, and several of the vic-torious and defeated candidates have been telling how it happened. Liberals claims that free trade is swaying the question in their behalf. No Unionists question in their behalf. No Unionists have yet placed the blame on tariff reform. They affirm that Chinese labor and education, together with the opinion it was time for a change, have brought about the change. They profess to believe that tariff reform is still the winning policy.

Sir George Bartley, defeated at Islington, says: "Far from defeating me, tariff reform was one of the factors tending the other way."

#### CZAR'S FIRM DECISION.

Has Ordered Council of Ministers to Laws of Russia.

Laws of Rushia.

London, Jan. 18.—The St. Petersburg correspondent of The Times cables:—Although the present Government's apparent determination to persist in a policy of reaction, taken in conjunction with the disastrous condition of the country's finances and the spectre of famine and unrelenting bitterness among all classes, does not encourage the hope of a peaceful development of the Russian crisis there, is, at least, one bright spot in the horizon. This ray of light is furnished by the persistent, unshakable determination of the Sovereign to introduce constitutional Government. It is announced to-day that the Emperor has ordered a council of Ministers to elaborate an amendment of the organic borate an amendment of the organic laws of the empire in conformity with the manifesto of October 30. Although the announcement is not official, I am satisfied that it certainly represen-the intentions of Nicholas.

A Grain-Famine.

Second reports from the famine districts are very alarming. Grain cannot be transported owing to the disorganization of the railway service. It is eported from Kieff that agrarian outrages have broken out afresh. Police-master Rostoff on the Don has been indicted for not preventing a massacre

NEW BUILDING AT FAIR.

Foronto Council Authorizes Large Ex-penditure on Industrial Exhibition.

Toronto, Jan. 18.—Upon the recommendation of the Board of Control and the architect in charge, Mr. George W. Goulnlock, the City Council yesterday decided to award the contract for the new Process of Manufacture and Agricultural Implement building at the Exhibition to C. R. S. Dinnick for \$81,000. hibition to C. R. S. Dinnick for \$\$1,000. The building will have a root and dome constructed of sieel trusses, and will be of an entirely modern and complete design. The successful contractor has entered into an agreement to have the building ready for occupancy by June 30, so that plenty of time will be allowed for fitting up the interior and placing the exhibits before the Fair opens.

Another Millionaire Dies.

Cincinnati, Jan. 18.—A cable despatch from Cairo, Egypt, brings the news of the death there from pneunonia of Thomas J. Emery, the multimillionaire of this city. Mr. Emery left Cincinnati alone last summer for left Cincinnati alone last summer for North Africa, making his tenth trip to that country and his fittleth to Europe, and recently spent some time at Al-giers. Mr. Emery was 70 years old.

Dismissed From Navy. Annapolis, Md., Jan. 18.—At noon vesterday, when the full brigade of midshipmen were paraded for the regu-lar dinner formation, Midshipmen Pet-ersen, Barto Marboni and W. W. Fos-ter of the first class and Tromtor Coffin, Jr., of the third class, were publicly dismissed from the United States nav for hazing fourth class men.

Fire In Windsor.

Windsor, Jan. 18.—Fire completely destroyed the residence of Capt. James Innes, superintendent of the Michigan Central Railroad car ferries, vesterday morning. Capt Innes carried his wife from their bedroom through smoke and flame to safety, and neither was ser-iously burned. The loss is about \$7,000, with partial insurance.

detrysburg, Fenn., believe in advertising and in doing it thoroughly, constantly and systematically. They have no wares to sell at bargain counters, but they are enlisting men, women and children in civic duty becoming a pleasant fad, or at least a habit.

The scheme is unique, and has already become popular. A galvvanized box is attached to each electric light pole at street corners, and upon its side is the legend in plain letters, "Keep the Town Clean." This box is for the deposit of refuse, and its use has been faickly learned through promptings from the police and the example of chizens. Fruit was tage and cigar butts find their way to these receptacles instead of being thrown into the street to offend the senses of sight and smell, while scraps of paper, torn envelopes, fend the senses of sight and smell, while scraps of paper, torn envelopes, the candy boxes of children, and a thousand things not particularly offensive are gathered there instead of being blown about the sidewalks, into nooks and crannies or into private yards and alleys.
