The Edison Talking Pictures.

Another Edison triumph, the wonderful Talking Pictures, will be projected for the first time locally at the Opera House on July 4th. In witnessing a performance of these truly marvellous pictures one learns that it is only a picture speaking, really not even a picture, but a thing of lights and shadows, more unstable than water and less material than air. Skeptical give way to amazement and then to enthusiastic pleasure, the illusion being so perfect that the performers in the pictures themselves are very frequently applauded.

Wolfville Athletic Association.

Last Monday evening a number of the young men of the town met in the Conservative club room and organized a Wolfville Athletic Association. The officers elected are as follows: Hon. Pres.—H. E. Calkin. President.—Arthur Young. Vice Pres.—J. E. Hales. Secy.—J. W. Williams.

The secretary-treasurer will also do the work of the business manager for the time unless the work becomes too heavy. An organizing committee composed of Judson Harris and Lloyd Woodman was also appointed. Iren Young was elected captain of the base ball team and Joe Duncan was secy.

It is hoped that in the near future this association may be joined with the Hockey club.

Something along this line is what our town has been in need of for many years and we are glad that there are at last prospects of a good healthy athletic association in Wolfville, which will not only prove of great benefit to the boys but a valuable asset as an advertisement for the town, and feel sure that the citizens will do all in their power to help it along.

Permission to use the College camp has been obtained and base ball practice goes on every evening with the materials at hand a good team should be put on the field at an early date. One game has already been played, in Parrsboro on June 30th, when the Wolfville team won with a score of 21-7. It is hoped that one game a week at least may be arranged which we know, will be well patronized by the public.

All interested in athletics are invited to attend the next meeting of the association which will be held on Monday evening, June 30th, at 8.30 in the Town Hall.

Desirable FROM ANY ANGLE

Take the viewpoint of security. Only a comparatively small bond issue ranks prior to the 7% Cumulative Preferred Stock of the Wolfville Mill Company, one-fourth of which is retired annually, thus yearly increasing the security behind the Preferred Stock. Even allowing for the bonds now outstanding there are other assets equivalent to \$100,000 every \$100 share of Preferred Stock.

Examining the past excellent earnings record of the Company, then take into consideration its present greater earning power, resulting from recent factory improvements, and you will find ample assurance of the dividend requirements being met.

If you will finally consider that each share of Preferred Stock at the service as a bonus a half share of Common Stock, which now has a book value of nearly \$80 a share, you will agree with us that he has lost in taking advantage of this very unusual investment opportunity. We still have a few copies of the circular.
