Hence the date of the birth of Christ must be placed towards the end of 749; that is to say, five years before the date assumed by the Christian Ere, which was fixed, in the sixth century, by Denis le Petit, as in the PROGRAMMES sixth century, by Denis le Petit, as in the People are camped on hill tops. The contributor in that quarter to the Cincinnati News Journal relates a fragment of his personal experience as follows:—"To be expelled from the floor of the House is not such a great calamity after all. I once detected a statesman in Harrisburg stealing a \$250 pair of lace curtains and \$300 or \$400 worth of furniture from the State House, and in my innocence printed the fact. There was a vast amount of virtuous indignation over the publication, and, of course, I was forbidden the right to go upon the floor, where the thief and his fellow-thieves sat as peers of the Common wealth."
