Christmas at the Methodist Orphanage.

The Superintendent of the Methodist Orphanage wishes to thank all who by their kindly generosity have helped to make this Christmas one of the very happiest that the girls have ever known. One of the wee tots who celebrated Christmas at the Orphanage for the first time, this year, remarked: "I never used to believe in Sandy Claus, but I do now."

The bustle, the excitement, the continual arrival of packages, parcels, etc., combined with the eager expectancy of and delight of every girl seemed to impress upon little Priscilla the fact that back of all the gifts themselves there was some wonderful, real and very important person, and that that person could be none other than "Sandy Claus." We assure every "agent" of Santa that they were indeed instrumental in making this Christmas a very Merry and Happy one for all at 165 Hamilton Ave. We take this opportunity of wishing all a very Happy and Prosperous New Year.

Following is a list of donations received at the Orphanage:—

In an article which recently appeared in the London "Evening News," Mr. W. G. Faulkner stated: "In making my inquiries I discovered one significant fact. This was that one company—the Gas Light and Coke Company—had among their consumers 2,000 doctors who had gas fires installed in their houses, some as many as ten or a dozen; that 1,500 of these doctors had become users of gas during the past three years; and that not one had ever given them up."

Professor C. V. Boys, F.R.S., says, in the "Standard": "Sentiment and inertia are the only obstacles against the general adoption of gas fires and cooking appliances. Wonderful studies have been made, in spite of deep-rooted prejudice. A gas fire, burning with a blue, is an admirable agent for heating a room; and, as a scientist, I fail to understand how such a gas fire dries the air in a room more than any other fire."

From Fort George.

To William McCue,
Fox Harbor, Placentia Bay.
Dear Friend,—Just to let you know I am well, hoping you are the same. We arrived here yesterday (Tuesday) and like to be here; it is much better than under canvas. You would never know it from home. It is so comfortable and the people are just the same. We get a great reception everywhere we go. We had a Highland band to meet us yesterday at the station and accompanied us to the Fort. We are, I think, here for the winter, and I expect we will be going into action by the spring. We will have good times here; we are in town and will get constant leave. I saw a lot of strange things and strange faces since I saw you last, German prisoners and wounded soldiers, etc. London was the nicest place I ever saw or "ever will again," as "Uncle Ned" used to say.

I think my news is pretty near exhausted now, so I'll be wishing you good-bye and a happy Xmas. Hope you'll spend a happy one. No more at present.

Your friend,
(Private) PETER SAMSON.

At the Crescent.

Robert Leonard, the great Rex actor, is featured to-day at the Crescent Picture Palace, as The Man and Helen Case, as the "Salvation Lass" in "The Dream," a powerful Rex drama being the story of a Salvation Army Rescue. King Baggar is presented in "The Heart that Sees," a gripping drama produced by the L.M.P. Company. "The famous Glenwood Mission" is an interesting scenic picture. The "Universal Animated Weekly" is a full reel of current topics, not one dull item in the whole reel. The frontier company sustains the comedy part with a lively comedy picture "Where Wits Win." All the frontier comedy stars are represented in this funny farce. J. O'Neill Farrell sings a very fine ballad "Tis only a face in the firelight." The above is a good show. Cheapest patrons were delighted with it yesterday and so will you be when you see it today. On to-morrow "The Banker's Daughter," a great 2-reel Eclair drama.

"STARR" HOCKEY SKATES

THE MODERN MERCURY

Mercury, the winged messenger of the gods (according to ancient legends) had small wings on his feet to speed over the land with the ease of a bird.

But Mercury had no advantage over the modern skater who uses Canadian-made "STARR" Skates.

"STARR" Skates take the place of wings—they are light, strong, comfortable—and enable the wearer to skim lightly and confidently over the ice—whether in pure fun or the swift sport of a hockey game.

The popular "STARR Mic-Mac Featherweight" Hockey Skate (trademark registered at Ottawa) shown at the bottom of this advertisement is a speedy hockey skate, and equally good for rink skating.

It is especially strong, because of the bar connecting the heel and sole plates. The specially welded and tempered steel blades retain their cutting surface longer and better. Very little sharpening is needed.

Fitch yourself to a "STARR" Skate and surprise yourself and your friends.

"STARR" Skates are equally good for artificial or natural ice.

We absolutely guarantee "STARR" Skates unconditionally—if they break, take them back and get a new pair.
