## Work-Horse Parade Yesterday.

A Splendid Turn-Out --- 30 Prizes Awarded---Horses Were Handsome Ones---Many People Present---Second Parade of Its Kind Held in St. John's.

The second annual parade of St. John's working horses was held yesterday afternoon, when the deep interest taken in it, the handsome horses entered, the favorable weather and the half holiday, made the procession the most successful to date. Nearly a hundred and fifty horses had been entered, and although all of these did not participate, the number there was large and most gratifying to the organizers of the parade. The object is to encourage drivers and owners of the noble animal to treat him with humaneness and consideration.

There were eleven classes in the parade and competition: Heavy draft horses; truck horses owned and driven by truckmen; truck horses not owned by truckmen; express and delivery horses; cab horses; farm horses; ponies used for hire or express delivery; ponies, private and not used for hire; privately owned carriage horses, not used for hire; old age horses, ten years or more in the same service; and pairs of truck horses.

At the Government House Grounds they were drawn up, side by side, to form a square, with the horses' heads facing in. The judges were:—Major G. T. Carby, Mr. M. A. Bastow, Mr. Matthew Butler, Mr. A. E. Perkins, Mr. H. Macpherson, Mr. William Woodley, Mr. H. R. Cook, Mr. Henry Cowan, Mr. Thomas Lynch, Mr. Chas. R. Steer, Mr. R. Hennebury, Dr. A. Campbell, Mr. J. C. Barter, Mr. A. V. Ross, Rev. Flower Day.

On Saturday, the 8th inst., a Flower Day will be held by the Women's Patriotic Association in aid of the Child Welfare Fund. The W. P. A., through its Child Welfare Committee, is undertaking to finance the Movement during the coming year, and a very large expense will be the defraying of the salaries of the three Community Nurses, so it will be understood that the need for funds is great. The work as at present carried out comprises the distribution of clean milk to needy babies; the visiting of mothers and newly born children the practical instruction of mothers by the nurses in the care and feeding of their children; and the education of the public in the necessity of pure milk and intelligent care for young children. At present the Nurses pay about 1,000 visits a month, and the result of their efforts in lessening the Infant Mortality in this city is remarkable. In August, 1917, there were 21 deaths among babies under a year old; in August, 1918, 6 deaths; in August, 1919, 2. This is very encouraging, and inspires the workers to further efforts. It is intended, as soon as possible, to establish Milk Stations in different parts of the city, so that all needy babies can be supplied with pure milk. The W. P. A. asks the help of the generous public of St. John's to make the forthcoming Flower Day a complete success.
