

Food Riots in Frankfurt and Cologne

Yankees Champions by 4 Games to 2--
Floods in Oklahoma--Britain is Concerned over Loss of Craftsmen--International Fishermen's Race on October 27.

FLOODS IN OKLAHOMA.
OKLAHOMA CITY, Oct. 15. Western Oklahoma, with hundreds of acres along the north and south Canadian rivers, is inundated and the higher ground, seeping and dotted with water puddles, is suffering the worst flood in the history of the State. Thirty towns are cut off from communication and in some sections train service has been at a standstill for three days.

YANKEES CHAMPIONS.
NEW YORK, Oct. 15. Beaten and crushed after one of the most spectacular world's series fights in history the New York Giants to-day surrendered to the Yankees the World's Championship Banner they have flown for the past two years. The Yankees won the sixth and final game this afternoon at the Polo Grounds, the lair of the Giants, by coming from behind and scoring five runs in a dramatic pulse gripping eighth, just as it seemed that the McGraw men, fighting desperately, would tie the series, and force a seventh contest to decide the struggle. The Yankees scored one in the first innings, when Babe Ruth made a home run, and the Giants scored one in their half. The Giants scored one run in each of the fourth, fifth and sixth innings. The final score was six to four, thus the American League Champions, by a decisive margin for four games to two, gained the first world's title in more than two decades of embattled history.

LOSS OF CRAFTSMEN WORRYING BRITAIN.
LONDON, Oct. 15. The loss of many of the best craftsmen of Great Britain who are seeking employment abroad, particularly in the United States, is said to be causing the trades unions and employers of the United Kingdom considerable concern. In the past four months more than forty thousand emigrants left Scotland for the West, twenty-one thousand going to Canada and over nineteen thousand to the United States. In August twenty-eight thousand left Scotland for Canada. A large number of these went to engage in harvest work and the great majority are remaining in the Dominion.

IRON ORE DISCOVERY.
TORONTO, Oct. 15. The Provincial Geologist, Mr. Miller and his assistant R. G. McConnell, have gone to the Mississauga Forest Reserve to examine a reported new discovery of valuable high grade iron, said to grade twenty-three per cent. pure. While no official information is available to-day, it was stated that if the find as reported actually exists, it will mean the opening up of a new era in iron manufacturing in Canada. The ore bodies are said, in preliminary reports from the prospectors, to be of considerable extent.

A SUICIDE.
EAST WENTWORTH, Cumberland Co., N.S., Oct. 15.—With a large portion of his head literally blown off, evidently as the result of a shot from a revolver lying by his lifeless body, Walter William Swan was found in a barn of his premises here early this morning. In his pocket was a note stating he had contemplated taking his life for many years. A coroner's jury returned a verdict of suicide. Swan was forty-five years of age and is survived by a wife and four children. He had always appeared contented.

TO OPEN TUT'S TOMB AGAIN.
LUXOR, Oct. 15. King Tutankhamen's eternal sleep will again be disturbed next Wednesday, when an army of Egyptian laborers, under the direction of Howard Carter and other archaeological experts, will remove the temporary steel doors from the opening of the tomb. Tut's remains lie between an immense pile of earth and stone which the Earl of Carnarvon threw up to protect the tomb from robbers who abound in the valley of the Kings to-day as they did three thousand years ago.

FOOD RIOT AT FRANKFURT.
FRANKFURT, Oct. 15. One worker was killed and three seriously injured on Saturday in a clash near here between police and food demonstrators.

POLICE FIRE INTO CROWD AT COLOGNE.
COLOGNE, Oct. 15. One woman died Saturday from wounds alleged to have been inflicted by police who fired into a crowd of food rioters. The police say factory

workers pelted them with hot coals and they were forced to use their arms.

12 FOREIGNERS DROWNED.
DETROIT, Oct. 15. Twelve foreigners in a rowboat being smuggled across the Detroit river twelve miles down from here were drowned when their craft was struck and demolished by a lake steamer.

JAPANESE VOLCANO AGAIN ACTIVE.
TOKIO, Oct. 15. The famous volcano Mohara, on Oshima Island, has again become active, according to despatches received here. It is said to be emitting volumes of smoke and lava.

A RECORD ATTENDANCE.
NEW YORK, Oct. 15. Another new record for attendance at the world's series games was set yesterday when 42,817 people paid their way into the Yankee Stadium for the fifth game. This number is 387 greater than for Columbus Day when the record was set. Yesterday's receipts were \$219,459. The total receipts for the five games has reached \$924,563.00.

PLEADED GUILTY.
FORTYORTH, Texas, Oct. 15. Pleas of guilty to using United States mails to defraud in furtherance of their oil schemes were entered before Judge John N. Killets of Toledo, Ohio, in the Federal Court by seven of those indicted with Frederick A. Cook, Arctic explorer, who went on trial to-day.

BLUENOSE MAY AGAIN BE DEFENDER IN SCHOONER RACES.
HALIFAX, Oct. 15. The first race for the International Fisherman's trophy will be sailed off Halifax on Saturday, Oct. 27th. The decision was arrived at, at a meeting of the cup trustees here and meets the request of the American Race Committee. Owing to lateness of the season and the comparatively short time allowed for preparations for the International classic, it is doubted if there will be Nova Scotia's fleet race this year. Trustees, however, have left the decision with vessel owners and captains. A. H. Zwicker, Chairman Lunenburg Committee will receive entries for Nova Scotia race up to noon Thursday this week. If by that time there are not sufficient entries, the Bluenose will be nominated defender of the International trophy.

COLUMBIA GRAPHAPHONE CO. IN DIFFICULTIES.
NEW YORK, Oct. 15. An involuntary petition in bankruptcy was filed to-day in the Federal Court against the Columbia Graphophone Co. Liabilities were placed at approximately twenty-one million dollars and assets at over thirteen millions. Judge Learnedhand appointed H. L. Wilson President and General Manager of the company and James R. Sheffield as receivers. The petition was filed by Allen R. Hemphard, attorney for the creditors.

McLACHLAN PLEADS NOT GUILTY.
HALIFAX, N.S., Oct. 15. James B. McLachlan, former secretary District 26, United Mine Workers of America, pleaded "not guilty" to three counts of indictment charging him with seditious libel in the Supreme Court here to-day.

MOTHER!

Child's Best Laxative is "California Fig Syrup"

Hurry Mother! Even a bilious, constipated, feverish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful to-day may prevent a sick child to-morrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Traveller Criticises Road Repairs in St. George's

Editor Evening Telegram.

Dear Sir.—I have heard a lot of at one time and another of the manner in which the road monies of this country are wasted, but I never saw such a vivid example of that waste as I did on the West Coast a few days ago between Stephenville Crossing and Port au Port, where sixty or seventy men were at work throwing mud, sods and grass on the road which in turn became mixed into a thick paste by the October rains, thus making a bad road almost impassable.

This slush will be all washed away by the fall and spring's rains, and the second state of that road will be far worse than the first: I was given to understand that there is about three thousand dollars to be spent in this way, which is a bit of criminal extravagance considering that a good road means so much to the people of that locality, particularly the Port au Port section of it, which is some 18 miles distant from railway service. Everyone, even the men working on the road, agreed that it was throwing the money away, spending it in repairs at this season of the year, and that the proper course would have been to make safe any dangerous places and to spend the balance of the money next summer when value could be had for it.

Ten or twelve years ago this was one of the best bits of road in the country, and a carriage drive from Stephenville Crossing to Port au Port was a pleasure. To-day it is a journey that any one who can will try to avoid, and it is not at all surprising to find so many leaving that part of the District of St. George's, where if it had a fractional part of the transportation facilities of other parts of the country it could supply homes and comfortable livelihoods to hundreds of industrious families from the eastern seaboard who now have to seek the same in Canada or the United States.

Yours truly,
TRAVELLER.

Yokohama to Lose Supremacy

Kobe, Oct. 13. (Can. Press.)—Not only is Yokohama likely to be abandoned as the home port for many Japanese and foreign shipping lines operating out of Japan, but the city will probably lose for ever its supremacy as the silk exporting centre of the Far East. Just where the main volume of the silk trade will shift has so far been undecided, but Kobe, Osaka and Nagoya are being given first consideration. Warehouses formerly used in Kobe for other purposes are being put into condition to serve as silk emporiums, and railways are being built to link up these buildings with the wharves. Kobe is already well connected with Shinshu and other silk-producing centres.

It is reported here that life insurance companies have decided to pay claims in full in the case of deaths due to the earthquake. The payments will be made notwithstanding the moratorium. Fire insurance companies are working on a plan to pay losses in part. As to refunding the premium for the remaining period after the destruction of the insured object, common ground has been found on which the companies will act. Technically the insurers are under no obligation to make such refund, but they will waive their obligation and pay 30 to 40 per cent. Forty per cent. payment involves about \$2,000,000. The government estimates the amount insured against fire in the devastated regions are more than one billion dollars, while the means possessed by the companies aggregates about \$150,000,000. The government is being asked to share the loss with the insurers.

Telephone Service to be Re-Established

KOBE, Oct. 11.—(Canadian Press).—Two hundred thousand telephones are required to replace those destroyed by the earthquake and the Department of Communications is negotiating with firms in the United States. The manufacturing plants in Tokio which have been supplying the government with all telephone equipment used have been destroyed, and the stocks in Osaka and other centres have been exhausted. Telephone poles and wire that were burned at Tokio and Yokohama cannot be used, and new material will have to be imported.

BIG MUSICAL BILL AT THE CRESCENT THEATRE TO-DAY.

Farewell Week—PAT HARRINGTON—in Novelty Hits and Dances.

"The Infamous Miss Revell"
A beautiful Six-Act Social Drama featuring the winsome star ALICE LANE.

For Masonic Installation Night

MEN'S GLOVES

Finest grade French Chamois Gloves in spotless White; 1 Button wrist. Special ..

\$2.50

ed. It is probable that orders for poles will be placed shortly with Canadian or American lumber mills.

Profiteering Feared

Kobe, Oct. 13. (Can. Press.)—Will the Japanese earthquake disaster and the resultant demand for building materials in vast quantities lead to the greatest orgy of profiteering this country has ever witnessed? Unless the Japanese government steps in and curbs operations already well underway, such an event is almost certain to materialize. As soon as the first reports of the earthquake's destruction reached China brokers commenced to buy up all the tin plate and iron and steel available, and now Japanese buyers are in the Chinese markets, ready to pay top prices for everything they can obtain in the building line. The exact damage to iron and steel stocks in Tokio and Yokohama cannot be known for some time. On July 20, a total of 145,257 tons of pig-iron was reported lying in stocks in the principal cities of Japan and Dalren. The stock is believed to have varied very little since.
