WILL COME TO OPEN WARFARE SAYS PERSHING

Commander of the American Forces Believes Allies Will Have Huns on

the Run

Loughe

miles miles with a furning training tra

CAL

land, granget r harn per years

Gil

Prac

Suite

With the American Army in France, Oct. 13.—Gen. Pershing gave strong indication today that he believed with other American observers that the day will come when the Germans will break

and run and that open warfare will return to Europe.

He indicated this opinion in an address he made to the officers of an American battalion which had just completed a practice assault on a sysem of trenches Gen Pershing made the trip of many miles to the scene of the assault for the purpose of getting his first look at the troops in fighting

maneuvers.
After watching closely he issued or hers that the American soldiers must continue their practice in the use of the rifle and not fall into the habit which has recently become prevalent of discarding the rifle for bombs, mortars and other special weapons which are less accurate and often useless outside of trench warfare.

Natural American Weapon. "The rifle is the natural American weapon," the general stated, "and I want to see it used. I believe the time will come in this war when the rifle will prove to be the most effective, no matter what is said about trench warfare." As already announced, the Americans

make larger use of the rifle than the

soldiers of other armies, believing in the ultimate return of open fighting. There has been a tendency of late among the soldiers, however, to regard the rifle as of less use than bombs trench mortars and the like, and some instances rifle practice has been neglected by the soldiers in their at-tempt to perfect themselves in the handling of the weapons more applicable to trench warfare. The maneuvers which Gen. Pershing witnessed were similar to those recently described in these dispatches. Gen Pershing was greatly interested in the operations and had each company commander make a personal report to him after the attack, giving all details of their company's work. During the course of these talks with the commanders, the general remarked that he moticed the absence of the use of rifles and emphasized the

importance of continuing practice with that weapon. Germans Want Chance at U. S. A new batch of German prisoners arrived a few days ago at the concentration camp not far from a village where some American troops are quartered. Among the Americans who went to look them over were some German Americans able to converse with prisoners. After they had peeped at each other through the wire enclosure, the following was heard: "You fellows are getting a good lick-ing in Flanders and at Verdun," said an American. "Wait until we get a

crack at you and you'll get another."
The Germans, obviously dispirit
were virtually unanimous that t blows of the British and French have well nigh broken down the German "We are about ready to quit." one said, but we are holding out for just one thing. We want to get one crack at you damned Americans. After that satisfaction we are willing to confess

a beating." NEW ORGANIZATION OF QUEBEC LIBERALS

Province Must Not Be Isolated from Rest of

Province

Montreal, Oct. 14.-A new organization of Quebec Liberals held a caucus to discuss the political situation and came to the conclusion that this province cannot be isolated from the rest of the Dominion and that the interests of Quebec should prevail over party feelings, says the Standard. Continuing, the Standard says that at the meeting it was agreed to imme-

diately start a campaign to operate

against this isolation and that Hon. J.

L. Perron, M.L.C., and Hon. H. Beland,

M.P. for Beaucal, now interned in Ger-

many, were selected as patrons of the

new group. It is understood that Mr.

Perron will direct the campaign. CALGARY ENGRAVING CO.
