Don't always take it as a compliment
if a man visits you to the door.
It may be simply to make sure you go.

Work and Play.
The London Free Press is not pleased at
Mr. Hyman because he relieves the mo-
nopoly of parliamentary work with a
little physical exercise at cricket and
lawn tennis; and it tries to cast
odium upon him among those who would
advocate "fortuna" and that allow much
time for such health-giving pastimes. A
short time ago the same journal had an
alarming article on the mortality in Par-
liament, from which it drew the impres-
sion that if members would spend more time at
cricket and lawn tennis, and less in the
smoking room and some other places equally
unhealthy, vacancies in the ranks of well
known members of the present Govern-
ment would be filled by men of more vigor
and energy.
