BASEBALL.

TORONTO'S TEAM.

Toronto World: Manager Irwin telegraphs that he has signed Jack Carey for 1928. Carey's record in the Western League has been an enviable one. In 1927 he played 134 games at first base for Grand Rapids, and led the first basemen of the league, with an average of .359, accepting 1,437 chances out of 1,452. In the same year his batting average was .339. In 1927 he played for Kansas City, and managed that team in the early part of the season, but a broken ankle caused his retirement, and subsequent release, after participating in but 41 games, where he fielded .939 and batted out an average of .345. With Gaskins on third, Cockman at short, Taylor at second and Carey at first, the Toronto infield is now complete.

U. S. NATIONAL LEAGUE PROCEEDINGS.

Philadelphia, Nov. 10.—The annual meeting of the National League was opened at the Hotel Walton yesterday. The first meeting was that of the board of directors, which, according to a statement given out by Secretary Young, was an important and important. Following this the national board of arbitration went into session to dispose of matters unfinished at last meeting. Then came the first session of the National League and American Association of Baseball Clubs, or "The Big League." President Young was authorized to establish an office in the business section of Washington for the transmission of league business, and the Boston club was officially awarded the championship of 1927.

The most important subject before the board of arbitration was the petition of the class A leagues for a modification of the drafting clauses of the national agreement. The petition met with no opposition, and it was decided that its provisions should be recommended to the National League for adoption. The suggested change provides that no player can be drafted by the National League unless he shall have at least served two years in the class A league from which the draft is desired to be made. Class A consists of the Eastern, the Western and the Atlantic leagues. The drafting price will remain at \$200. The change does not prevent the purchase of any minor league players by a National League club through mutual agreement of the clubs interested, and transfer from the minor to the major league through purchase or trades can at any time be made as heretofore. An amendment to the drafting clause was also recommended to the league for approval, which grants permission to the National League clubs to loan a player to a minor league club, with the understanding that the player can be recalled on five days' notice. No business whatever was transacted at the meeting of the league proper.

FLYING.

Connie Mack already has 28 men on his Milwaukee list for next season. Ten of this number are pitchers and five catchers.

The latest report in the baseball world is that Chris Von der Ahe found himself in such financial straits, with no prospect of any further help from the league, that he has sold a large block of stock in his St. Louis club to John T. Brush. The multi-millionaire will control the Browns next season.

FOOTBALL.

FOOTBALL LABEL SUIT.

Chatham, Nov. 10.—At a meeting of the city football club Monday night the situation in the Peninsula League emette was discussed for two hours. President Pigott reported having forwarded a letter to the Mail and Empire respecting the imputations cast upon the club from Windsor sources, anent the recent match here, and fully explaining the true position of affairs. Turning to the reports published in reference to the match last Saturday, it was formally decided to serve at least one more of the St. Thomas Journal, with notice of a suit for libel; the Windsor Record, Detroit Free Press and the Mail and Empire were considered later on. In the case of the Journal the officers of the Chatham club complain that they were singled out and charged with the grossest and most scandalous conduct.

CURLING.

The second international bonspiel of the Detroit Curling Club will be given early in January.

Up above the flickering light,
You tinkle, tinkle every night;
But ere long there will be snow,
Then you will not tinkle so.

ENGLISH EVENTS.

At the second day's racing of the Lingfield Park November meeting, Mr. H. V. Long's 2-year-old bay colt Amherst won the Cane selling nursery handicap. Sixteen horses ran. Mr. August Belmont's bay filly Sovereign won the Caterham maiden 2-year-old plate of 100 sovereigns.

TIPS.

The Chicago horse show is said to have cost \$22,000, while the receipts from all sources amounted to only \$60,000. The Legislature gave \$10,000 towards the show, but where the \$22,000 is to come from the dispatch does not say.

CRICKET.

ENGLISHMEN WIN.

Melbourne, Victoria, Nov. 10.—The cricket match which was begun here on Saturday last between Capt. Stoddart's English eleven and an eleven representing Victoria, was concluded today, the visitors winning by two wickets.

BYES.

The last tour of Mr. Stoddart's team in Australia, three years ago, was so successful from a financial point of view, that each of the contracting parties made a profit of over \$5,000.

ATHLETICS.

BOXING PROHIBITED AT CHICAGO.

Chicago, Nov. 10.—There are to be no more boxing contests in Chicago. Chief Kipley has said it, and it goes. The order has gone out to all commanding officers of police stations, directing them to stop all such contests. Since Mayor Harrison's election there have been several so-called athletic clubs organized, whose object has been simply to foster the sport. Scores of battles of more or less importance will now have to be called off.

BLOOD.

McCoy and Cresson cannot fight in Chicago or New York, and yellow fever will prevent a match at New Orleans. The fighters will not go to San Francisco, so the prospect of a scrap between the two is as remote as it was a year ago.

TELEGRAPHIC BREVITIES.

A heavy snowstorm prevailed in Ottawa on Tuesday.

The tenth annual winter meeting of the Geological Society of America will this year be held in Montreal, commencing on Dec. 28.

Mr. Alexander Allison, the father of James Allison, is at present soliciting subscriptions to pay the expenses of the defense for the coming murder trial.

The prevalence of disease among cattle around Inverary, Ont., is reported. The nature of the disease appears to be anthrax. One man lost six head of fine cattle.

A dispatch from North Hatley, Que., says: The large summer boarding house known as Glen Farm, and owned by Mr. Putney, was destroyed by fire about 5:30 Tuesday morning.

The Houghton passenger and a freight train on the South Shore line collided on Monday night at Brown's Sliding, one mile west of Champlain, Mich. Wm. H. Green, the oldest engineer on the line, was fatally injured.

Charles Burnett, aged 19, was found dead near Little Current last Wednesday. He went shooting on Tuesday night, and it is thought he tried to climb a tree to get a look at a pond, and in pulling the gun up after him accidentally caught the trigger.

The negro section of the Georgia insane asylum at Milledgeville, was burned on Tuesday. There were within the walls at the time the fire broke out over 700 persons, but no lives were lost. The buildings covered about four acres; loss, about \$100,000.

The Auer Incandescent Light Company claim the right to collect a royalty from Windsor merchants who use the Weisbach light purchased in Detroit, and Robert Padden and Morton & Christie, of the former place, have been threatened with writs of injunction and actions of damages.

The pending change of proprietors at Government House, Toronto, will not affect Commander Law's position. He has received a letter from Sir Oliver Mowat, asking him to retain his third berth at the gubernatorial mansion. The commander was secretary to Hon. Alex. Campbell during his term of office, as well as for Lieut.-Gov. Kirkpatrick.

Harry Van Zandt, who was recently arrested in Buffalo, brought back, and convicted of being the principal thief of the gang who broke into the Massey residence in Toronto, and stole \$1,500 worth of jewelry, told the police where the booty was hidden, and the whole stock was found in rear of McMaster Hall, in a hollow covered with brush.

Treasurer—Miss E. M. Bechtel.

Superintendent of Junior Department—Miss E. Tagg.

Miss Roblyn favored the audience with a solo in her usual artistic style, and the church choir, under the direction of Mr. W. H. Hewlett, rendered a beautiful anthem during the evening.

Catarrh, like scrofula, is a disease of the blood, and may be cured by purifying the blood with Hood's Sarsaparilla. Young doves and pigeons are fed with a sort of pap secreted by the parent bird. It is necessary to their existence. They die without it.

Worms cause feverishness, moaning and restlessness during sleep. Mother Graves' Worm Expeller is pleasant, sure and effectual. If your druggist gives you no stock, get him to procure it for you.

Flowers. Insects are simply attracted by the perfume and rich colors, and by the abundant supply of pollen, which serves as food.

"Turn the rascals out!" the familiar party cry—may be applied to microbes as well as to men. The germs of disease that lurk in the blood are "turned out" by Ayer's Sarsaparilla as effectually as the old postmasters are displaced by the new administration.

Dawson's Food Problem

Remains a Most Perplexing Question.

Seven Steamers Were Overdue There on Sept. 23.

A Colony of Girls Going to the Gold Region—Proposed Shipment of Horses and Cattle.

Nanaimo, B. C., Nov. 10.—The steamer George W. Elder has arrived here. Among her passengers was Donald Nicholson, who left Dawson on Sept. 23. Mr. Nicholson says the food problem was a most perplexing question when he left Dawson. Seven steamers were then overdue. Mr. Nicholson says that Shookum Gulch proved an absolute failure outside of one claim. He believes the country to be rich, but it can never be properly developed until provisions are cheaper. Work is plenty at \$1.50 per hour.

TO SEND OUT SEVEN THOUSAND HORSES.

Winnipeg, Nov. 10.—Dr. Reynolds, of Ashcroft, B. C., says that his company intends to take in 7,000 horses over the Tesli Lake route, and thousands of cattle as soon as the ice breaks up in the spring, for the Klondike.

The Scroogie party, bound from Montreal to the Klondike, have already spent \$30,000, and they have not reached their destination.

WONT INSURE GOLD HUNTERS.

Montreal, Nov. 10.—Anyone who intends to go to Klondike hereafter will find it impossible to get insurance companies to give them a policy. This is what Mr. Gwilt, Montreal agent of the London Guarantee and Assurance Company, said yesterday. The accident companies have decided not to accept any more risks on merchants, miners or others going to the Klondike. They will, however, pay up claims for accidents happening in the Klondike on policies taken out before the holder had decided to go there. Asked about the case of the late Fred Coppe, ex-manager of Vancouver, who died in the Klondike building a policy for \$100 in the London Guarantee and Accident Company, he stated there was no truth in the rumor that the policy would not be paid. All similar claims will be paid, but they will not take any new risks.

WOMEN COLONISTS.

New York, Nov. 10.—Mrs. Hannah Gould, who is championing the 40 women who will sail on Dec. 1 for the Klondike, via Cape Horn, says: "No woman can go along who is under 24 years of age. Each woman puts \$300 in the common treasury. Then all are pledged not to go into any business without my permission. We intend to prevent them from rushing, harem, scarum, into bad schemes. I am a business woman, you know. We intend to form a social club. We will try to attract the young men to us and guide them in the proper path. We will attend to their spiritual welfare and do our best to raise the moral standard of the community. We have a portable hospital in the hold. We will charge those who are able to pay for our services, but will attend to the poor gratis. Some ladies are going to open a hotel, others have been put on a boarding-house; two or three are going to run stores; one or two will do dressmaking, while some will attend to the rooms of the club we are going to establish. One lady is going to start a reading library. The women are going to a library in that region, where so many people of intelligence have gone. The ladies will all wear knickerbockers, skirts and high top boots. They will wear fur in the winter, while the summer costumes will be made up of alpaca and cashmere. We think it is very sensible costume."

A GOLDEN ISLAND.

Sault Ste. Marie, Mich., Nov. 10.—There is an island several miles from the Soo down the old channel from St. Marys, where gold has been discovered. The island is owned by R. B. Durnion, of this city, and H. E. Leland, of the Canadian Bank of Commerce. At the close of the year, Mr. Durnion was aware of there being a vein of gold-bearing quartz on the island when it was purchased, and had assays made of the surface rock, which showed enough gold to warrant a further investigation. In company with Donald McLean, an old miner of St. Paul, who had been in the Rainy Lake gold country, and who had just returned from the Michipicoten region, Mr. Durnion left for the island to look for the find. They put a couple of blasts into the vein, and brought back quartz to be assayed. The quartz is of a decomposed, white, sugary nature, and is a good indication of gold in large quantities. The assay compares favorably with anything yet discovered in the vicinity of Wawa Lake.

Piano Popularity

Doesn't come by accident. The reputation of a piano must be built on solid merit. A Piano must have a full, rich tone; a light touch; a pronounced and beautiful case. We know of no piano that combines all these good points to so remarkable degree as the BELL Piano.
