They have no appetite; food does not relish. They need the toning pof the stomach and digestive organs, v. sich a course of Hood's Sarsaparilla will give them. It also purifies and enriches the blood, cures that distress after eating and internal misery only a dyspeptic can know, creates an appetite, overcomes that tired feeling and builds up and sustains the whole physical system. It so promptly and efficiently relieves dyspeptic symptoms and cures nervous headaches, that it toms and cures nervous headaches, that it once. seems to have almost "a magic touch."

Hoods Sarsaparilla

Is the best - in fact the One True Blood Purifier. Hood's Pills pills, aid digestion. 25c.

Those Sewer Levels.

The Average Depth in East London Will Be Twenty Feet.

The Levels of Various Street Corners in No. 5 Ward.

There were some doubts expressed as to the depth of the proposed intercepting sewer, so far as the eastern part of the city is concerned. The levels having been retaken, show that the depth is ample for drainage. For example: At the corner of Dundas and Qutbec streets the depth is 18 feet; at the corner of Dundas and Egerton the depth is 16 feet, and on Dundas, at the eastern boundary of the city, the depth is 15 feet 9 inches. Other depths at street corners are:

At Dundas and Ontario... 24 Dundas and English... 21 Dundas and Elizabeth... 30 Dundas and Adelaide..... 32 Lorne avenue and Adelaide. 17 Lorne avenue and English.. 14 Lorne avenue and Ontario.. 15 Elias and Adelaide...... 19 Princess and English (the

All through No. 5 ward the average depth is about 20 feet. Along the line of Carling's Creek the depth is less than anywhere else, but even here 11 feet is the least. All through No. 5 ward the sewer will be at least 8 feet below the level of the bed of the creek.

SHE SMOTE HIM IN CHURCH. Monroe, Mich., Aug. 22.—The second trial of Millie Hoffman for assault and battery upon John Frazer in a church at Maybee, closed yesterday. Millie was found guilty and fined \$5 and costs, amounting to \$100. Frazer had as black an eye as ever a man could receive from a pugilist. Fortyone witnesses were sworn.

TICKET-SCALPING. nto. Aug. 22.—James Haw completed a term in the Central Prison on Thursday, and was given a ticket for Berlin. Instead of using it sold it, and in consequence was fined \$20 and costs, with the alternative of ten days' imprisonment, in the police court yesterday morning.

SUNDAY STREET CARS. Toronto, Aug. 22.-The Sunday car question was threshed out again by the Toronto city council yesterday af-ternoon. The general feeling of the council was that they should not commit themselves to the submission of the bylaw until a satisfactory agreement should be arrived at with the street railway company and resolutions in accordance with this sentiment were drafted. It seems the wish, however, of the majority of the council to have the bylaw presented as soon as possible, and it is likely that it will be submitted to the people this fall.

A Fibre Chamois Ad.

Men, as a rule, care more for comfort than for style, still no man is averse to a neat well hanging coat that keeps its shape through all kinds of knocking around. This is one of the extras that Fibre Chamois furnishes when used as the interlining in men's clothing. It not only makes garments thoroughly waterproof, provid-ing a healthful warmth which can't penetrated by the severest wind or cold; but its flexible spring and stiffness make the coat or vest fit well and keep its proper hang till worn completely out. And the beauty is that it is so light you wouldn't know you were carrying anything extra around, and so cheap that it is in everyone's reach.

"And you really tell me that you have no paupers here?" said the astonished traveler. "Not a durn one," said the native. "How could we, when Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain. What it has done once it will do again.

London, Aug. 22. - Albert George Whitehead, one of the Irish political prisoners, who has been serving a life sentence of penal servitude since his conviction in London in 1893, was reeased from Portland convict prison this (Saturday) morning. Whitehead is an American citizen, and prior to his coming to this country, resided in the State of New Jersey. Reports from confidential sources say that Whitehead is mentally unbalanced as a result of the severe treatment he

received while in prison. ANOTHER VERSION He-He that courts and runs away will live to court another day. She-But he that courts and does not wed may find himself in court in-

BROKE HIS WHALE TO HARNESS.

The Animal Was Reared on a Bottle, and the Rest Was Not Difficult.

and the Rest was Not Difficult.

A Portland, Ore, corresondent writes: In the North Sea lives a while that has no equal in the waters of any other ocean, according to the doubtless veracious yarn spun by Captain Black, who is just back from Pop Off Island, Alaska, where he is connected with the customs department at Sand Point. This whale, whose name, Bulshoy, in the Aleut tongue, means big in bone and large of tail, was captured when a calf, in the spring of 1894. It was then eighteen months old and about fifteen feet long. It was corralled in Pirate Cave Bay, the entrance to which is not more than 100 feet wide, across which a strong wire net was stretched by John C. Wiley, the storekeeper at the island.

Whiley and his native servant, Eff-Whiley and his native servant, Ff.

teha, made an attempt to feed Bulshoy and were successful. Whiley rigged up a walrus bladder, to which he attached six or seven feet of garden

hose; four or five gallons of cow's milk were poured into the walrus bladder bottle, and Whiley and Efteha paddled alongside of the pup in a bidarka, or native cance. By dint of coaxing the Indian persuaded Bulshoy to take to the bettle and when the to take to the bottle, and when the men started for the shore the whale followed, and from that time on was ready to go wherever the boat went. For the next six weeks he was fed twice a day, until at last the mammal would come when called from any and the Misses Sloane are heiresses to at least \$3,000,000 apiece. The Misses Gerry are usually set down as among the greatest heiresses in America. Miss Angelica stands in the prospect of at least \$15,000,000.

Miss Edith Shepard is the daughter of Mrs. Elliott F. Shepard, another sister of Cornelius Vanderbilt, and Miss Edith will some day have a fortune of several millions, while Miss Minnie Taylor is likely to come in for not less than \$7,000,000.

Miss Amy Bend is one of the two children of Mr. and Mrs. George H. Bend, and is the favorite niece of Isaac and Amy Townsend, bachelor and spinster, respectively, both advanced beyond middle age, and both very wealthy and, it will be noticed, Miss Bend bears the name of her spinster aunt.

Little Miss Gladys Vanderbilt, the sister of the bride, is only 14. She is awfully pretty, and there is already at least \$15,000,000 in sight for her when she comes into her fortune.

This will probably be Miss Edith Shepard's last appearance as a bridesmaid, for she is to play the leading role herself in November, when she will be wedded to Ernesto G. Fabri.

Costumes for the six bridesmaids have arrived from Paris, and they are

guy ropes or reins attached to the harness without the whale standing on his head and disappearing.
Oct. 1, 1895, Whiley and Efteha took
the long boat belonging to the station, and attaching a tow line to the harness band, just in front of the fore flipper, began a cruise around the bay. In a surprisingly short time Bulshoy would pull the boat in any direction desired. May 21 of this year, Whiley and his Aleut took the net from the mouth of the bay, and, according to a pre-arranged programme, struck out into the deep water for Oonga Island, sixteen miles away. This voyage, the first of its kind since the creation of the world, was made without a mis-hap. They afterward made a voyage from Pop Off to Karluk Island, and from there will drive Bulshoy south

by easy stages. It is the intention to stop on the way south at all of the summer re-sorts along the Oregon and California coasts, and the novel sea chariot is expected off the Oregon coast between

THE WEATHER TODAY: Unsettled showers.

The newest things in neckwear for ladies is the Ostrich Feather Boa. They are more than fashionable—they are comfortable, which cannot be said of everything that style dictates to be worn. We have just opened up a large number to sell at a variety of prices from \$1 25 up to \$10. They're elegant, and you'll buy them if you see them. Your choice of black or white and black.

New Millinery

Ships from across the sea have just brought in our first lot of new fall Millinery, consisting of Sailor and Walking Hats, Feathers and Flowers. It's extremely difficult to describe satisfactorily in print such a beautiful line of goods. We think it would be best for you to call and inspect-2 thing most ladies take delight in doing. This is our first shipment this season from Paris, and it is wonderfully attractive.

New Fall Dress Goods

A number of cases of new Fall Dress Goods have arrived from the foreign markets-Serges, Fancy Tweeds, Boucle effects and a number of other novelties. Those who've been awaiting their arrival are reminded that it is necessary to make an early visit. New Fall Goods are now in great demand. The lot contains the nicest and newest patterns to be obtained in the old country markets. The popular color this season is green, or any of its many pretty shades. Of course we have a very complete variety of colors, as will be seen by consulting our large show window, which is dressed just now with a number of the newest patterns. If what you want isn't there, it may be in the store. If not, we will have it soon. New goods are coming in every day—new customers also.

EXTILE BUCKSKIN has no superior as an interlining for skirts and sleeves. It is better than more expensive interlinings, admitting free circulation of air, and is waterproof. Price 25c.
