\$5,000FOR **VICTORIA** HOSPITAL

Council Indorses Proposed Outlay for Alterations.

Grant of \$1,625 to Charitable Institutions—Matter of Advancing Salaries Deferred Till Estimates Are Made-Proposal to Raise the Rents on Market Stalls.

If matters of more than ordinary importance were sifted from the mass of small things considered at last night's meeting of the city council, they would form a quota of almost insignificant until the estimates are brought cown. bulk; yet the time consumed in discus- ! sion was from 8 o'clock until within sion was from 8 o'clock until within range for repairs to the market house half an hour of midnight. Committee and that the rents of the stalls be reports were practically the only business before the council. A recommendation to grant \$5,000 in debentures to make necessary alterations at Victoria Hospital carried without oposition; and another regarding the granting of \$1,000 to the Old Boys was referred to the finance committee. An important idea was embodied in Ald. Jolly's motion to offer the city engineer's services to the school board while the erection of new schools is going on. This suggestion will find many supporters, who consider that too much money is being spent for engineering work in this city.

Referred to No. 1-A. Johnston, for grant to Trades and Labor Council to Edward street and the Wharncliffe defray expenses of Labor Day celebra- road; Thomas Lindsay against cement tion; Mrs. George Moffatt, Mrs. Tregenza, Susan Elliott and Richard Hill, for remission of taxes; Henry Wade, re Queen's avenue, between English voting machines; W. H. Ferguson, street and a point east of Adelaide, against enlargement of library; Stephen Grant, for privilege of obtaining from registry office list of transfers of real estate; J. D. Balfour, submitting estimates of hospital trust; R. W. Blackwell, submiting estimates and requisition for debentures.

No. 2-W. A. Shannon and E. J. Orendorf, for cement walks on north Beaconsfield avenue and east William street, between King and York, respectively; J. J. Brierley, for position as inspector of cement walks: David Petch, against cement walk on east Wharncliffe, between Blackfriars and Empress avenue; George Carty, against laying cement walk on South street; W. T. Parsons, against cement walks on against cement walk on west Gunn street, between Oxford and Saunby; J. H. Taggie, against walk on west Col-borne, between Oxford and St. James streets; J. A. Nelles, re fair grounds

repairs.
No. 3—For electric light at corner of Waterloo and Victoria; Meredith, Judd, Dromgole & Elliott, against leasing the market house to one person; M. Mc-Crimmon, against watering Pall Mall street from Adelaide to Waterloo; B. G. Clampitt, for watering Bathurst street between Colborne and Burwell.

Few People Escape Piles

And Dr. Chase's Ointment Is the Only Positive and Guar anteed Cure for This Tortur ing Disease

There is usually very little satisfaction in consulting a physician regard-ing a case of piles. In nine cases out of ten he will recommend a surgical operation, forgetting, it may be, risk, suffering and physical as well financial expense which this treatment entails. For this reason very many people are going about in misery with piles, believing that they cannot be cured except by means of the surgeon's

It is to such persons that this advertisement will bring good news of great ant; also that it would be inadvisvalue. Dr. Chase's Ointment has able to mix the work of the two ofgrown in populartiy until today it is cognized the world over as the standard ointment for the cure of itching, burning skin diseases, and as absolutely the only preparation that can be relied upon to cure every form of piles. It seems strange that anyone should suffer the wretched uneasiness and acute torture of burning, itching piles, when it is so easy to procure Dr. Chase's Ointment. Nearly every deal-er in medicine keeps Dr. Chase's Ointment, and you can apply it at home without any inconvenience. The first application is usually sufficient to put The first an end to the itching, and it is rarely that more than one box is required to

make a thorough cure. Hosts of cases in which Dr. Chase's Ointment has actually cured serious and long-standing cases of piles have been reported in the Canadian press. should you want to know more about t ask your druggist or your neighbor. There are few people in Canada who are not familiar with the record of this famous prepartion. If your dealer does not have Dr. Chase's Ointment in stock it will be sent postpaid on restock it will be sent postpaid on re-ceipt of price, 60 cents a box, by Ed-manson, Bates & Co., Toronto.

H. Reynolds, re grant of watch on account of services in South Africa.

The mayor and relief inspector were given power to deal with M. Wilson's application for admission to Aged Peo-

ple's Home. Mr. A. C. Clark, corresponding secretary for London Typographical Union, No. 133, communicated the union's opinion that the Walkers' offer re the Port Stanley road was not acceptable. Filed

for reference.

The invitation to the mayor and council received from the Toronto Old Boys Association for their annual din-ner, to be held March 25, was accepted. and as many of the council as possible will attend at their own expense.

The application for the use of the city hall by the Lotos Club for a ball on the evening of Friday, April 12, was

NUMBER THREE COMMITTEE. On the recommendation of No. 3 committee, the petition of Mrs. Watts et al. for watering Lyle street was granted. George A. Rowe's petition for an electric light at the west end of Oxford street was deferred until the estimates

are brought down. The committee recommended that Chief Roe's salary be increased \$100 per year, and that the salaries of the firemen who have served the city for seven continuous years be increased \$25 per annum more than at present. Deferred

that the engineer be instructed to arraised from May 1, to be as follows: Eighteen stalls upstairs that now bring in \$80 50 per month, to \$7 per stail per month, or a total of \$126; 20 stalls in the basement that now bring \$41 per month, to \$3 per month for 18 stalls and \$2 for two dark stalls, or a total of \$58 per month.

A general opinion prevails that the rents should not be increased, unless the building was put in a proper state of repair, so that clause was referred back to the committee.

A similar disposition was made of

another clause confirming the former recommendation to remove the verandahs on the market house.

NUMBER TWO COMMITTEE. The following petitions were allowed on recommendation of No. 2 committee: J. M. Thorpe against cement walk on South Briscoe street, between walk on North Grey street, between Clarence and Wellington streets; Adam Nichol, against sewer on

Lorne and Queen's avenues. The following works will also be advertised: Cement walk on east side of Mamalon street; cement walks on eas Waterloo, between King and York streets; sewer and storm water drain on Wortley road between Duchess and

Tecumseh avenues. Number two's recommendation, that Malloch & Company's tender to make certain repairs to the steam roller. caused considerable discussion, in the course of which Ald. Cooper said that in his opinion there was something strange in the acceptance of Malloch's tender, when White & Son's tender

Ald. Winnett replied with some warmth, resenting the insinuation that crooked work had been done. Ald. Cooper, he said, should be more definite when making such statements. No one had known the name of the tenderers when the contract was

Ald. Gerry and Ald. Jolly favored referring the matter back to the committee, and learning the cost of a new machine in exchange for the present

Ald. Cooper moved in amendment that White's tender be accepted. Ald. Cooper said that the committee's recommendation should not be treated as this was. Too much time was being taken speaking of such a small thing. It would be foolish, he added, to get a heavier roller.

Ald, Garratt interrupted Ald. Parnell, and resumed the debate as soon as the latter had concluded.

"O, sit down," said Ald. Parnell, as "I wish to say, gentlemen," said Ald. Garratt, angrily, "that I am a bricklayer, and if a bricklayer can't knock down a baker, he's no good." order!" inter-"Order! gentlemen, order!" interposed the mayor, "You must avoid

The original clause carried.

NUMBER ONE COMMITTEE. No. 1 committee was of the opinion, according to its report, "that the best method of giving the city clerk competent assistance in his office is to provide him with clerical help." Ald. Parnell moved that a young man able to run a typewriter be secured to assist Mr. Kingston, and Ald. Cooper moved to transfer some of his work to the assessment commissioner's of-

Mr. Kingston explained his position, and Ald. Olmsted said that he believed that he should be given an assist-ant; also that it would be inadvis-

fices. Ald. Greenlees had found upon examination that Ald. Cooper's suggestion was not feasible. Ald. Winnett agreed that Mr. King-

ston needed an assistant, particularly because of the work necessitated by local improvements. Ald. Jolly said that it was his sug-

gestion in the first place that the lo-cal improvement work should be transferred to the assessment commissioners. He drew attention to a by-law that stated that no city official should do outside work. Mr. Kingston

was doing this.

In reply, Mr. Kingston said he did not think that ever before in his fourteen years' connection with the city, had an alderman referred to his private affairs. He doubtless referred to his auditing at the London Loan Company's accounts, which he did eight or ten years before he became an em-ploye of the city. This had not taken time from the city, and he hoped that what Ald. Jolly had said would not influence the aldermen in the matter of giving him assistance.

Ald. Jolly said that he had not in-

tended to assail Mr. Kingston in any way. Other city officials he knew were doing the same thing, but if there

"We have no such bylaw," said the city clerk. "The bylaw simply states that no city official may accept remuneration from the city for outside

ed and the clause in the report was adopted, thus leaving the matter over until the estimates are considered. GRANTS MADE.

The following grants were made: Protestant Orphans' Home, \$350; Mount Hope Orphanage, \$200; Young Women's Christian Association, \$200; Salvation Army Rescue, \$75; Convalescent Home, \$100; Charities Organization, \$200, and Children's Aid, \$500; also a further grant of \$250 to the latter, provided that \$1,000 subscriptions be obtained for the debt upon the Shelter Home before Dec. 31 next. In the matter of the London, Aylmer and Port Burwell Railway, the mer and Port Burwell Railway, the committee recommended that this mu-nicipality will not oppose the granting of the charter. Carried.

OTHER COMMITTEES.

The reception committee's suggestion to grant \$1,000 to the Old Boys was referred to No. 1 committee. The limit of the free water supply

for the Wigle factory was fixed at 1,200 gallons a day. A list of South African war veterans and a copy of the address presented to them were ordered to be printed in the minutes.

special committee reported through its chairman, Ald. Parnell, that application be made forthwith to the legislature of Ontario during this present session for power to issue a debenture of the corporation for the sum of \$5,000 for the purpose of maknecessary improvements at the Victoria Hospital, in accordance with the views of the hospital trust. Ad-

The committee re amendments to the municipal act reported having made application to the legislature towards the remodeling of the present London West breakwater, and making it a permanent structure, and that they were assured of favorable considera-The committee also reported a consultation with parties interested in the beet sugar industry, with the result that a factory would possibly be erected in this city in the near future. The other amendments, as already agreed to by the council, with the exception of that relating to the latter's control of other boards' estimates, were reported as having been favorably considered.

Ald. Parnell's motion that \$200 be placed to the credit of the manufacturer's committee for beet sugar purposes was adopted. Ald. Jally's motion that the city engineer's services be offered to school board in connection with the erection of the proposed new schools was adopted by a vote of 7 to 4. Ald. Garratt's motion to reconsider the award of cement walk contracts

MOTIONS.

was negatived. Ald. Cooper gave notice of motion to reconsider the decision to grant the \$200 to the manufacturer's committee.

Courage Brother may be obtained. and Sister!

IS ABLE TO RESCUE AND SAVE THOUGH DISEASE AND SUF-FERING MAY BE DRAG-GING YOU DOWN TO

THE GRAVE.

While Paine's Celery Compound with promptness and certainty cures the ordinary ills of life that people suffer from in spring time, its medicinal virtues and powers are far-reaching enough to banish disease and suffering even after the sufferer has been pronounced incurable by his or her

physician. Paine's Celery Compound has, according to the honest testimony given by hundreds of well known Canadian ed them with a new lease of life. Mrs. Louisa Warner, of Montgomery, N. W. T., writes thus:

"For some years past my nerves and system were almost wrecked by narcotics, used to alleviate pain. The doctors could not help me, and I thought I would forever have to re main a slave to deadly drugs. I often longed for death as a release from my sufferings. After enduring agonies that were terrible, I determined to try Faine's Celery Compound, without any full hope that it would cure me. When I had used a part of the second bottle, I thought it was doing me good, I could sleep well, and did not faint so often, and I decided to continue the use of the medicine. After the use of fifteen bottles, I am completley cured. I feel so strong and well now, and have such perfect health, that I sometimes think it is too good to be true. For the benefit of thousands of poor sufferers from disease and the deadly effects of narcotics, I give my statement-an assurance that Paine's Celery Compound will cure them."

Dr. Cook, the Antarctic explorer, brought back 30,000 new words from Terra del Fuego.

IT MAY BE only a trifling cold, but neglect it and it will fasten its fangs in your lungs and you will soon be carried to an untimely grave. In this country we have sudden changes and must expect to have coughs and colds. We cannot avoid them, but we can effect a cure by using Bickle's Anti-Consumptive Syrum the medicine that has every home. Syrup, the medicine that has never been known to fail in curing coughs, colds, bronchitis and all affections of the throat, lungs and chest.

In 1790 New York had a colored population of 25,978. TO CURE A COLD IN ONE DAY Take Laxative Bromo-Quinine Tablets.
All druggists refund the money if it fails to cure. 25c. E. W. Grove's signature is on each box.

The young man who leaves twothirds of a cigar on a dark corner of the doorstep when he calls on his best girl will make a frugal husband. son, Kinloss, writes: "I venture to say few, if any, have received greater benefit from the use of Dr. Thomas' Eclectric Oil than I have. I have used it regularly for over ten years, and have recommended it to all sufferers I knew of, and they also found it of great value in cases of severe bronchitis and incipient consumption."

When a man looks upon the performance of a duty as a task, the chances are it will not be well done. THE HEALTHY GLOW disappearin from the cheek, and moaning and rest-lessness at night, are sure symptoms of worms in children. Do not fail to get a, bottle of Mother Graves Warm Extermi-nator; it is an effectual medicine. Carelessness is the twin brother of

hibition at the Pan-American Exposi-

The Bond issue, \$8,000,000, is secured by a mortgage to the National Trust Company, Limited, covering all the property of the

The General Manager, Mr. A. Moxham, has written as follows:

Sydney, C. B., March 1, 1901.

President, Dominion Iron and Steel Company, Limited, Montreal, Canada. Dear Sir,-I am glad to advise you that No. 1 furnace is in successful operation, and we have been able to measure results by accomplished facts. Whatever doubt may have existed as to the manufacturing possibilities at Sydney are now removed. Speaking in detail:

1. IRON ORE-The developments at Bell Islands, both by the drilling done and by headings put in, have demonstrated the certainty of the ore supply. The ore under cover is of better quality than we had counted on as standard. It exists in a bed of full depth—low in silica and high in iron. Notwith-standing the fact that we mined last year only about 120,000 tons, and that we unloaded this by hand instead of by machinery, and that we charged off into this small tonnage the expense of a long strike at Bell Island, the cost of the ore delivered at our dock, f.o.b. steamer, was only \$1.62 a ton. Our estimate is based upon the figure of \$1.25. This result charge and sugarantees to us a based upon the figure of \$1 25. This result shows our estimate to be a safe one. The ore, as anticipated, works kindly in the furnace, and guarantees to us a large product per furnace.

2. LIMESTONE—We have two supplies—Georges River and Marble Mountain. We are operating at present with the Georges River stone at a cost of 60 cents a ton, which is within our estimate. The unusual purity of our flux has enabled us to control both the silica and the sulphur in our pig metal to an unusual degree, and with the use of a minimum amount of flux. We have in our very pure flux an asset of great value.

3. COAL-We are operating our bi-product ovens with unwashed coal, nevertheless the coke manufactured is of excellent physical quality. It is capable of hard driving, and of maintaining the burden in the blast furnace without trouble. While slightly higher in sulphur—as must be the case until we wash it—our pure flux, as stated, renders this no disadvantage to us. We have demonstrated that the question of washing is not a necessity, but purely an economic question. The coke from washed coal will be fully equal to the celebrated Connellisville standard—the sulphur will be no higher, the ash lower,

4. LABOR—The plant is constructed with every modern labor-saving device, and, after that interval of time necessary to get every new plant well organized in labor department, our cost sheet will challenge comparison with that of any steel plant elsewhere. 5. COST OF PRODUCTION—I am confirmed in my opinion, hitherto expressed, that after crediting the value of the bi-products from the coke ovens, the cost of our pig iron should not exceed \$5.50 per ton after everything has been reduced to steady practice. The quality is all that could be desired. In conclusion, we are safe in counting upon a reasonable profit from the start, and a handsome increase in the same as the product reaches its

Yours truly, A. J. MOXHAM, General Manager Dominion Iron and Steel Company, Limited. ((Signed)
