hard for a sane man to understand. Somebody got it, however. Most of the slabs presented by the states bear simply names and dates in large, bold letters that defy umbrellas and the like, and these remain untouched, save by pencils that mark their owners' names only to have their traces washed off on the next cleaning day. But of the delicate carving there is little left. The handsomest though one of the smallest, measuring 3 by 5 feet, is that presented by the American Medical Association, representing a group of the fa-thers of medicine. It is about midway up the monument, about where climbers rest, and about 4 feet from the floor—a convenient reach. Hence the condition of the figures—two headless and three armless. She was attended by her sister, Miss Jennie Leathorn, who was daintily gowned in dimity, trimmed with lace. The ceremony was performed by Rev. Mr. Edwards, of Toronto, cousin of the bride, in the presence of the immediate relatives of the bride and groom, who stood under a beautiful bell of marguerites and ferns. The bride was charmingly attired in a gown of Indian lawn, trimmed with chiffon and lace, and carried a bouquet of pearl roses. The groom was supported by his brother, Mr. H. G. There is cause for anxiety when cough hangs ou for a year and can't be shaken off. The quickest way to relieve that anxiety is to begin at once the use of Dr. Pierce's Golden Medical Discovery. It is a cough remedy, but it is also a great deal more. In far advanced stages of disease, when hemorrhages have been frequent, and there have been emaciation and weakness, "Golden Medical Discovery" has produced a perfect cure. It increases the supply of the life fluid—blood. It cleanses the blood from impurities, and sends a current of rich, new blood to build up the weak places in the body with new life.
