H. C. Becher, stock broker, Bank of Commedce building, received the follow-ing by private wire from Bartlett, Frazier & Carrington today: New York, March 10-Noon.—The local transactions up to noon probably reached a very large aggregate; nevertheless, out-side business improves but little, and the trading seems to be mainly confined to the professional element, to some specu-lative houses, and to brokers who have Connections with important interests. Union Pacific, which was the leader in the London market, shows evidences of liquidation. In B. and O. dealings were heavy, and sharp advances took place. Generally with such a market the room was filled with various stories of railroad was filled with various stories of railroad deals, most of which had been heard be-fore. Copper, which was so strong yes-terday, was inclined to lag behind the rest of the market, profit-taking being in evidence in it. Commission houses would like the market better if it had a less artificial appearance. Sales to noon were 765,700 shares:

SUED FOR \$100 FOR WORK DONE

But London Township Says That George Hatch Acted Without Proper Authority.

A session of the first division court was held this morning with Judge Macbeth presiding. There were about 35 cases on the list, but all were concerned with only minor amounts with the exception of a peculiar suit against the township of London. George Hatch was suing the council for \$100, the maximum amount which can be recovered through the division court. The sum sued for had been \$116, but the plaintiff decided to forego the \$16 in order to have the case tried in the division court. Hatch claimed that the money was due him for certain work he had done in grading, ditching and graveling roads. The township council, on the other hand, denied that they had ever authorized the work, declared that they had already paid plaintiff \$100 for work done previously, and saw no reason why they should hand ever any more cash. Plaintiff claimed that he had been instructed to do the work by a county commissioner. It is alleged, however, by the defense, that the said commissioner had been out of office for one year when the work was done, and that, therefore, he would have no power to authorize any such work. Judgment was reserved until the 22nd inst. Meredith & Fisher for plaintiff, Meredith, Judd &

Dr. Hutchinson's Edict Re Contagious Patients

Hospital—First Move in a Much-Needed Reform.

Dr. Hutchinson, medical health officer took the first step today toward the reformation of the contagious ward at Victoria Hospital when he issued an edict that under no consideration will more than sixteen patients be allowed in the contagious ward of Victoria Hospital. This action is taken in deference to the wishes of ex-Mayor (Dr.) John D. Wilson and a number of other prominent physicians, who have pointed out in emphatic terms to the board of health that a reform must be instituted in the contagious ward of the hospital. They pointed out that the many children who have been sent to the hospital. suffering from scarlet fever, have been attacked by a secondary infection, and have left the hospital devoid of hearing, and afflicted with other ailments. Dr. Wilson told Dr. Hutchinson and Dr. English in plain words some days ago that under the existing conditions he would refuse to send children to the them to the gravest dangers. Dr.Wilson's argument was right in line with Dr. Hutchinson's opinions and after going into the matter thoroughly once again, the medical health officer deided to make a change at the hospital. Once again City Engineer Graydon is in the midst of a letter-writing controversy with the London Street Railway Company over the matter of snow on the streets. > The members of the Thames River Angling Association are still hopeful that the new Provincial Minister of Public Works, Hon. Dr. Reaume, will refuse licenses for seine fishing on the Thames this season.

It was reported the other day that Dr. Reaume had decided to renew the licenses held by the fishermen, but the following letter received this morning by the president and secretary of the and Mr. J. O. Weldon, respectively, shows that the matter is still unsettled. It is from Dr. Reaume's private secretary: "In the matter of fishing licenses on

the River Thames, the honorable the minister desires me to say that he has decided to receive deputations, representing both sides of the case, of six nembers each, at his office, in the Parliament buildings, on Saturday, March 18, at 2 o'clock p.m."

The association will again send a de-

Adam Beck has been interesting himself in behalf of the angling association, and he may again appear with the deputation. Mr. W. H. know that at last something is about o be done to do away with this seinefishing, which is considered by us to be a rank outrage. It is and always has been considered by us in this vicinity to be one of the greatest prejudices against the farmers and those living near the river. The fact that these fish are shipped in bulk to the United States, and we cannot even buy a fish from our own river, appears to us to e a very grave crime, not only against the sporting element, but the residents in general. We have been subject to this act of Parliament, granting these licenses, which we consider manifestly unfair, for a number of years, and we think that it is high time that something was done to relieve the sit-

A remarkable rug is on display in the store of A. Screaton & Co., Dundas street. It was made by the peasants of the north of Ireland, is more than one inch thick, and its dimensions are 20 by '13 feet. It weighs over 360 pounds, and with ordinary wear will last for several generations. It is known as a "Special Donegal hand-tufted rug," and is a very handsome article indeed. The rug was ordered early last fall by a resident of this city, and its knees. The animal might have hurt its knees.
