THE RIGHT WAY TO STRIKE A MATCH.

Once in a while we have complaints about our matches breaking in two. This is no fault of the match, as EDDY'S MATCHES are made from specially selected straightgrained wood only. For the benefit of those who are still in ignorance as to the proper way to hold a match (and there are many) we give the follow-

ing directions:

"The forefinger of the right hand should be placed over the tip of the match, and withdrawn quickly when the flame comes. This prevents any undue leverage on the match, and instinct prevents one getting one's fingers burned."
