# INCORPORATION OF ANACORTES.

ARACORTES, May 13.—Anacortes is now in the throes of its second election for incorporation. At a mass meeting held the other day the following residents were placed in nomination for the city offices:
For mayor, F. V. Hogan, manimously; conneil, A. P. Sharpstein, W. A. Mage, W. H. Johnson, T. H. Anderson, John Semar, R. E. Whitney and W. W. Bailey. Since then B. Goodwin and C. C. Parkman, the formerly elected councilmen, and W. S. Caruthers have announced officially their canvass as independents.

J. F. MoNaught has declared his intention to bring as injunction suit if the city is monoparated within the proposed limits, extending west of sections 23 and 27 to Barrows Bay. A committee of well-we residents has already consulted Judge Burke and expanses the Portugues legation in the stream of the difficulties may be citizent, whereby the difficulties may be citizent and contendent of the citizent conte ANACORTES, May 13.-Anacortes is now

don to bring an injunction suit if the city is moorporated within the proposed limits, extending west of sections 23 and 27 to Burrows Bay. A committee of twelve residents has already consulted Judge Burke and ex. Attorney-General Metcalfe, of Seattle, whose report is expected hourly. It is thought that a compromise can be reached between Joseph McNaught, representing the Fidalgo Improvement Company, and the citizens, whereby the difficulties may be patched up and the objection to the disputed territory overcome. The election takes place Friday, and from all indications the political pot will boil over.

Senator C. G. Austin, of Seattle, has returned to his home, having examined the grain elevator site offered by the Oregon Improvement Company, with his aurveyor, Mr. Stretch, of Seattle. A meeting will be held in Seattle to-morrow and the senator will then make a definite proposition in writing for the building of the preposed grain elevator with a capacity of 2,500,000 bushels.

The announcement that Mr. Blaine has been considerable may seem extraordinary to your reaches and the seems of the seems of

or three years ago, owing to the trouble which Chief Isadore was creating. When matters had been smoothed over the detachment was withdrawn, and the only thing which remains to remind the two Governments of the occupation of the Kootemay country by the police, is the little bill which the Dominion authorities presented to the Provincial Government for maintenance, etc., and which, it is understood, is still unpaid. In deciding upon the recent application of the British Columbia authorities for a police detachment to be permanently located in Southern British Columbia, it was or three points require to be taken into consideration. It may be urged, and doubtless it has been so by the Government of British Columbia, as one reason why the request should be granted that patrols of Mounted Police have, for several months past, been doing duty in Manitoba, and if in Manitoba, why not in British Columbia? The answer to this question is that the Mounted Police were sent into Manitoba at the instance of the Departments of Customs and Interior—for the protection of the reveuue, and to prevent timber thieves crossing the boundary from Dakota and depleting Government lands of their timber. It is not that the Mounted Police were sent into Manitoba at the instance of the Departments of Customs and Interior—for the protection of the reveuue, and to prevent timber thieves crossing the boundary from Dakota and depleting Government lands of their timber. It is not that the Mounted Police should be sent into your Province for the purpose of protecting the revenue, but simply for the preservation of the peace, and for this, as the veriest tyro in Canadan constitutional matters knows, the Local Governments are responsible in their several Provinces. It will be interesting to know what are the precise reasons which the British Columbia and Government has urged in support of its application. Doubles these will be forth coming very soon. Meantime I learn that the matter has been referred by Sir John Macdonald for a full report which he
