Japanese Training Cruisers... Aso and Soya Broke Moorings Early Today and Sailed for Vancouver

ADMIRAL CHARMED WITH HIS RECEPTION... "RED McDONALD" IS THE CHIEF

Thousands of Victorians Went to Esquimalt Yesterday to Attend Reception On Board Japanese Flagship

"Sayonara Aso kan; Sayonara Soya kan." Soon after 7 o'clock this morning the Japanese training cruisers Aso and Soya that once found their men-of-war broke their moorings in Esquimalt harbor and steamed out on their way to Vancouver.

It is difficult to express the thankfulness that I feel for the kindly welcome and splendid hospitality of the people of Victoria," said Admiral Ijichi yesterday. "I and my officers, the cadets and all on board have thoroughly enjoyed their visit to Victoria, not only because of the hearty, spontaneous kindness with which we have been welcomed, but also because of the..."

It is twenty-nine years since the admiral's previous visit. His flag captain, Capt. Shimamura, came ten years ago on the training cruiser Aso and he is going to Vancouver, as are all the officers, for the first time.

Reception on Flagship. Hundreds visited the Japanese cruisers on Sunday. On board the flagship Aso the admiral and his officers gave a reception to which many Victorians were invited, and on the Soya throngs came and went all day. The steam pinnaces and cutters of the warships piled with the local launches and boats, and a special street car service was given for the day. Both vessels were draped with flags and covered with awnings. The Aso was profusely decorated with lanterns being festooned on the quarter deck under the awning. All the visitors were hospitably entertained and details of cadets being told off to point out to the uninitiated the wonders of quick-firing naval guns, searchlights, conning towers and other mystic points about a warship.

On board the Aso, where Admiral Ijichi received his guests, including Commander Crawford, in command of the Esquimalt station, the admiral and Major Bennett and many other local military officers, Lieut.-Col. Hall and his officers, and others, gave an entertainment that was typically Japanese and provided for the entertainment of the guests. The admiral and Major Bennett and many other local military officers, Lieut.-Col. Hall and his officers, and others, gave an entertainment that was typically Japanese and provided for the entertainment of the guests.

Mats spread on Deck. While the guests and Japanese officers and blue-jackets thronged about, the manner of the pupils of Prof. Kano at Kodo Kan. Jujitsu is an institution on the Aso and Soya. Each day of the lessons of the cadets are completed—they are at school on these cruises—the mats are spread and the cadets are exercised in the art of Judo is taught. Jujitsu is the old Samurai art of fighting without weapons without its mat-spread floor where it and it looks like wrestling. The competing cadets are impassive; impassive. They squat at either side of the cushioned mats, a row of bare-headed, close-cropped young men with the regulation Judo kimono, and as the umpire holds his salute, "Then they grasp the sleeves of each other's garb and felt, first they pressed against the leg of the other, then a sudden twist, a hold, while the other seeks to secure a hold that cannot be broken, a hold that must make the other cry "ouch" enough." The grips hold the flags are peculiar and risky, but jujitsu is not an art taught for entertainment, nor for play; it is for war.

The master of Judo knows how to put a rival completely hors de combat. By a sudden twist a cleaver hold of Judo can unning a joint or snap. The struggle in jujitsu seldom sees its own strength. The strength of the antagonist he seeks to (Continued on Page Two.)

SCENE AT THE REGAITA

AT DEATH'S DOOR HE PLANS THIS

Centric Paris Bachelor Millionaire Schemes for a Pompous and Costly Funeral As He Sinks Into Dark Valley

ART GALLERY NEXT HIS FAMOUS STORE

Paris, May 17.—Almost every tourist who has visited Paris knows the great "Magasin Du Louvre," the big departmental store between the Palais Royal and the Tuilleries. Its founder, H. A. Chauchard, now at the point of death, is preparing to give Paris a new surprise. He is a bachelor, many times a millionaire, and lives in a princely residence. He has often astonished the world by the fabulous prices he has paid for art treasures. He bought Millet's "Angelus" for \$200,000, and paid vast sums for other pictures, notably Meissonier's "1815." In his declining years the gentleman has grown rather eccentric, and his chief occupation has been to arrange the details of his funeral, which he has planned upon a royal scale. He has already had a magnificent sarcophagus, costing \$18,000, built in the Pere La Chaise cemetery, and selected a coffin costing \$4,000, made of amaranth wood. For his funeral he has set aside the sum of \$4,000. The body is to lie in state at his residence for two days. The service will be held with much pomp at the famous church of La Madeleine. There is to be music from the opera choros, and speeches will be made. The procession to the cemetery through the grand boulevards is to be a splendid affair. The funeral cortege, surrounded by grooms with lances, 200 messenger boys from the store, in livery, and the entire 4,000 employees, following the hearse his friends will ride in old-fashioned state mourning carriages, with coachmen in cockades and silver galons. Mr. Chauchard intends to bequeath his art treasures to his business associates for exhibition in the gallery to be built adjoining the store for the benefit of its customers.

BRANDENBURG IN THE POLICE COURT

Writer Who is Charged With Faking Interview With Cleveland is Held

New York, May 17.—Broughton Brandenburg, the writer who was brought back from San Francisco yesterday, was arraigned in the police court today charged with larceny, having sold the New York Times an article purporting to take his interview with the president of the court. Mr. McIntyre also stated that Dr. Brash, who had been an expert witness from the defence, had examined Capt. Hains since he was convicted and found him "falsified." Justice Garretton said there was no evidence to that effect before the court and he declined to consider the motion regarding the defendant. The court clerk instructed Capt. Hains to come to the bar and proceeded to take his pedigree. His pedigree seemed dead and replied with some difficulty in understanding the questions. Lawyers McIntyre and Young of the defence stood on each side of Capt. Hains and assisted him in answering the questions of the court clerk. In passing sentence Justice Garretton said that the defendant had had a fair trial and before the defence by experienced lawyers and a jury had found a verdict commensurate with the requirements of the law.

Woolen Mills Destroyed

Dunville, Ont., May 17.—The Erie Woolen Mills, owned by John Slingsby, was destroyed by fire yesterday at a loss estimated at \$12,000. There is \$8,000 insurance.

CABLES MONEY TO WIDOW OF CARLOS RELEASE HIS DECORATED FOR HEROISM SONS

Russian Immigrant in Spokane Clears Debt Secured by Four Children After Family Was Swindled in Brazil

Spokane, Wash., May 17.—When Daniel Mann, a farm laborer, employed by John Kransh on his Moran Prairie ranch, five miles from Spokane, called a money order for \$1,200 to Genoa, Italy, today, he released his four sons, ranging from 20 to nine years of age, held there as security for funds he borrowed several months ago to bring his wife and four daughters to Spokane. Prominent residents of Spokane County have interested themselves in the case, and they say if a settlement is not made by a steamship agency at Bremen that suit will be instituted to recover damages. Briefly told, Mann's story is that he and his family of 10 left the village of Kuraka, Russia, on October 2, 1908, for Germany, intending to sail from Bremen to New York and travel thence by rail to Eastern Washington. When they reached the sailing point the steamship agent induced them through misrepresentation to go to Brazil. They were forcibly detained in an immigrant house in the forest near Prostenrod, where one of the children died, and finally Mann was swindled out of \$1,000, the savings of a lifetime of toil in the czar's land. The family managed to reach Genoa, where a man was also recorded as having been prepared by Grover Cleveland.

QUAKE IS FELT IN TORONTO, TOO

Toronto, May 17.—The seismograph at Toronto observatory registered a slight movement Sunday night which would correspond with the shock felt in Western Canada. A strong earthquake was also recorded this morning, which lasted one hour and thirty-two minutes.

WIDOW OF CARLOS DECORATED FOR HEROISM

King Manuel Decorates Queen Amelia for Conspicuous Bravery at Death of Her Son

Lisbon, May 17.—King Manuel has bestowed upon Queen Amelia, widow of King Carlos, the decorations of three orders for the heroism displayed by her Majesty on the occasion of the assassination of her husband and son, in February, 1908. These orders are Order of Christ, the Order of Santiago and the military order of Saint Benoit Davis. The decree recites that after King Carlos and Crown Prince Luis had been shot dead, the Queen, with noble courage and maternal instinct, flung herself in front of her son Manuel and endeavored to thrust aside the weapon of Costa, levelled at him. Her conduct was remarkable. The bullet struck her corsage, was deflected and grazed the forearm of the Prince. The cabinet has given its unanimous approval to these decorations, never before conferred upon a woman. His Majesty has decorated also the policeman who shot Buisson, the man who killed the King, giving him the Order of the Tower and the Sword. This decoration endows the recipient with the rank of an officer and entitles him to a royal pension.

PRESIDENT TAFT PRESENTED WITH KEY

Washington, D.C., May 17.—President Taft is to open the Yukon-Alaska exposition in Seattle on June 1, with a splendid gold telegraphic key presented to him today by Secretary Baileys and the congressional delegation from Washington. The key is mounted on Alaska marble and is ornamented with two handsome gold nuggets from Alaska. It will be connected with the White House telegraph wires and the President will touch it on the day of the opening thereby putting in motion the machinery of the exposition.

WOLSELEY FEELS A SHOCK

First Earthquake in Known History of the Red River Valley Was Felt in Winnipeg and Further West

WOLSELEY HAD NO ELECTRIC LIGHT

Winnipeg Scientist Says That Shocks May Never Recur—Calls Quake Echo of Serious Disturbance Elsewhere

Winnipeg, May 17.—Earthquake shocks varying in intensity were felt all through the Canadian prairie west of about 10.20. Central time, Saturday evening. In most places rattling dishes banging doors and shaking windows were the chief phenomena, while at several places people were driven in alarm out of doors.

At Wolseley the well of the electric light plant caved in just before the shock was felt and the town was plunged in darkness. Other places reported cracked plaster, but that appears to be the sum of the damage done. The shock was very light in this city, but was distinctly felt at Selkirk on Lake Winnipeg, and from there the disturbance was noted at scattered points for a thousand miles west across the prairie.

It is the first time in known history that earthquake shocks have visited the Red River or Saskatchewan valleys. Prof. Frank Allen, Ph. D., of Manitoba University, said last night that they might never recur. He attributed the disturbance to a wave or barbofons coming from the north.

The shock was very light in this city, but was distinctly felt at Selkirk on Lake Winnipeg, and from there the disturbance was noted at scattered points for a thousand miles west across the prairie. It is the first time in known history that earthquake shocks have visited the Red River or Saskatchewan valleys. Prof. Frank Allen, Ph. D., of Manitoba University, said last night that they might never recur. He attributed the disturbance to a wave or barbofons coming from the north.

He points out that the last earthquake on record was noticed at first in the observations of Western Europe, and it was some weeks before it became known that the disturbances actually took place in the barbofons region of Northern India. He thinks that presently information will come to hand of very considerable upheavals in the southern part of the continent or in the waters of the Pacific.

Professor Allen is reassuring regarding the future so far as the prairie is concerned. There is no evidence that this region has ever been visited by an earthquake in historical times, or at least no marks of such have been left. This section is a long distance from the places where earthquakes usually occur. Besides that the lay-out of the prairie foundations is distinctly against such a thing.

Regina Badly Shaken. Regina, May 17.—The sole topic of conversation in the city today is the earthquake shock. It occurred at 8.15, Mountain time, when the stores were crowded with Saturday night shoppers. Every building in town from the smallest shacks to the most modern fireproof office blocks were shaken. The shock was sufficiently severe to set pictures swinging, crockery rattling and to smash light pieces of furniture.

In a few minutes the greatest excitement prevailed, people hurrying into the streets and into their homes and stores. The higher the building the more severe was the shock and the darker the shock, the most possibly constructed of all, being of steel and reinforced concrete, had about the worst shaking of all.

A strange feature was that the quake was unnoticed by people in the streets and the open. Much of Lumber Cut This Season Will Be Converted Into Paper

Bangor, Me., May 17.—With the season's lumber cutting operations practically at an end it is estimated that the cut in Maine this year amounted to about 700,000,000 feet. As compared with other sections of the country, no appreciable gain or loss is anticipated, heavy falling off from last season's cutting overcut to considerable houses it being the late spring. A considerable quantity of snow remained on the ground up to very recently, making it possible to pursue logging operations later than usual.

Much of the lumber cut will be taken to the pulp mills to be converted into paper. In addition to the logs cut this season a large quantity of lumber has been left in the woods in account of the inert market will be brought down.

To Look Into Militia Department

Ottawa, May 17.—It was announced in the Commons this morning that the Board of Inquiry has been ordered by the Militia Department to look into the charges of alleged padding of pay-rolls, etc., against Major Delaronde and other officers of the local army service corps.
