

A STRONG C.P.R. TEAM

FOR the vigorous programme which Lord Shaugnessy recently outlined as planned by the Canadian Pacific for the period after the war, the Board of Directors have selected to assist Mr. R. W. Beatty, the new President, a team of Vice-Presidents well known for their driving force and executive ability, and particularly strong in the operating end. Grant Hall, who is Vice-President with jurisdiction over all lines, has been aptly described as a "big man physically with a heart as big as his body". Grant, as he is known by the rank and file of the railway, is a favorite with everyone from the trackwalker up. He is a disciplinarian, but he is a just disciplinarian, and it is a matter of common knowledge that no matter in what position he may have occupied, since he rose from the ranks in the old Grand Trunk shops, and showed his ability in the old C. P. R. shops at Hochelaga, he has always made it a point to investigate any complaint made to him by a man under his control.

Westerners will tell of the time when he was in charge at Revelstoke some seven years ago, and when he worked night and day for a week in the mountains to lift one of the worst snow blockades in the history of the transcontinental railway. It is a matter of record on the Revelstoke division that "Grant" could get more work out of a body of men than any other half dozen men, and it is largely because he knows how to take off his own coat (if they do such things as snow blockades) and do his own share of the work.

Grant Hall was born at Montreal, November 27th 1883, and was edu-

Grant Hall, Vice-President with jurisdiction over all lines.

A. D. MacTier, Vice-President of Eastern Lines. D. C. Coleman, Vice-President of Western Lines.

ated at Bishop's College and School, Lennoxville, Quebec. He joined the C. P. R. in 1907 as locomotive foreman and from 1908 to 1909 was general locomotive foreman on the International Railway at Montreal, New Brunswick. In September, 1909, he returned to the Canadian Pacific Railway, where he was consecutively general foreman, first at the McAdam and later at the Winnipeg shops; master mechanic of the British Columbia division; assistant superintendent of motive power, eastern lines, and superintendent of motor power and car department, western lines; from November, 1911 to December, 1914, assistant general manager, western lines; when he was appointed Vice-President and General Manager. A. D. MacTier, who is now Vice-President in charge of lines east of Port Arthur, like his former chief, David McNeil, was born in Scot-

land and proud of his birth. He came to Canada when a young man and entered the service of the C. P. R. as stenographer in the Baggage Department in 1887, becoming assistant to the Superintendent of Electric and Dining Cars in 1888. From 1891 to 1896 he was in the Car Service Stores and Fuel Departments, and from 1896 to 1899 was General Baggage Agent. From 1899 to 1907 he held the position of General Fuel Agent, when he was appointed assistant to the Vice-President. In December, 1912, he was appointed General Manager, Eastern Lines. Mr. MacTier is very popular with the men on the road, whose interests he has always made his first concern. He has always insisted on giving proper credit for meritorious service. This is the first time that a special Vice-President has been appointed to look after Eastern Lines, Western Lines, Winnipeg,

WEEPING ECZEMA SOON RELIEVED

A Perfect Treatment For This Distressing Complaint

WASING, Ont. "I had an attack of Weeping Eczema; so bad that my clothes would be wet through at times. For four months, I suffered terribly. I could get no relief until I tried 'Fruit-a-tives' and 'Sootha Salva'. The first treatment gave me relief. Altogether, I have used three boxes of 'Sootha Salva' and two of 'Fruit-a-tives', and am entirely well."

Both these sterling remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-tives Limited, Ottawa. "Fruit-a-tives" is also put up in a trial size which sells for 25c.

THE USE OF THE APPLE. Those who make a liberal use of apples will serve the dual purpose of saving for shipment overseas such articles of food as are fit for that purpose and at the same time furnish a useful and valuable food for the household.

"The apple without question is the king of fruits, whether fresh, dried, evaporated or canned, it is a wholesome food, easily prepared, attractive and palatable at all times." "Always cook apples in earthen or granite utensils and use silver, granite or wooden spoons for stirring. The use of the apple as the basis for all manufactured jam is well known. This is due to the large amount of pectose which it contains. There is no waste to a good apple; even the pearly and core may be utilized for jelly. Fruits are classified as flavour fruits and nutritive fruits, the apple comes under both of these heads." Extracts from a little booklet issued by the Fruit Branch of the Dominion Department of Agriculture giving 160 recipes for the use of apples. The book can be had free on application to the Publications Branch, Department of Agriculture, Ottawa.

HON. DR. BELAND COMING TO N. B.

Premier Foster has received an intimation that Hon. Dr. Beland, former postmaster-general of the dominion, who spent more than three years as a prisoner in Germany, may visit New Brunswick next month. It is probable that his plans will depend upon the influenza situation, but if circumstances are favorable an effort will be made to arrange for public meetings at which the distinguished visitor may be heard. Hon. Champoux who is a personal friend of Hon. Dr. Beland is endeavoring to have him visit Campbellton.

Are you saving for Victory Bonds?

LOOK! If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria or vaccination on small-pox, wouldn't you feel like giving it a trial?

Pepe is the discovery! Pepe are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Pepe tablets get there direct, and at once commence their work of healing.

FREE TRIAL Cut out this article, write across it the name and date of this paper, and mail it with 10c stamp to my return (postage) to Pepe Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Pepe, 50c. box.

Pepe

"CASCARETS" WORK WHILE YOU SLEEP

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—Take Cascarets tonight.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headache come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, flat gases, bad breath, yellow skin, mental depression, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

KEEP HIM REASONABLY BUSY

Preacher Serving in Y. M. C. A. "Hut" in Training Camp Finds His Duties Many and Varied.

If there is a notion that Y. M. C. A. work in the camps consists in selling stamps and handing out pocket testaments, let it be dissipated at once. One preacher, serving in a hut in a New Jersey camp, reports that he has done almost everything under the sun except preach.

He has built fires, swept floors, looked after camp cats, packed up laundry, umpired basketball games, organized a glee club, stage-managed a circus, sold ice cream at the canteen, and driven a flower ten miles and back three times a week to provide said cream. He has written letters home for boys who could not write, and he has taught those who were their first lessons in the English language. He has been a repository for hundreds of heart secrets, and he has served as trustee for the sale of as many as thirty Liberty bonds at a time.

Perhaps oddest of his many tasks was one that came his way on a wild and stormy night in April, when the master of arms at the military station entered the "Y" hut after taps, carrying a red box under his arm. "Say," said the master of arms, "we've got a lot of T. N. T. mines stored at the station. Here's the detonators in this box. There's considerable lightning around, and it isn't safe to leave these things close to the mines. Would you just as soon take care of the box over night?" The Red Tanager man slept that night (or tried to sleep) with enough high explosive under his cot to blow him half way to heaven.

LEARNING WHITE MAN'S WAYS

Eskimos Said to Be Making Gratifying Progress as a Result of Missionaries' Teachings.

On Herschel Island, where the sun shines continuously for eight weeks in summer, the Eskimos had a sun dance, not always clothed in the garments of propriety, a writer in an exchange says. They had an idea that when the sun came back its movements were directed by an invisible power, but they had no tangible conception of a God. They had no belief in a future life, either of reward or punishment. Today they are religious, truthful, kind to their children and to the aged. They are ambitious to learn; they are practical, extremely industrious, sanitary in their habits, well clothed and well housed. Insanity is unknown, but tuberculosis is common.

They who in summer and trap in winter. They are clever in trading, good workers on land, water and ice, and take excellent care of their household effects. Tools, if broken, are rarely repaired. When on Herschel Island or at Fort McPherson, they eat the white man's food with great relish. In summer they eat their fish and blubber raw and in winter frozen. They like food cooked, but it is a matter of indifference to them. They eat a hearty meal of it, and then go out and eat blubber and raw fish as dessert. The contents of a deer's stomach they consider a great delicacy.

Sugar 12 to 15 Cents a Pound. In these days of tribulation, when every penny counts but father's wages, we all very conscientiously bemoan the high cost of living. But this, observes Popular Science Monthly, is not the first and only time that prices have been high. During the Civil War wages ran from \$1.12 a day for laborers to \$2 a day for skilled workmen. This, however, did not prevent a shave from costing 10 cents or a haircut 20 cents. Hotel rates were \$1.50 to \$2 a day, and ice, which was considered a great luxury, was supplied at 50 cents a week for 10 pounds daily. Strangely enough sugar was the chief bone of contention in those days, too, and it cost 12 to 15 cents a pound.

War Prisoners to Form Club. A dozen British prisoners of war who had escaped from Germany met at a dinner recently given in London to celebrate their escape. At this dinner it was decided to form a club, membership of which was to be confined to those who have succeeded in making their way out of a prisoners' camp of war or internment camp in Germany. The site of the club premises has not yet been settled, but the club will certainly be the most novel thing of its kind in London.

Many Lambs Killed by Rattlers. Rattlers, always plentiful in parts of Washington state, are this year more numerous than in any previous season. Sheepmen are forcibly reminded of the fact by the loss of lambs. Older sheep know the menace in the tattoo of the rattlesnake, and will change their course at the sound, but the lambs are often bitten. There is nothing that can be done for the relief of a lamb which has been bitten. It dies in a little while—Seattle Post-Intelligencer.

Slightly Nervous. Flanagan, a brand new soldier, was placed on guard one dark night. Falling to see another soldier approaching until he was almost beside him, Flanagan nearly jumped out of his skin but managed to quaver: "Who goes there?" On being told the fellow's name, and finding out for sure that he wasn't going to be killed right away, says Flanagan, regaining his courage: "Advance then and give the discount."

A Convenience. Customer—You have placed all the large berries on top. Fruit Peddler—Yes lady. That saves you the trouble of hunting through the box for 'em.

Same Thing. "You say she always wears a touch-me-not air?" "No, it's always a case of fresh paint."

Pull and Haul

—strain and stretch—it's all the same to Atlantic Underwear.

And men who work hard know that they get their full money's worth of warmth, wear and comfort, when they buy this famous brand.

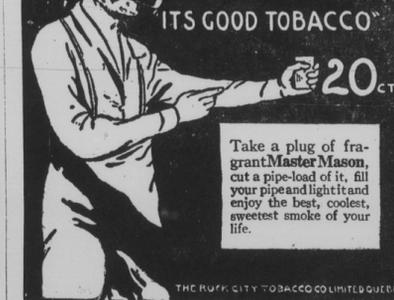

ATLANTIC UNDERWEAR

Made of tough Nova Scotia wool, knitted into perfect garments—elastic and unshrinkable—in the right places to keep a man warm.

Look for the Atlantic Underwear, and look for the Atlantic Trademark on every garment. It guarantees long wear.
