The Toronto players as well as some of their Shamrock opponents were hesitating whether to stop or go on playing, and a good many of the Torontos had actually stopped when, in the confusion, Hamilton got the ball and threw it to Cregan who transferred it to Barry, who sent it threugh in fine style. The referee allowed the game, whereupon a dispute arose. Mr. Lewis based his decision on the fact that neither of the captains had claimed the foul and therefore, although he himself had seen it, it was not his duty te stop the game. The Toronto players claimed that they had stopped playing because "time" had been called. It is strange that the association has higherto made no provision whereby a player may throw definitely whether time has been called by the referee or by some outsider. A whistle in the hands of the referee would answer the purpose fully.

The ball was alternately on each goal, and each team was playing a fine game. After four minutes play Bonnell did some pretty dodging and threw to Irving, who made a beautiful drop. A lively scrimmage around the goal ensued, from which Eckardt threw the ball through, thus scoring the third game and the match for the Torontos. This game brought out some of the prettiest play of the season, the lads in blue working together like a charm, and their execution

Blackmailing Informers.

Wm. Clinkenboomer and Thos. MoKenna, whisky detectives, are under
arrest for playing a blackmailing game on
Mrs. Ellison, 109 Adelaide street west.
Mrs. Ellison has been convicted several
times of selling liquor without a license.
Clinkenboomer and McKenna called on the
woman yesterday and said they had
another case against her, that the evidence
was straight and she would be fined sure.
They offered to settle it for \$15. Mrs.
Ellison asked time to consider the matter;
would they call again at 4 o'clock? They
promised to do so and left. Mrs. Ellison
lost no time in reporting the case to
Detectives Brown and Cuddy, who were
at the house when the worthies returned.
A trap was set and they fell into it; they
accepted a marked \$5 bill to settle, and
were just leaving the house when the
detectives arrested them, the charge being
obtaining money by fraud. They were
locked up at headquarters.

BRUSSELS, July 26.—Le Nord says:

"Russia consents to a frontier the Afghan side of which is topographically closed and easily defendable, but insists upon well-defined Russian side to prevent Afghan incursions. The best method would be to define broad lines in London and settle the details on the spot in order to remove any misunderstanding where the same name is given to different localities."
