MAIL PARCEL THIEF CAUGHT. Detected Selling His Pilferings to Second

Montreal, Jan. 28.—J. Cunningham, an employe of the Postoffice, was arrested Friday by the Secret Service Agency. For eight years Cunningham has had the handling of newspapers and parcels. The detectives found that he was selling cutlery and other articles to second-hand dealers at very low prices. Some of the articles were recognized by clerks employed in The Witness office as being prizes sent out by them for competitions. Cunningham was arrested. This morning before Judge Desnoyers Government officials made their depositions. The prisoner, who says he has been drinking, will plead guilty to the charge of pilfering postoffice parcels.

A scene in Court.

Prohibitionists to Hold a Monster Rally

Cunningham was brought before Judge Dugas Saturday and Isentenced to three years in the penitentiary. He pleaded guilty to one charge of stealing parcels, but there were about thirty others against him. Quite a scene was created in the court by a half-penny lawyer who insisted on defending him and called the judge a cur. The judge reported him to the bar. Subsequently he got a black eye from a valorous reporter in the court corridor. Another lawyer of notoriety named Desrosiers, being threatened with a beating, rushed into Judge Desnoyers' court and demanded protection. It was a case of buildog and cur. The judge laughed the big coward out of court.

At a meeting of the Executive Committ f the Toronto Ratepayers' Association held on the 23rd inst., the following resolu tions were passed and recommended for the approval of the association at a general ting to be called on Tuesday evening, Feb. 6, at St. George's Hall, Elm-street.

1. That while recognizing the fact that the reduction in salaries as proposed by Ald. Thompson and Sheppard is rather a crude and unbusiness-like way of reducing the expense of administration, yet in view of the other fact that for the past two years, notwithstanding the urgent demand for reduction, practically nothing has been done save in the Health Department.

The stock market was dull and absolutely featureless with the exception of N.E., which was very active and weak. Boston and Philadelphia houses started the selling, which soon became general. There was a rumor that an assessment of \$10 per share would be made in the stock. This is probably only a guess.

Extract from the Report of the Superintendent of the Canadian Section of the Manufactures Building at the World's Columbian Exposition.

"The Toronto Carpet Manufacturing Company presented an imposing array of Axminster and Ingrain carpets, rugs, etc., which were pronounced by the judges of award to be fully equal to the productions of the best mills of the United States, and awards were accordingly made for both descriptions of carpets. There can be no doubt that this Company's goods will in future more seriously affect the importation of similar lines from abroad; the Canadian product has grown rapidly in the public favour, and besides being equal in quality and design to the imported article, it can be obtained at a much lower figure.''
