SECOND CARGO P. E. I. POTATOES GOING TO VIRGINIAN MARKET

Charlottetown, P.E.I.—The P. E. I. Potato Growers Association has been, despite the poor price and small demand for seed potatoes, very successful in disposing of a large part of the certified stock. At the present time eighty cars have been billed out with orders yet uncompleted for over fifty cars. The above shipment includes a cargo of 27,000 bushels shipped by the steamer Stavanger to Norfolk, Virginia. The steamer sailed October 25th, and the Secretary of the Association received a wire from the consignees stating "steamer arrived, cargo half unloaded, fine condition." The Association contemplates loading another steamer. This would then leave their members able to find sufficient storage for the balance of their certified seed for which there will be a strong demand in March, the time when the farmers of Long Island begin their planting.

IMPROVED GRAIN HANDLING PLANTS

An engineering visitor from the United States to Great Britain recently paid his testimonial to the excellence of the modern plant installed at British ports for the handling of coal and of ships' cargoes in general. The high standard of efficiency thus indicated is being shown in connection with the discharging and storing of grain. The Clyde, for example, now possesses one of the finest granaries, and there was recently installed a pneumatic suction grain elevator, which has a capacity of one hundred tons of grain per hour. By means of this plant the grain is sucked up from the hold of the vessel and discharged direct into the store.

Mrs. J. J. Lovelace Says It Changed Her Whole Life

People who have suffered until they have become discouraged and out of heart should profit by the experience of Mrs. Lydia J. Lovelace, Market Street, Liverpool, Nova Scotia.

"I have had rheumatism all my life," she said, "and have spent hundreds of dollars with very little result until I began taking Tanlac. When I began taking the medicine every joint in my body ached and my fingers were so swollen and painful I could not even wring out a dish cloth. My arms were swollen all up in great knots and my feet were so swollen I could not get my shoes on. Even my shoulders and the back of my head pained me and I could not get any ease or rest in bed. I simply had to give up trying to do my household work.

"My whole system was run down and I felt discouraged and depressed because I saw little chance of ever being any better. I felt such good results from my first bottle of Tanlac that I kept buying bottles after bottle until I have now taken twelve. My rheumatism is gone and my whole life is changed. I eat good, get plenty of good sound sleep and enjoy living. I have told lots of people what Tanlac has done for me and will always praise it."

Tanlac is sold by all good druggists.

The ladies of the W.M.A.S. observed "Crusade Day" at the parsonage, a program given and refreshments served.

Listen!

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles. Peps contains certain medicinal ingredients, which, when placed upon the tongue, immediately pass into vapor, and are breathed away the air passages to the lungs. On the journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

FREE TRIAL. Cut out this article, write across it the name and date of this paper, and mail it (with 1c stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.
