Eastlake Shingles

Are the reliable, up-to-date Roof Protection. They are made of steel—galvanized or painted—and each shingle is accurately squared.

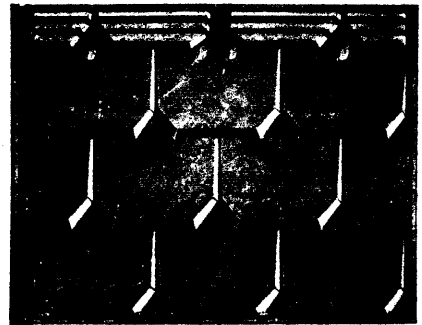

Their patent side lock enables them to be laid quicker than any other shingle, while the embossing of the metal prevents all corrosion on the under side.

They're Fire, Rust and Weather proof and last indefinitely.

In ordering CORRUGATED IRON for Roofing, Siding, Partitions, etc., specify our "Owl Brand."

It is made from sheets of the very best quality, and is pressed, not rolled. The corrugations are uniform and fit squarely.

Write us for Catalogues and further information.
