

SHEEP FROM VERMONT TO VIRGINIA.—The *Frederick (Md.) Examiner* states that a flock of 1800 sheep were driven past its office on their way from Vermont to Fauquier county, Va. From the fact that several other large flocks have recently been driven to Fauquier county, the conclusion is that the farmers of that region are entering largely into the wool business. And we would add that in no other way can they improve their lands and realize a fair profit, than by attention to sheep and wool-growing. Nearly one-third of the wool used by our manufacturers is imported from foreign countries; and the money thus paid out, if kept at home, would add largely to our own ability to purchase as well as consume.

A COMPANY of capitalists have purchased thirty thousand acres of land in Atlantic county, New Jersey, to be divided into shares of twenty acre farms. The land is situated upon the Camden and Atlantic Railroad.

We would refer applicants for orange watermelon seeds to Mr. BRUCE's advertisement in the present number. From trial we know that its quality and flavor can hardly be excelled.

We have been favored with a copy of an address delivered before the Montgomery County Agricultural Society, Md., at its annual exhibition, by CHAUNCEY P. HOLCOMB, Esq. It is one of the best that has fallen under our notice, and abounds in useful hints and details of practice.

Our thanks are due Hon. KENNETH RAYNER for a copy of his able and interesting address before the North Carolina State Agricultural Society, at their Second Annual Fair, extracts from which we have marked for future publication.

Notices of New Books, Periodicals, &c.

TRANSACTIONS OF THE NEW HAMPSHIRE STATE AGRICULTURAL SOCIETY FOR THE YEAR 1853. Compiled by JAS. ADAMS, Sec'y.

The above document, for which we are indebted to the Secretary, is one of the most valuable compilations that has come under our notice during the past year. In size, form and general arrangement it is admirably got up, and is a credit to the Granite State.

THE EDINBURGH REVIEW FOR OCTOBER, 1854. For sale by D. M. DEWEY, No. 4 Arcade Hall, Rochester.

This number contains a series of articles on various topics, a knowledge of which is very desirable to all who would keep pace with the times. We have often commended the above, and we find it to maintain its time-honored reputation.

THE LONDON QUARTERLY REVIEW FOR OCTOBER, 1854. New York: LEONARD SCOTT & Co. D. M. DEWEY, Agent, Rochester.

The above contains a very interesting statistical article, entitled "The Commissariat." From reliable data furnished from different sources, the amount of produce required to supply the population of London for one year seems almost incredible, yet the data furnished challenge one's belief and credence.

ADVERTISEMENTS,

To secure insertion in the *FARMER*, must be received as early as the 10th of the previous month, and be of such a character as to be of interest to farmers. **TERMS**—Two Dollars for every hundred words, each insertion, PAID IN ADVANCE.

JOHN E. FORCE, Publisher and Proprietor. Hamilton, C. W., January, 1855.

DRAINAGE AND SEWERAGE PIPE MACHINE CHARNOCK'S PATENT.

BY this Machine, Drainage and Sewerage Pipes of all descriptions, as well as perforated and other Bricks, Flooring Tiles, &c., are molded with the greatest facility and precision.

A man and three boys can turn out from 5,000 to 10,000 feet of pipes per day, according to sizes; and if worked by horse, steam or water power, a proportionate increase will be obtained.

This Machine is in extensive operation in England, where, in addition to the testimony of numerous Tile Makers, as well as that of some of the first Mechanists of the day, the following Prizes have been awarded to it:

By the Yorkshire Agricultural Society, at its annual meeting, 1843, as the first Tile Machine with a continuous motion,	£5 0 0
By the same Society, the following year, as the best Machine of the day,	10 0 0
By the Lancashire Agricultural Society, at its annual meeting, 1845,	Silver Medal.
By the Highland Agricultural Society, at its annual meeting in 1846, as the best Machine,	5 0 0

At the meeting of the New York State Agricultural Society, at Saratoga (1853), a Working Model of this Machine was awarded the SILVER MEDAL AND DIPLOMA; and at the Fall Exhibitions the same year of Lower and Upper Canada, held respectively at Montreal and Hamilton, the same Model was awarded a DIPLOMA FROM EACH SOCIETY. It was awarded the FIRST PRIZE AND DIPLOMA at the recent Exhibition in London, C. W.

The price of the Machine is £50 (half cash and remainder at six months), with five Dies for Pipes. Brick and other Dies at a moderate charge.

THE PATENTEE GUARANTEES THE EFFECTIVE WORKING OF THE MACHINE.

ALL orders to be addressed to JOHN H. CHARNOCK, Drainage Engineer, Hamilton, C. W., the Patentee. January 1, 1855.—if

BULKLEY'S STEAM DRY KILNS.
