

a different purpose, and with essentially different results; he has heard of "revivals" conducted by the reverend gentleman by night, and of stock-jobbing by day; one of the recent results of the day-light labours of the reverend gentleman has been a slimy letter addressed by him to the press; in this letter which is written in reply to "an honest Methodist,"* the Doctor (!) characteristically bewails his "affliction"; our afflictions are too often self-entailed, and with regard to that letter, we fear there are three definite grounds for affliction; (1) the following statement—"Let me assure him that no director of the T. C. Society has ever received a dollar for services rendered in that capacity." (2) the prospect of the reverend Doctor being put through his facings with regard to this statement. (3) the unlikelihood of his reverence being screened by any such medium as the insertion of an advertisement of the Temperance Colonization Society's merits in the columns of this diminutive journal. In view of the reverend Doctor's "assurance that no director of the T. C. Society has ever received a dollar for services rendered in that capacity"; we will first interrogate him as to whether he himself be a director of that Society, and next if it were for "services rendered," or *about to be rendered*, that he received the following considerations at the hands of the Directors of this commercial enterprise.

1000 Acres of \$1,10 stock.

Was this stock sold by anyone known to Dr. Hunter at a profit of \$1350?

*It is a satisfaction to reflect that there are honest Methodists, not a few; it is the "dead flies which cause the ointment to stink," and in this Biblical sentiment every "D. D." will necessarily concur.

Were \$24,000 worth of \$3.00 stock granted to anyone known to Dr. Hunter?

Was this \$24,000 worth of stock held without the call of 10 per cent. being paid, and was it sold so soon as it had reached a premium? All this moreover while less privileged stock-holders, who were obliged to pay the first call of 10 per cent., could hold no more than they could pay for.

Does Dr. H. know any revivalist who sold the above at a profit of \$2,300?

Does the reverend gentleman know any "learned divine" who has stated that the Temperance Colonization Company is indebted to him for "services rendered" to the extent of \$1800?

Does he know any such person who has written to all the well-to-do Methodist Ministers in the Dominion, with reference to the surpassing merits of the T. C. Co'y?

Does Dr. Hunter know anyone who subsequently re-possessed himself by questionable means, of \$18,000 worth of the \$3.00 stock at \$700 less than he sold it for?

Does he remember any so-styled "D. D." maintaining in the columns of *The Globe*, the legitimacy of Ministers' INVESTING in a Commercial enterprise of the character of the T. C. Company?

"Finally," will the reverend gentleman check the Editor as to his ability to execute the subjoined little sum in addition?

\$1350

2400

1800

700

\$6250.

When the reverend gentleman shall have answered the foregoing questions *satisfactorily*, he will be in
