Dartmouth, Nova Scotia
Canada B3B 1K1

Tel: (902) 463-0119

A.J. Bebbington
President

Precision Biologicals was incorporated in 1982 with the objective of manufacturing products for clinical laboratories. The coagulation reagents and controls introduced by Precision in 1984 have established the company as a major Canadian supplier. The company's products are used for blood coagulation studies.

Other products made by Precision for the health care market include stains, parasitology and histology products.

Q'STRAIT
33 Highridge Court
Cambridge, Ontario
Canada N1R 7L3

Tel: (519) 622-0000
Telex: 06959404

James Reaume
Sales Manager

Q'STRAIT, a division of A. Girardin Inc., produces wheelchair and occupant restraint systems. In motor vehicles, occupant and chair are separately and securely fastened independent of one another. This provides the same degree of safety as available to other passengers.

Q'STRAIT™ lap belts attach directly to the vehicle's rear tie-down belts so that all the stress from a sudden stop is placed directly on the rear belts and not the chair frame. Heat-treated steel chair attachment hooks are covered with heavy vinyl to protect the wheelchair frame. The Q'STRAIT™ system is adaptable to most chairs and can easily be retrofitted to any vehicle.

Quadra Logic Technologies Inc.
