unité d'espacement mise en commun» Secteur assujéti à un accord ou arrêté de mise en commun.

Mise en commun

170. (1) Le ou les détenteurs qui ont des concessions ou qui possèdent des intérêts économiques directs distincts dans une unité d'espacement, les concessionnaires, ainsi que les titulaires de redevance possédant la totalité des intérêts dans cette unité, peuvent mettre en commun leurs intérêts économiques directs et leurs droits à redevance dans l'unité sans qu'il s'effectue des forages ou de

"unit operating agreement" means an agreement providing for the management and operation of a unit area and a unitized zone, that is entered into by working interest owners who are parties to a unit agreement with respect to that unit area and unitized zone, and includes a unit operating agreement as varied by a unitization order;

"unit operation" means those operations conducted pursuant to a unit agreement or a unitization order;

"unit operator" means a person designated as a unit operator under a unit operating agreement;

"unit tract" means the portion of a unit area that is defined as a tract in a unit agreement;

"unitization order" means an order of the Committee made under section 159;

"unitized zone" means a geological formation that is within a unit area and subject to a unit agreement;

"working interest" means a right, in whole or in part, to produce and dispose of petroleum from a pool or part of a pool, whether such right is held as an incident of ownership of an estate in fee simple in the petroleum or under a lease, agreement or other instrument if the right is chargeable to pay or bear, either in cash or out of production, all or a portion of the costs in connection with the drilling for, recovery and disposal of petroleum from the pool or part thereof;

"working interest owner" means a person who owns a working interest.

Pooling

170. (1) Where one or more working interest owners have leases or separately owned working interests within a spacing unit, the working interest owners and the royalty owners who own all of the interests in the spacing unit may pool their working interests and royalty interests in the spacing unit for the purpose of drilling for or producing or both drilling for and producing petroleum if
