Strained Relations of U.S. Rumors of Heavy Imports With Germany Depressing Factor.

WAR SHARES WEAKER

proves Thruout the Republic.

NEW YORK. Sept. 11.-The foreign situation was again an adverse in-fluence during today's two-hour session. Stocks were heavy at the open-ing and except for a few fitful and spondic movements this tendency preailed thruout. Over-night news regarding this country's relations with the Teutonic allies, involving the pos-able rejection of Germany's Arabic deence, made for increased concern and reduced trading to professional and

lender proportions.

Little attention was paid to the war Little attention was paid to the war shares, which continued their gyrations, tho in a downward direction. Bethlehem Steel preferred fell eight points to 143. the common eight to 12. General Motors 7½ to 255½ and Willy-Overland 5½ to 185. Others of that group were lower by 1 to 2½

points.
United States Steel was the target for bearish attacks, selling off a point to 75 3-4, its lowest quotation of the week. Some of the more prominent railways, including Reading and New York Central, averaged declines of a point, but trading in that quarter of the list was neglected. Mixed recoveries and declines attended the irregular close. Total sales amounted to 230,000 close. Total sales amounted to 230,000

ahars.

The mercantile agencies reported a further improvement in general business, and bank clearings from all sections point in this same direction. Banks and trust companies of the local designs house association reported an clearing house association reported an actual cash gain of \$20,000,000 and a reserve increase of slightly more than \$15,000,000, bringing the excess reserves up to the unprecedented total of \$224,000,000.

Dealings in bonds today were nominal, with an irregular trend. Few offerings were made. Total sales \$1,-U.S. 3's advanced 3-4 per cent, on call

TRADING WAS BRISK

Only Feature on the Morning Market Was a Drive in Jupiter Stock.

Saturday's session at the Standard Exchange was comparatively with sales of nearly 45,000 shares. There were special features to the There were special features to the trading other than a drive in Jupiter, which was attributed to inside interests for a special purpose. Dome Ex., West Dome, Timiskaming and Jupiter were the most active stocks, the first three having a firm undertone. Right of Way was sold for the first time in several weeks at 4. There was some further demand for Gold Reef, and the closing sale was at 4½.

Dome and Hollinger were inactive, but
the prices were steady.

PRICES IRREGULAR

Crow's Nest Coal and Smelters Strong and Higher-Steel of Canada Weak.

Trading was quite tame on the Toronto Stock Exchange Saturday morning and prices were somewhat irre-gular. Crow's Nest Coal was moved up over three points, and Smelters also showed firmness. Steel of Can-ada and General Electric were weak, as was also National Car in the unlisted issues. U. S. Steel was steadily

MUNRO TOWNSHIP IS QUITE PROMISING

Gold Found on Another Claim of Col. Hairstno's in New Camp.

The wonderful gold showings at the Dobie-Leyson property in Munro Township, owned by the Dominion Reduction Co., has revived interest in the whole district. Capitalists Ontario and various parts of the States are securing options on all promising claims and strenuous efforts are being made to uncover other finds. Col. P. S. Hairston of the Traders' Bank Building has had the greatest faith that Munro would make good, and was fortunate enough to be part owner of the Dobie before the present owners bought the claim. Col. Hair-ston is still spending considerable money to prove up other claims he has and on Saturday he received a note from Bill Fairbairn, his man in the which contained good news. Bill had taken a run out to Matheson to get a supply of powder and steel, and the short note stated that he had found gold on the north half of lot 7, concession 1. The vein, which cuts across a dyke, looks good, he says, but exercising his conservative caution, he concluded, "I won't promise you a mine just yet.'

RAND SYNDICATE CLAIMS PANNING GOLD FREELY

TIMMINS, Sept. 9 .- Work is pro gressing steadily at the Rand Syndicate claims in Deloro. The various Veins are being opened up and a series of test pits being sunk to a depth of about ten feet. This is preparatory carriving at a decision as to the best spot in which to sink the per-manent shaft. The engineer in charge of the work states that the veins are highly mineralized, panning gold free-ly in addition to the large quantity of sulphides. A systematic sampling of all the veins is being carried on.

cided reaction, due to talk of imports from Canada. Prices closed heavy at the same as last night to 1c higher, with September at 99%c and December at 95c. Corn finished 5-8c to %c off to 5-8c up, oats unchanged to %c higher, and provisions varying from 5c decline to a rise of 10c.

Waves of buying which swept over the wheat market during the first half of the session carried prices to the highest level reached in more than a forthight. Predictions of continued storms over almost the entire domestic belt, were chiefly what stimulated the rush to the bull side of the market. Additional delays to the movement of the crop appeared to be certain, and to make increasingly difficult any effort to accumulate supplies in store. Higher quotations at Liverpool counted also against the bears. pool counted also against the bears. especially as world shipments for the week promised to show a notable falling off.

falling off.

In the last half of the day, rumors of tentative arrangements to bring Canadian wheat to Minneapolis acted as a wet blanket on buyers here. The relative cheapness of the Canadian product was said to have tempted millers to consider carefully the outlook for bringing liberal quantities across the border. Speculative sentiment seemed thereafter to change radically, and selling became the popular course. Before the pit was cleared one firm had thrown overboard fully 1,000,0000 bushels.

Reports of exceptionally plentiful

Reports of exceptionally plentiful forage largely outweighed other influences in the open market. This week's receipts of cattle were said to have been the fattest grass-fed arrivals on record. Oats averaged higher, but the range was narrow. Rural offerings remained small and the seaboard demand

LONDON STOCK EXCHANGE.

LONDON, Sept. 11.—Money and discount rates were steady yesterday.

American exchange was firmer, and touched \$4.69½ to \$4.70, but later reacted to \$4.68½ to \$4.68%.

The stock market continued generally with a large business in war. The stock market continued generally cheerful, with a large business in war loans and other gilt-edged securities and oil and Kaffir stocks at hardening prices. American securities had a good tone. The market opened steady and advanced under a strong demand for Union Pacificand U.S. Steel, the latter on dividend prospects. The closing was firm.

Silver on Saturday was quoted in New York at 48%c per ounce.

WAGON SECTION OF MARKET CLEAN

Everyone Was Thankful the Place Smelled Much Sweeter.

MORE YET TO BE DONE

Lavatories Are in Filthy Condition and Disgrace to Toronto.

The wagon section of the St. Lawrence Market was at last flushed out and made clean for the Saturday market (due to the continued efforts of The World), for which the farmers, market gardeners and citizens were truly thankful, as it smelled much sweeter, and looked much more sanitary without the corners having manure in them, but the overcrowded condition still existed, quite a number of wagons being lined up on West Market street. This overcrowding would not exist if the civic authorities had not leased two such large corners of this section to the Swift-Canadian Co., and Gunns', Limited, and something will have to be done to alleviate it, and that something should be done quickly; so get busy, Mr. Commissioner, and find a satisfactory solution of the difficulty and act upon it
