| own. I do so not upon the information contained in newspaper articles, or popular statements, but on the authority of the official report of the Finance Committee of the Constitutional Convention which was recently sitting at Albany, in which a view was taken of the indebtedness of the State. Let us see what the result was at which they arrived. The Federal taxation of the State is set down in the report at | | |
|--|--|--|
| which, on a population of four millions, gives an annual charge per head of \$45. Compare this now with the state of affairs in Canada. Our returns are not so complete as could be desired, perhaps; and I may take this opportunity of saying that the Government think it would be a great mistake if they did not see that there was a complete system of statistical returns from all the Provinces of the Dominion, which might be made available for purposes of comparison. The estimated revenue of the Dominion is | or popular statements, but on the authority of the official Finance Committee of the Constitutional Convention which sitting at Albany, in which a view was taken of the in the State. Let us see what the result was at which they Federal taxation of the State is set down in the report at the State taxation at | report of the h was recently adebtedness of arrived. The \$118,000,000 12,800,000 |
| \$45. Compare this now with the state of affairs in Canada. Our returns are not so complete as could be desired, perhaps; and I may take this opportunity of saying that the Government think it would be a great mistake if they did not see that there was a complete system of statistical returns from all the Provinces of the Dominion, which might be made available for purposes of comparison. The estimated revenue of the Dominion is \$14,500,000 The estimated revenue of the Provinces, apart from subsidies, &c., paid by the Dominion \$1,500,000 and the taxation by eities, towns and villages \$1,500,000 and the taxation by eities, towns and villages \$1,500,000 and the taxation by eities, towns and villages \$1,500,000 and the taxation of Canada, then: Dominion, Provincial, and Municipal may be estimated at \$20,700,000 which, on a population of 3,900,000, would give an annual little over \$5 per head, instead of \$45 as in New York. (Hear, hear.) The debt of the State of New York was set down in the same report at \$48,381,682 of the cities, villages, counties and towns at \$48,381,682 which, on a population of four millions, gave \$158 per head. Turning to Canada now, we have for the debt of the Dominion \$72,000,000 the Provinces, in excess of the Dominion debt, is That of the cities, counties, towns, &c., for Ontario, Quebec, and the Maritime Provinces, together about \$150,000,000 which for a population of 3,900,000 is less than \$28 per head, as compared with \$158 per head in the State of New York. (Hear, hear.) I think that, taking into account the valuable debts which are owing to | making a total taxation of | \$180,800,000 |
| Mr. MACKENZIE—Too low. Hcn. Mr. ROSE—I think not; there is hardly any in Nova Scotia. The total taxation of Canada, then: Dominion, Provincial, and Municipal may be estimated at which, on a population of 3,900,000, would give an annual charge of a little over \$5 per head, instead of \$45 as in New York.
