A Courier representative, annious, although not surprised, to know the reason for Mr. Cliff's warm eulogy of the pills, called on that gentleman receintly. Mr. Cliff willingly consented to an interview, and in the following story told his reason for being so sincere an advocate of a world-renowned medicine. "Some five years ago," said Mr. Cliff, 'my daughter Lilly began to an advocate of a world-renowned medicine to effect a cure. My daughter did-her best to follow his instructions, but the forced exercise and a general rousing up,' as the best medicine to effect a cure. Einax College Opening Exercises.

The regular opening exercises of Knox College are announced, and take place on Wednesday, Oct. 7, at 3 p.m. in Bloor-street Presbyterian Church, it being feared that the college hall is not sufficiently large to accommodate all who are expected to be present. The opening ceremony will be the induction of Rev. G. M. Robinson, D.D. and Rev. James Ballantyre, after which the usual program of entertainment may be looked forward to, and Dr. Robinson will deliver his inaugural address. In connection there will be a meeting of the new society called the Knox College Endowment and Sustentation Association.

The Corena.

Editor World: Many rumors have been abroad regarding the new boat Corona of the Niagara River Company. I have had in the United States an experience in naval affairs for sixten years, and am of opinion (and other seasoing men agree with me) that a better boat does not run in Canadian waters. In the late spell of rough weather, she was splendidly handled by Captain Soames and his crew. She is a safe, speedy boat, and a splendid addition to the squadron under the able management of Admiral John Foy. Commodore McGiffin, Captain Soames and Captain Harbottle are able men, have good crews and most popular all along the line of route.

University Convocation.

The University Convocation proceedings will be held this year on Tuesday, 6th October. The authorities have decided to restore the old custom of holding convocation within the University precincts, and for this purpose it is intended to utilize the gymnasium building as a hall. The building will afford accommodation for an audience of about a thousand persons, and was originally designed to serve temporarily as a convocation hall. Two meetings will be held. For the first time since Federation, the University Council will hold a convocation of its own. This meeting will take place in the afternoon. President London will preside, and it is expected that short addresses will be delivered by the Chancellor, Hon. Edward Blake, the Premier of Ontario and other distinguished gentlemen. After the meeting, which will not be prolonged, the new chemical building and its apparatus will be thrown open for the inspection of the public, and will be well worth a visit. The main feature of the University College convocation, which will be held in the evening, will be an address by Dr. Fletcher, Professor of Latin, on a subject to be announced later.

E. W. Thomson in Town.

Mr. Edward William Thomson, formerly of Toronto, now on the editorial staff of The Youth's Companion, Boston, and well-known throughout Canada as the author of that delightful book, "Old Man Savarin," is in the city. He has just returned from a hunting and fishing expedition up the Gatineau, and intends spending a few days in the city. His visit here is coincident with the appearance of a new book from his pen—this time a book for boys—en-titled, "Walter Gibbs, the Young Boss," bearing the imprint of the well-known publishing house of William Briggs.

The Same... Old Sarsaparilla.

That's Ayer's. The same old sarsaparilla as it was made and sold by Dr. J. C. Ayer 50 years ago. In the laboratory it is different. There modern appliances lend speed to skill and experience. But the sarsaparilla is the same old sarsaparilla that made the record-50 years of cures. Why don't we better it? Well, we're much in the condition of the Bishop and the raspberry: "Doubtless," he said, "God might have made a better berry. But doubtless, also, He never did." Why don't we better the sarsaparilla? We can't. We are using the same old plant that cured the Indians and the Spaniards. It has not been bettered. And since we make sarsaparilla compound out of sarsaparilla plant, we see no way of improvement Of course, if we were making some secret chemical compound we might.... But we're not. We're making the same old sarsaparilla to cure the same old diseases. You can tell it's the

Dear Sir,—I have been badly ruptured for the past nir years, and during that time have been fitted with many different kinds of trusses, manufactured not only in Canada but in the United States, without obtaining relief. On April 19; 1896, I purchased from you a Wilkinson Truss, being advised by a physician to do so, and I feel confident that I am now perfectly cured. I can assure you that I feel thankful for the results, and if you wish you can refer to me for reference.
