THE DEPARTING HOSTS.

Station Yesterday. The Epworth Leaguers impressed us with their numbers scarcely less by their departure than by their stay among us. Down by the water-front at an early hour yesterday morning there was an unprecedented crush of returning United Statesers. The Chippewa, which leaves at 7 a.m., had her full legal complement of passengers before half past six. By the time she put out there were enough disappointed ones left behind to fill the Chicora at 9 o'clock. It was amusing to see the confident air of numbers of Leaguers, as they marched down at 8 o'clock, thinking that an hour would certainly be enough margin to ensure at least standing room on an outgoing steamer. Great was the surprise and correspondingly long were the faces when upon arrival at the wharves they found that a couple of thousand had been there waiting two hours.

A similar scene was enacted when the Corona left at 11, as well as when the Empress and Lakeside left with their full capacity of hymn-singing, departing Down by the water-front at an early

YOUNG BROWN IS SAFE. The Epworth Leaguer Missed His Father at

the Cave of the Winds. The mystery of the whereabouts of John good fishing. L. Brown, an Epworth Leaguer from Ten- 2 nessee, reported in yesterday's World, has nessee, reported in yesterday's World, has been solved. It appears that when he came up from the Cave of the Winds at Nigara Falls on the occasion of his visit there last week, he missed his father, who accompanied him to Toronto, and for three days they have been chasting each other. It was thought the young man had lost his footing and fallen over the precipice. Last night Mr. J. A. Harvey of the Toronto House Renting Company, who had charge of billeting a section of the Tennessee contingent, received word from the Falls that father and son had located each other the son being in Toronto and the father at the Falls. They had passed one another in the middle of the lake.

t. In 1868, the first year in which any reliable records were published, the total amount of Life Assurance premiums collected in Canada was \$960,331. By reference to the last official returns from the Dominion Government Insurance Department, it will be seen that for 1896 the total Life Premiums amounted to \$10,604,577, and of this sum no less than \$6,075,454 went to foreign companies, a serious and unnecessary drain upon the resources of this country. These and other equally important facts have led the promoters of the Imperial Life Assurance Co. of Canada to feel that an institution conducted upon conservative ines with a large cash capital, a large Government Deposit, and a Directorate commanding the confidence and respect of the public, will at once take its place side by side with the older and more successful Life Assurance Institutions of this country. The fact that at the end of last year policies upon residents of Canada totalling no less than \$132,000,000 were carried by foreign companies indicates the room for increased home enterprise.

2. The issue of \$1,000,000 Capital at a premium of 25 per cent. places this Company at its commencement in the very front rank, and, by affording its policy-holders and annuitants unquestioned security, enables it to start with the certainty of doing a large and profitable
