TAMMANY'S OVERWHELMED

Low Defeated Shepard By a Majority of 29,864—Only One Adverse Borough.

WHAT THE CHANGE WILL MEAN.

How Richard Croker and His Adherents Will Be Affected By It.

New York, Nov. 6.—Full returns in New York city of the vote for Mayor show the election of Seth Low, the Fusionist, by a majority of 29,864. Mr. Low received 298,864 votes, and Edward M. Shepard, Democratic candidate, 269,128.

Mr. Shepard carried only one borough, and in that one, Queen's, his majority was only 162.

In the County of New York, the last remaining hope of the Democrats is swept away by figures indicating the defeat of John T. O'Brien's majority, however, O'Brien's majority is not more than three or four thousand.

The majority of the Fusionist candidates for justice of the Supreme Court nominee for District Attorney, are even larger than reported last night. Incomplete figures indicate that Jerome has carried his district, New York County, by about 13,000.

So badly was Mayor Van Croker crushed that returns indicating his defeat for Justice of the Supreme Court are late, and it is difficult to estimate the final figures, but it is believed that he will run near 20,000 behind his ticket. All of the Fusionist candidates for Justice of the Supreme Court in New York County are elected, and all of the Democratic candidates are beaten.

The name of Justice O'Brien, however, appears on the board of estimate and apportionment of the new charter, and it is certain that he will be appointed to that position.

The Democrat who is appointed to the Board of Estimate and Apportionment is Borough President Cassidy of Queens.

THE CHANGE AND CROKER.

New York, Nov. 6.—The Times accentuates the new and militant politics by the following editorial:

On the 1st of January next Mr. Van Wyck will pass from the Mayor's office to such obscurity as his character deserves, or permits, and his place will be taken by Mr. Low. An able and vigorous man, of wide experience and trained judgment, who is expected to render distinguished service in positions of great importance and difficulty, will assume powers hitherto unprecedented in the penitentiary of the American city.

It will be his task to select competent and courageous men for the Police Department, the Health Department, the Department of Street Cleaning, the controlling membership of the Education Department, and the various departments with the appointment goes the power and the responsibility of retention.

Apart from the functions of the public works, the administration of the great city lies in the hands of the Mayor. His first task will be to choose the man who is to clean the police service from top to bottom, who is to set the standard of character, efficiency, discipline and morale for every officer and every patrolman.

It will be his task to select the Mayor will have not merely the support of the majority of those who voted for him, but that of the great body of those who voted for his opponent in confidence that he, too, would undertake the work. And this inevitable support he will have in all the complex and trying duties that await him.

The principle of the election of Mr. Low is the signal triumph of having the great advantage of having no party debts to pay. He has been chosen not by a coalition, but by a union, not by a combination of parties, but by the common action of the majority of the voters of New York, bent on banishing party considerations from the management of city affairs. He will have no temptation, even if he were capable of yielding to it, which he is not, to reward or "reap" in appointments the various bodies that have joined in his election.

The warning, therefore, of the experience of the Strong administration in this direction will not be needed to guide him in the path he has been expressly chosen to pursue. The simple service of the whole city, the best men available for posts of power and responsibility, will be from the start and will remain until the end his sole aim, as it is the sole mandate of the people.

In this fact lies the extreme significance of the result. The Citizens' Union campaign of four years ago defined the principle of municipal independence of party

politics and fixed it in the minds and hearts of 100,000 voters. The lamentable consequences of the return of the Republican organization to accept that principle which was reinforced by the common impulse against Tammany. At the last moment the extraordinary course of Mr. Shepard in setting up the barrier of professional Democracy between Tammany and the indignation of the people made the issue of partnership against the independence of the city more sharp and the triumph of the latter more substantial and enduring. It is a source of incalculable advantage and encouragement that the city has not merely driven one party out, but has established a new principle, and recent misdeeds, but has acted on a definite and fruitful principle, and has served the public interest by the election of a man who will manage their own interests for themselves without regard to the partisan affiliations that have nothing to do with their interests.

RICHARD CROKER.

Agals, the same paper points out that Richard Croker is being swayed, thus, nothing in the return of the election as provokes the wrath and awakens the alarm of the Fusionist, and a boss who has been working for his own pocket all the time is in continual danger of being carried out. The election of Mr. Jerome increases the chances that Croker will be found out.

Mr. Croker knows whether he has been criminally concerned in the hideous corruptions of his Tammany government, but that is not the worst of it. The other chiefs of Tammany know also, and no doubt the Gambling Combine knows. These rascals are liable at any time to fall into the clutches of the new district attorney. Croker cannot tell, no man can tell, how

prevent disorder. At the first symptoms of internal disorder, Tammany's Vegetable Pills should be resorted to immediately. Two or three of these salutary pills, taken before going to bed, followed by doses of one or two pills for two or three days in succession, will serve as a preventive of attacks of dyspepsia, and all the discomforts which follow in the train of the disorder. The means are simple when the way is known.

much they will disclose under the thumb-screws of indictment and prosecution. Nor can it be foretold what other witnesses will appear, what incriminating evidence be elicited. Anything except peace of mind and undisturbed sleep of nights may happen to a Tammany man with Mr. Jerome in the office of district attorney. On the whole, it is not unlikely that Mr. Richard Croker will presently leave these shores not to return. Mr. Jerome's four years' term of office. It is certain that the city and county of New York will be a highly unseemly place of residence for several of Mr. Croker's intimate political associates.

"That Made the Hit"

The hit of the season. It's an Alpine Hat, of soft felt, built along the lines of the Panama. It has a rolling brim that slopes gracefully front and back, the crown is tasty in design. It's the rage in New York because of its neatness. Our representative there has anticipated your liking it also, for he has sent us thirty cases of these hats, in light and dark grey and deep fast black. You've seen a few of them around town. Now call and see if they don't suit your fancy. If you buy a hat at all you might as well get something new. It doesn't cost you any more. Every hat we sell is red hot from the fashion moulder.

Don't buy a hat because "it's cheap." Look always for quality and style. You want to appear neat and have something that will stand the weather. What you call a cheap hat doesn't meet these requirements.

Hats We Sell Couldn't Be Made Better or of Better Materials. SILK HATS. There's a big difference in Silk Hats. You must always buy one with the name of a big maker on the inside band. That's the only safeguard. We are Dunlap's and Heath's sole Canadian agents. \$5 to \$8

DERBY HATS. We begin the prices of our Derby Hats at \$2 and work right up to Dunlap's at \$5. We begin them in Parisian styles and end them on Broadway stunners. Derby Hats, \$2 to \$5.

ALPINE HATS. The new curled brim Alpine Hat, Panama shape, is the newest thing on Broadway. We yesterday received thirty cases of them, in light and black felt. You've seen a few of them around town, where his injuries were attended to. He received a bad cut over the right eye and a severe shaking up. He was removed to the Sick Children's Hospital in the ambulance.
