LIVES FOR ONE

London, Sept. 7.—General demoralization of the German population and widespread and growing disaffection in the German army, accompanied by mutiny and desertions, are described in a dispatch to the Daily Telegraph from its Rotterdam correspondent, under date of Thursday. The correspondent says that information reaching him is so sensational as to inspire skepticism, but declares that he has received confirmation from authoritative sources which establishes the authenticity of the knformation beyond a doubt. He asserts that the German army is filled with despondency and seething with mutinous spirit, and that alarming outbreaks have occurred in several units, principally Bavarian and Silesian. One incident on the Arras front terminated in a whole Bavarian division being disarmed and transported to Bavaria, where it was placed in a prison camp, and the mutiny of one of the Silesian regiments resulted in
