Noted Suffragist **Issues Statement**

Mrs. Annie M. Sloan, of Buffalo, Declares She Would Not Take All the Money in the World For Good Tanlac Did Her.

"I will just say frankly I think Tan lac is perfectly wonderful and I wouldn't take all the money in the world for the good it has done me," said Mrs. Annie M. Sloan, recently, residing at 275 Huntington avenue, Buffalo, N. Y.

Mrs. Sloan has resided in Buffalo for the past forty years, and is very prominent in club circles, being an active member of the Buffalo City Club, the Lincoln Republican Club, and the Women Voters' League.

She represented the women of her city in their appeal to the United States Senate at Washington when the suffrage bill was first introduced, and was honored with a membership to the Washington Suffrage Club. Mrs. Sloan is also deeply interested in church and charity work. Her statement regarding the benefit she has derived from Tanla will be of widespread interest. She said

"I have only been taking Tanlac about four weeks, but I am already feeling better than I have felt in years Why, it just seems as though I have been awarded a new lease on life, and l would be doing an injustice to others who are trying to find relief not to tell left me without any energy and so what this grand medicine has done for

RUPTURE KILLS 7,000 ANNUALLY

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglectly yourself by wearing a truss, applia.ice, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But scleuce has found a way, and every truss unferer in the land is invited to make a PRES test right in the privacy of their own home. The PLAPAO PAD when adhering closely

League of Nations at 3:45 o'clock Saturday afternoon.

Argentina will not resume her place in the assembly until it has passed the four amendments proposed by Honorio Pueyrredon, head of the Argentine delegation. These aim principally at securing compulsory arbitration by the international ecurt of justice, the admission of a states, and the election of all members of the council, instead of only four, as now.

The Argentine delegation's withdrawal from the league assembly was the reef struck during the course of the three weeks' deliberation, which had been going on with reassuring smoothness until it got into a fog in the discussion of the proposed amendments.

York Wins Trophy.

By winning the inter-county judging competition for 1920 the team of junior farmers from York County come into permanent possession of the handsome silver trophy donated by the late Hon. J. S. Duff. Twice before the boys from County team also had two wins to its credit. This added interest to the competition, which took place at the O. A. a C. with teams entered from 22 counties. Both counties sent their strongest teams and as was expected, finished first and second, although Victoria County tied with Oxford for second honors, the two being beaten out by York by 198 points in a possible score of 300.

for Oxford, and A. A. Knight for Victoria.

The inter-county competition has probably done more to arouse interest among the junior farmers and to improve live stock, than anything that has been attempted, and each year the competition becomes keener. This year the teams judged two classes of beef cattle and one class each of Shorthorn helfers, Ayrshire heifers, Holstein cows, Shropshire breeding ewes, Leicester breeding ewes, Yorkshire brood sows, finished bacon hogs, Clydesdale mares and Percheron draught horses.

After placing the classes, the teams were given it minutes in which to write their reasons for their selections. When this was one the judges placed the animals properly and explained to the teams the reasons for doing so. This is the big educational feature of the competition, and results in the boys receiving expert knowledge at first hand gratis.

Uric Acid Poisoning! BY L. H. SMITH, M. D.

Uric acid stored up in excess in the system is the cause of rheumatism, and this uric acid poison is present in the joints, muscles, or nerves. By experimenting and analysis at the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., Dr. Pierce discovered a combination of native remedies that he called Anuric—which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you can obtain Anuric (antiuric acid) at any drug store and get

relief from the pains and ills brought about by uric acid. Just step into the drug store and ask for a package of Anuric, or send Dr. Pierce 10c for trial package. Anuric is many times more potent than

than butter or lard DON'T SUFFER

WITH NEURALGIA

Use Soothing Musterole When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck.
It draws out the inflammation, soothes
away the pain, usually giving quick relief.
Musterole is a clean, white ointment,
made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly
recommend Musterole for sore throat,

recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.
