Peters-Duncan, Limited, had a car of Winesap apples selling at \$4 to \$4.50 per

CATTLE MARKET SHOWS A DECLINE

Prices Off Fifty to Seventy-Five Cents From Last Week's High.

While the official board at the Union Yards gave the receipts of cathe at around 1500, there were processly in the neighborhood of 2000 cattle, all told, counting the late arrivals, and the leftovers from Tuesday's tracing.

The market on the whole was from 50c to 75c o.f from the high of last week, with trade slow and prices fower, as stated. Incre were some very good, uscam battener cattle on saile.

Good cows are wanted, a good many Jewish buyers being on the market looking for the neavy, lat cows. The built rade noids about steady, with a steady inquiry for thin, young cows for grassing purposes, while some breedy stockers and feeders would bring satisfactory prices.

The better class of milkers and springers continue to sell well, as snown by a number of sales made by parkfull & Armstrong and others yesterday, but the medium ones are nard to cash.

The run of sheep, lambs and calves continues light, whin price changes unimportant. The sheep trade holds steady to strong.

The nog market is active and strong, with light receipts—hardly enough to tempt the big plants to get into the game. The latter are standing firm on their bid of 18%c 1.0.b. for saturday's loading, but the bidding yesterial in the most part was on the basis of 19%c 1.0.b. and 20%c fed and watered.

SPECIAL MARKET NOTES.

A Fine Load of Heifers.

The Corbett, Hall, Coughlin Company sold a load of heifers yesterday, 19 in the bunch, to the Harris-Abattoir at \$13.75 per cwt. They were consigned in by McCallum Bros., of Shakespeare, Ont., who fed them, and they were certainly a credit to all concerned.

J. B. Had Top Load.

J. B. Shields & Son made the top price on a small load of cattle, 7 in the lot, averaging 1,220 lbs., which they sold to the Canadian Packing Company of Montreal at \$14.50 per cwt. A good bunch and well sold.

The High for the Day.

Charlie McCurdy, for the United Farmers, made some fancy prices, selling one choice steer at 15c a lb., another one, 680 lbs., at 15c, 1 at 14½c and another at 14c.

at 14c.

Good Chance for Breeders.

C. Zeagman & Sons, the well-known commission house, will have 25 choice brood sows on sale at the yards on Monday, consigned in by H. A. Wilson of Dryden, Ont. A splendid chance to pick up a good breeder.

Straw (Track, Toronto). and Dome Lake at 8½. West Dome held at 10.

Trethewey, which rolled up a total of 9200 shares, was relatively active, and the price rose a point, to 45, with the closing at the highest of the day. The company's annual report is expected to make its appearance within a week or so, and those in fairly close touch with the Trethewey's affairs predict that the market will place a buillish construction upon it, altho so much has been said and written about the success of the company's ventures in Gowganda that the "street" is fully prepared for a glowing statement. Timiskaming had an overdue rally of a point, to 43½, and La Rose sold up half a point, to 54. The company's annual report, a summary of which appears elsewhere, shows that the past year was a fairly profitable one, but it is the expectation of important results on the University property which is the sustaining market influence upon La Rose. Mining Corporation was slightly easier at \$2.25, while Beaver at 61 and Peterson Lake at 21½ were unchanged. Petrol Oil rose half a point to 65, and Bothwell Oil a point to 36½. \$11; 1, 1040 lbs., \$11.50; 1, 1040 lbs., at \$12.50; 2, 2360 lbs., \$11; 1, 1010 lbs., at \$10; 1, 1080 lbs., \$5.5; 1, 880 lbs., \$5.25; 3, 3400 lbs., \$11; 1, 1010 lbs., \$10.

Exploration Completed on the

HERRICK GOLD MINES

Main vein cut at 800 feet by diamond drills indicating existence of a shoot containing a huge tonnage of ore--average assays show a value of over \$15 in gold to the ton

THE big vein of the Herrick Gold Mine, which is 1000 feet long on the surface, has been proved by diamond drilling to a depth of 800 feet. The existence of an ore shoot 1000 feet long, 800 feet deep and at least 10 feet wide is strongly indicated. Extensive sampling and assaying give a value of over \$15 in gold to the ton. This is a remarkable development and illustrates the great possibilities of the property.

Installation of an adequate mining plant is being rushed to completion. Shaft sinking,

cross-cutting, drifting and general mining operations will begin as soon as steam is turned on.

A large tonnage of excellent milling ore should be "blocked out" in a few months of aggressive development.

A mill should be in operation within a year. In view of this very favorable outlook the shares should have a substantial rise even within three months.

The treasury is well fixed. therefore, the present offering is a limited one of 100,000 shares at 40 cents a share. The allotment will not last long. Subscriptions should be forwarded to us early.

Write for descriptive booklet and maps of this fine property.
