TRAVELERS

PETITION I. C. R.

Ask For Extra Sleeping Car to Maritime Express Between Moncton and Campbellton

The commercial travelers in the maritime provinces are circulating petitions which will soon be presented to the I. C. R. board of management asking that an extra sleeping car be attached to the maritime express between Moncton and Campbellton. Under the winter timetable the maritime express is the only fast train between Moncton and Campbellton, and the time of its arrival and departure at Campbellton, it is claimed, is such as to make the through sleeper of little use to passengers between these points.

The train arrives at Campbellton from Moncton and points east at 3.15 a. m., and coming from Campbellton leaves at 5.15 a. m. What the commercial men want is a sleeper that they could enter at Moncton, which they leave about 10 o'clock and on arrival at Campbellton, have the car dropped off on a siding so that they could continue their slumbers undisturbed until 7 or 8 o'clock. In the same way if a sleeper was available at Campbellton they could enter it at night and when the eastbound express came along the car would be attached and the passengers could arise at a reasonable hour.

Under the present conditions many of the travellers patronize the day coaches, rather than bother with the sleeping cars, for the little time they have to occupy them.

The petitions will be presented through the Maritime Commercial Travelers' Association, and they are being signed by many. Campbellton is looked upon as the headquarters for the commercial men on the north shore, and if a special sleeper was put on as they are asking for, they say it would be a paying investment, as for his home in the old country when arrested. He will probably be allowed to go today.

DETECTIVE WHO SOUGHT READ WAS HERE TODAY

A. E. Williams Formerly of I. C. R. Speaks of Strange Case of Missing New Brunswick

A. E. Williams, formerly chief of the I. C. R. detective service, but now one of the managers of the Thiel Detective Agency in Montreal, arrived in the city at noon from Montreal en route east. To a Times reporter he denied that he was down this way on any other than a pleasure trip. He had, he said, with others of the Thiel service worked on the case of Herbert C. Read, who so mysteriously disappeared on November 3, but said that the matter had nothing to do with his trip here. The case (Read) was one of the most baffling that the agency had ever had to deal with.

"We have found absolutely nothing to work upon, and after running down every clue no theory suggests itself," he scouted the foul play idea.

Taking up the suggestion that Mr. Read may have voluntarily disappeared Detective Williams said that when it had been taken up with his friends and relatives they would not hear of it. He believed in time, however, that the affair would work itself out.

The residue is given in equal shares to the brother and sisters of the deceased. The estate is sworn according to present estimate at \$14,000, personal, and \$2,000 real, but mention is made that there are, in addition, some unlisted stocks the value of which cannot be determined at the present time.

Joseph McGregor was fined \$4 in the police court, this morning for being drunk in Water street. He had a ticket for Scotland in his possession, and was bound for his home in the old country when arrested. He will probably be allowed to go today.

The final statement of the City Cornet Band on the King Square band stand is issued today by James Connolly, president. It shows that, in addition to their work the band contributed \$554.92 in cash from their funds. The statement follows:

To the Citizens of St. John:
Ladies and Gentlemen:
We take this opportunity of making a closing statement to the public of the receipts and expenditures of the King Edward band stand, King Square, and in so doing we wish to thank all who so generously contributed to the same. Whilst all our expectations were not realized, we feel that the city of St. John has a creditable band stand that we hope will be both useful and ornamental for many years to come. Although the work of erecting the stand entailed much work and worry, we feel amply repaid by the fact that the stand meets with the approval of the citizens in general.

This is the Stove That Will Give You Heat!

In getting a Heater you want to know whether it will give heat to the floor—if it can be shaken without covering everything with dust—if it is a Heater that is easy on fuel and above all, that it has some style about it that will make it an ornament in your parlor or sitting room. The Glenwood Oak has all these requirements. The Glenwood Oak shakes on the side avoiding the dust that always comes from a stove that is shaken in front.
