

"WILD HONEY" AT IMPERIAL IS A HIT

Priscilla Dean Outdoes Herself in Anglo-South African Thrill Romance — Last Time Today.

Priscilla Dean added another triumph to the series of her screen successes here, when her latest photodrama, "Wild Honey," was shown at the Imperial theatre last night. It is a Universal-Jewel production adapted from Cynthia Stockley's English novel of the same name, and deals with the experiences of an intrepid English society girl on the veldt of South Africa.

Miss Dean has become known as one

"What I did to cure a cough which was Racking my system to pieces."

"One very hot evening last summer, while in the mountains, a cool breeze suddenly came up which left me thoroughly chilled. Next day I felt a slight cold in my head but thought nothing of it. The following day the cold had developed into a cough. This kept up for some weeks but instead of getting better the cough kept getting worse. A tickling sensation developed in my throat. I tried everything I could think of to get rid of it. It was worse when I went to bed. As soon as I laid down the tickling sensation started and the only relief I could get was to sit up in bed. Towards morning, I sometimes, from sheer exhaustion, managed to get a little sleep. During all this time my cough was getting worse. Sometimes in these severe fits of coughing spasms I was left weak and exhausted. Anything I tried only gave me temporary relief. I couldn't take anything but liquid foods. I couldn't sleep. I was losing weight every day. At times I suffered the most intense agony with headaches. A friend of mine told me about Carnol. After trying it for three weeks I noticed that my cough was beginning to soften, that my appetite was returning, that the headaches had left me, that I slept longer. After taking seven bottles of Carnol, I am perfectly well, and enjoying better health than I have ever had before in my life."

Writes Mrs. J. O. Montreal

Carnol is sold by your druggist and if you can't find it, write to me, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 10-122

Those Pretty Teeth

How careful people get them

Careful people—millions of them—are brushing their teeth in a new way. They do it almost the world over, and largely by dental advice. Whiter teeth is one result. You see them everywhere. Now we urge you to try the method which they use. Ask us for a ten-day test.

Just remove the film

It is film that makes teeth dingy. That viscous coat clings to the teeth, enters crevices and stays. The tooth brush used in old ways has left much of it intact. Film is what discolors, not the teeth. Film is the basis of tartar. Most people's teeth are kept clouded by it, more or less. Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. It breeds millions of germs, and they, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing. And most of them are traced to film which old-way brushing left on teeth.

What must be done

Dental science, after long research, has found two film combatants. Able authorities have proved

their efficiency. Now leading dentists, here and abroad, are urging their daily use. A new-type dentifrice has been created, called Pepsodent. It complies with modern requirements. And these film-fighting methods are embodied in it. Every use attacks the film in two effective ways.

Aids Nature too

Gummy starch deposits also cling to teeth, and often ferment and form acids. To digest them, Nature puts a starch digestant in the saliva. Every use of Pepsodent multiplies that starch digestant. Nature puts alkalis in the saliva to neutralize mouth acids. Each use of Pepsodent multiplies these alkalis.

Thus Pepsodent twice daily brings five desired effects. It is brought to millions, as it will to you, a new conception of clean teeth.

Send the coupon for a 10-Day Tube and watch the delightful effects. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-cats disappear.

See the new beauty, feel the new cleanliness. Then judge for yourself what results may mean to you and yours. This is too important to forget. Cut out the coupon now.

Anita Stewart is herself. That describes capable acting, a glittering sheen of gorgeous clothes, beautiful features and a graceful carriage. Her support is unusually capable. Walter McGrail is the leading man and the players include among others, Arthur Edmund Carew and Adelle Farrington. Young Ernest Butterworth takes a juvenile role with a mixture of comedy and pathos.

The direction was by Edwin Carew and the scenario by Josephine Quirk.

EARLE WILLIAMS AT THE UNIQUE MAKES A HIT

There is a delightful vein of whimsical comedy running through "Restless Souls," the Earle Williams production which was shown at the Unique yesterday. It is in this type of picture that the star shines. His stocky build, jovial face and good natured manner, make him exceptionally well suited to roles of Parkinson's type.

The picture is based on a story "Playing Dead," by Richard Harding Davis, and in visualizing the story all of the humor and twists which made Richard Harding Davis a favorite have been retained.

An old maid aunt who desires to protect the poor little English sparrows, and raise \$50,000 for the erection of a twenty acre sparrow preserve, provides much of the comedy. Then a psychic lecturer, who is interesting story of
