

The Library having been closed last year, we introduced in place of it a variety of reading matter in the the shape of Sabbath School papers. Though these were perused with much interest, still they did not seem to fully supply the place of a Library.

We are happy to state that a Library of about 350 volumes, beautifully bound and illustrated, has been procured, and will be in circulation in a few days.

The collections for the past year were \$118.02
