SIR DONALD MANN

R. T. Elliott Recompenses Men Who Acted Squarely With \$100,000 From Commission

(From Wednesday's Daily.) associates of Vancouver.

The interview at which Sir Donald into the assembled operators.

"I'll buy the property if you can detion," said the witness. Sir Donald did with Mr. Brown. not offer the information that his partner Sir William Mackenzie had bought

Mr. Bodwell had Dr. Munro under cross examination for the best part been started in June, 1910. The crossof the afternoon and for a considerable examination of these witnesses brought time this morning and brought out evidence similar to that given in some facts in connection with the deal that occurred after the meeting with don-Jack was still on the stand when Sir Donald Mann. Dr. Munro advised Ferguson to return to Victoria and see R. T. Elliott, with whom Mr. Fer- sion had been discussed when Mr. guson later made an arrangement that Brown and Mr. Jones visited him at he and his partner, Z. M. Hamilton, who had gone east to see J. J. Hill and about to leave for England on a Gra-J. P. Morgan, were to collect \$100,000 nam Island coal mine deal and that he when the deal was put through. Of might see Mr. Hamilton in New York heard from Mr. Ferguson of the \$100,-000 settlement with Mr. Elliott about ter to England. the 17th January, 1910, and on the 24th wrote the plaintiff, Brown, at Portland that Ferguson and Hamilton were down and out on the deal.

His reason for not notifying Brown of the commission arrangement of \$100,000, he said, was that he had heard G R French was interested with Ferguson and Hamilton and that French would probably claim the whole of the \$100,000. He, however, admitted hav ing wired Ferguson in Victoria that he expected to get \$50,000 as his share of DENOUNCE NATIONAL the amount. Mr. Bodwell asked the witness why he did not tell Brown of the arrangement and why he did not write him that he expected French would claim the whole, instead of telling Brown that Ferguson and Hamilton Doctors Determined to Hold were down and out. The witness replied that it did not occur to him to do so.

In another letter written to Brown Dr. Munro mentioned that they had no legal redress for "Mr. Elliott's double play."

R. T. Elliott, solicitor, who was calling action in sixty days and a payment of \$100,0000. The information that the mines were for sale then became public property through some means and he simply had to let go, so he ashad been fair with him and he looked granted. after them.

Dr. Munro said Z. M. Hamilton had seen him in Vancouver and told him he had an option. Dr. Munro and his friends financed Hamilton east, where he was to place the matter before J. J. Hill and J. P. Morgan. Hamilton also asked the witness to put some one in touch with the property if pessible, and Mann to the other visitors, gave him a cigar, and after Sir Donald had smoked it the witness was surprised to hear that \$100,000 had been paid on the property the day before. Sir Donald did not say who had paid it and they did not ask him.

Under her own power the Casco left up the river for Portland early to-day to undergo repairs. She will be placed on the drydock this afternoon. The Casco was in charge of a river pilot when the accident occurred.

they did not ask him. Robt. N. Ferguson, of R. N. Ferguson & Company, investment brokers, Pemberton block, gave another account of not having been brought to the house widower.

at that time the assembled vendors of the coal mines discussed what price they should ask Sir Donald when he arrived. Some of them suggested they ought to get twelve or thirteen mil-lion dollars and make a profit over and above the commission, but the plaintiff in the present action had previously told his relative that the price was \$11,000,000. Ferguson said that when sent for he did not know what they wanted but he did not think they would sell the property. He came back to GOES OUT HUNTING Victoria and made the arrangement with Mr. Elliott. Munro got \$27,500 of

that money. Alfred D. Jones, partner of the plain-tiff, corroborated the latter regarding some commission conversations with Dr. Munro which Dr. Munro denied. He said he went with Brown to discuss commission with Munro because he knew if there was no witness they might easily get "done up."

Doctors Munro, Cumming and Brydon-Jack gave evidence for the defence Wellington by Sir William Mackenzle, R. C. Brown to recover \$500,000 compreme court in connection with the suit that they were instruced by Z. M. for commission, now being heard by Hamilton to mention the matter to any Mr. Justice Clement, brought by Regin-ald C. Brown against Dr. Munro and for the purchase and to refer all such think of the children and prepare for persons to him.

Mann was present was detailed by Dr. opiton he received to present it to J. Munro, who was called to give evidence for the defence. According to Munro's had gambled \$3,000 expense money on impressions there was a general silence when Mann entered the room, and silence remained supreme for the space as their share of the \$100,000 paid by of ten minutes. He lit a cigar and R. T. Filliott. The belonce of the space of ten minutes. He lit a cigar and R. T. Elliott. The balance of the for the children. smoked it and sat there and did not sa, amount they supposed went to C. B. word. He then obtained the option French and Hamilton and Ferguson. from R. N. An Innovation in Oil Heaters

The Perfection Smokeless Oil Heater, with its drums enameled in turquoise, is an ornament to any room, whether in the country or city home.

No home is quite complete without a Perfection Oil Heater. It is a necessity in the fall and spring, when it is too warm to start the regular heating apparatus, and too cool to be without heat. In the midst of winter it is often convenient as an auxiliary heater, as there are always some cold corners in a house.

The enameled heater always presents a nice appearance, as the enamel will not tarnish or burn off. It is not an "enamel paint," but it s the same as the enamel of your cooking utensils

The Perfection is the most reliable and convenient portable heating device you can find. An automatically-locking flame spreader prevents turning the wick high enough to smoke.

DERFECTION SMOKELESS OIL HEATER
