ciful in the long run than pity, for it tends to foster in men those stronger qualities which make them good citi-Efficacy of Olive Oil. Medical authorities are generally agreed as to the value of clive oil medicinally, finding it also a potent agent for any defects of the excretory ducts,

especially the skin. Eczema has rapidly disappeared upon a discontinuance of starch foods and the substitution of a diet of fresh and dried fruits, milk, eggs and olive oil. The beneficial effects of the latter, when thus taken in cen-junction with a fruit diet, have frequently been remarked in respect to the hair, nails and scalp, supplying to the sebaceous glands the oily substance which they secrete when in a healthy condition, and the absence of which is the cause of debility of the hair, frequently ending in baldness, says The Scientific American. It has long been observed that those who treat clive oil as a common article of food and use it as such are generally healthier and in Mersereau's Photo Rooms.

as such are generally healthier and in better condition than those who do not, and its therapeutic and prophylactic properties are very favorably regarded

by medical men. It is known to be destructive to certain forms of micro or-OHATHAM. N. B., - - AUGUST 4, 1898, ganic life, and for the eradication of such from the system its internal use has been successfully resorted to.

There is a condition possible to some Do not imagine that because a heavy thunderstorm is far away to leeward by most men of noble mold were selec-tion possible. It is the unawed tranit is not likely to arise and wet you. Even if the wind is blowing right that some men, not many, possess, or rather, one should say, by which some men are possessed. An instance of such sourage on a low plane is that of Potemkin kicking aside the bloody head of his predecessor as he stepped to the against the cloud it will come your way all the more surely, for thunderstorms always travel against the wind. The reason for this is that there is invariably a countercurrent of air above the breeze that you feel close to of his predecessor as he stepped to the block, an act almost indelicate enough to be humorous, yet withal significant the earth, and this sky high wind blows in the opposite direction to the one which alone you can detect. Thus the

of an iron nerve.
Somewhere in the late seventies anempest seems to work its way right through the wind's eyes in a very contrary sort of way.

Fog never does this; neither does ordinary rain—at least very seldom but snow or sleet some time works its way up wind just as the tempest does. Sheet lightning, by the way, is not a distinctive sort of light, but merely the reflection in the sky of a forked flash many miles away. You can tell how far away a tempest is by counting the number of seconds that pass between the flash and the peal. Each second stands for about a mile.—New York

Where They Are Mated by Lottery. It was a cynic who said that mar-riage is a lottery, but in the province of Smolensk, in Russia, this aphorism has been reduced to a quarterly fact, for four times a year there is held the most remarkable lottery ever devised. A charge of a ruble is made for ticket, only one prize is to be drawn, and it consists of the entire sum yielded by the sale of the tickets, amounting to 5,000 rubles. The lucky winner of the and so on. The quatrain, with an unimportant emendation, is from Bawring. It sounds fine and rings false. Manilla used to be regarded as the most fortunately situated city in the world. Just prize is bound to marry a certain dam-sel if he takes the 5,000 rubles. Should he be married he is at liberty to turn over the money and the lady to why is a problem. Set beneath a torrid sky, remote from the routes of comany friend whom he may wish to put in for such a good thing. Should the merce, it has squatted, unheeding and practically unheeded, the capital of a stretch of unfortunate isles. Visitors have been infrequent. The earliest was lady, however, refuse to marry the winner they are allowed to divide the ru-

stretch of unfortunate isles. Visitors have been infrequent. The earliest was Magellan. The most recurrent has been the typhoon. The most pertinacious has been the earthquake.

Objects of interest are few. Among them is the mestizo. Superstitions as a ballad, languorous as a serenade, she floats, a human butterfly, along the scarlet lanes. Another feature is the climate. Fancy a pastille burning in a ware them.

In the life of William Stokes, written by his son, which has appeared in London, it is told how Soyer was sent over to Dublin during the great famine to show the people how make soup. Stokes asked a starving beggar why she did not go and get some of the soup that was being freely distributed.

mater they are allowed to divide the rubles did not did the rubles between them.

my darter an making a fool of her he said he would have to inspect the well Sent out by the state, you know.

"Well, I got a pailful of water, an he poured some in a sasser and looked at it, an say, fellers, that water was full of alligators a foot long—microbes asked a starving beggar why she did not go and get some of the soup that was being freely distributed. boing freely distributed.
"Soup, is it, your honor? Sure, it isn't soup at all." "And what is it, then?" inquired Stokes. "It is nothin, your honor, but a quart of water boiled down to a pint, to make it sthrong!" This is the soup maigre which Hogarth caricatured in his picture of the

French troops at Calais. "I understand that was rather a mixed crowd that attended your benefit ball. Rastus." "Yassir, dey mixed once or twice, but we got 'em scatterated befo' any one had time to call fer de wagon."—Cineinnati Enquirer.

coverings should be regulated by a thermometer. The morning tub should be Living on the Limits. "Nine-tenths of our surroundings are superfluous," said the observant man.
"The government feeds its soldiers and sailors on 30 cents a day. Just think of that! As for household goods, let me a biscuit before going out. The eating of fat should be cultivated, as it feeds tell you. There is a man who does odd jobs around our house, and the other day he informed my wife that he was the little cells, which destroy disease germs. Intoxicants destroy these cells. Animals are apt to carry disease germs; going to move and gave her his new ad-"About 8 o'clock I was strolling along the street when I met my man

arm, a picture in his left hand and a roll of bedclothing strapped on his back. His wife carried a large basket filled with crockery and a small all dead. filled with crockery and a small rell of carpet. The boy brought up the rear with two chairs and a dishpan. I loitered on the corner, and presently they came along with more chairs, a collec-tion of pots and pans, and the man carcomprised another basket, probably containing kitchen utensils, more chairs, "Now, just think of that! One hundred dollars would certainly cover the

cost of that outfit, and three people lived on it. Doesn't it make you realize the hollowness of life?"-Philadelphia A Long One, A man well known in State street circles found himself in front of what he supposed was his Back Bay residence late one evening recently. He had a great many dollars' worth of wine under his waistcoat and could not gain entrance through the medium of his latchkey. Becoming enraged, in a drunken fashion, he kicked the door, broke the glass and used language that is unfit for publication. Finally the door was opened, and the owner of the house, who is athletic and irascible, proceeded to kick the State street financier into the middle of the street.

"Wazzer you—hio—mean—hic?" in-quired the assaulted party indignantly as he sat upon the curbstone and held his throbbing brow with both hands. "And what do you mean by trying to break into my house?" inquired the other man.
"Your—hio—house!" exclaimed the

State street man in bewilderment. "How-hic-long-hash you lived-"For four years," was the answer.

Fascinating Mary Stuart.

It would seem indeed as if years only added to the charm of certain remarkaher irresistible powers of fascination through all her imprisonments and up to the very last act of the tragedy. Froude, it is true, insists on certain unromantic details, such as the wearing romantic details, such as the wearing of a wig by the queen on the day of execution, but what are wigs whan weighed in the balance with immortal fascination? It was true that Mary was no special favorite with her ewn sex, nor does she nowadays inspire any disinterested enthusiasm among women. No; Mary Stuart was "a man's woman" both during her life and ever ince an" both during her life and ever since her death. The army of her mascaline admirers is legion, and the books that they have written in her cause form a literature in themselves. The queen of Scots died young and fascinating at 47, and she will always remain the type of

eternally irresistible womanhood. -Exchange. He Found the Firebug. An Australian farmer who was re-An Australian farmer who was re-cently burned out on a large scale, be-ing certain that his grass had been felo-niously ignited, offered \$25 reward for the discovery of the perpetrator and employed trackers at great expense.

After a cursory examination they decidand when they had unearthed the shoe that made them it was found to belong to the farmer's 17-year-old daughter, who, when questioned, admitted that she had started the fire "because she loved to see the people excited and the

er is now called upon to pay the £25 re-ward and another £25 expenses in connection with the trackers. A Dancing Feat. A wonderful feat in dancing is re-corded from Berlin. At a recent ball a prize of a gold ring was offered to the lady who waltzed the longest withous topping. Twelve couples competed They began waltzing at 12:30 a. m. and it was 5:45 a. m. before the winner and the mas 0:40 a. M. Detore the winner and her partner stopped waltzing. By 2:80 five couples dropped out, and at 5:15 another lady fainted. Two more couples dropped out at 4:45, and at 4:50 only ACCIDENT CO.

A missionary in British Guiana whe has recorded some of his experiences in a book relates some curious instances of the choice of names by negro parents. He was once asked to baptize a child "Seriatim ad Valorem," which would certainly have been distinctive. "Whisky Emmanuel" may be quoted as a triumph of compromise. — Westminster

two couples remained on the floor.

The horror stricken spectators were rooted to the spot, with the exception of one small boy, and his clothes indicated

that he was growing fast. - Indianapoli Bill Was Fooled. "Seen anything of a feller round here with red whiskers an a squint?" queried Bill Sykes of Newberg, as he adjusted his red comforter and blew a sonorous blast from his bibulous nose preparatory to taking a little stimulant, "'cause if you have I've got business
with him. He come to my house yes
terday, an after talking around a spell
an telling Hanner he thought she was
my darter an making a fool of her he

him \$10, but 'twas partly Hanner's fault. Here Bil looked around defiantly and continued: "That stuff was salt an water an there wan't no bugs. They were painted on the glass to the mikyscope." And with a rather derogatory remark about the honesty of man generally Bill left in quest of the man with the squint.

—Dowagiac Republican.

Effects of Imaginatio Some years ago a number of students in Europe were concerned in a charge which demonstrated the powerful effects of imagination. In a frolic they donned disguises and arrested another student, whom they tried in a theatrically arranged and dimly lighted chamber and condemned to death. For several hours they kept their horror stricken victim in a darkened room, and having informed him that he was to be beheaded band-aged his eyes and led him to another

apartment.
A crowd was assembled, but restrained their mirth as the victim of the and placed his neck across the spindle of a three legged stool. They prepared for a great outburst of laughter as the neck of the poor young fellow was touched with a slender cane, but instead

Oxygen is a million times less "attractable" or "susceptible" than iron, and therefore experiments to show its attractability have to be extremely del by the way, being diamagnetic—and filling it with air placed it in the field of a very strong electro magnet. The had to borrow a pushcart to move his stove and bedstead.

Of a very strong electro magnet. Then he filled another bubble with oxygen, and again turned on the current. Instantaneously the bubble inclined itself toward the magnet. It bobbed back again when the current was turned off, but at a second attempt, when again the current wa turned on, the attraction so unsettled it that it burst.—London Graphic.

Gunpowder Explosion. The actual chemical result of the ex-The actual chemical result of the explosion of a charge of gunpowder cannot be told with accuracy.

The general idea of what happens is that when the temperature of the igniting agent reaches 482 degrees F. the sulphur bursts into flame; the saltpeter, acted upon by the heat free the current. acted upon by the heat, frees the oxygen with which it is highly charged, and,

combining with the charcoal, forms car bonic acid and oxide, while the nitroger is liberated. The products of combustion are approximately 57 per cent of solid matter and 43 per cent of permanent gases.— New York Sun.
