LOCAL NEWS.

This morning Director Cushing and Harbor Master Ferris commenced the work of the soundings at Sand Point.

The barkentine August, which sailed from Swansea on August 8th, arrived in port this morning, consigned to W. M. Mackay.

Joseph Green, acting fire alarm superintendent, is installing a new fire alarm box on Burpee avenue. The box will be numbered 22.

Yesterday a partridge wandered into the poultry yard of T. Lathan, Mahogany road. It was seen by a game rooster, who quickly attacked and killed it.

At the supplemental examinations for the final year of medicine at McGill, C. W. Hallie of Fredericton passed fully and will be given the degree of M. D., C. M., at the convocation in June.

No breaks have occurred in the high service water main today, and everybody has lots of water. The testing of No. 2 low service pipe will be resumed tomorrow morning.

An improvement to the long room in the custom house in the shape of a handsome glass topped desk was installed this morning and is a great convenience to the business men.

A party of Free Masons from this city, consisting of Grand Master Everett, J. Twining Hart, Bruce Caldwell and James Tuffe have returned from Grand Falls, where they were present at the opening of a new lodge.

Judge Landry left for his home in Dorchester at noon today.

George Gounger, proprietor of the Grand Union hotel, arrived in the city on the noon train today.

Hon. W. P. Jones, who was in the city yesterday said that this upper section of the province is seen to have a railway service. If the Grand Trunk Pacific does not take the valley route then a new railway will be built for this portion of the province.

A meeting of the building committee of the Centenary church was held this morning. Nothing definite was decided on regarding the rebuilding of the Sunday school. Plans will be made at the next meeting of the committee which will be held soon.

Since yesterday's Star mentioned that a freak squash which greatly resembled a bird has been on exhibition in the window of Simbaldi's store on King square, the taxidermist this morning received no less than three specimens, which are being arrayed with eyes and feathers and are creating considerable attention.

The cement and concrete foundations of D. R. Jack's new building on Union street, near Charlotte, are being laid with rapidity, although the work is quite difficult. The base is already laid and now some wall sections are being boxed up for the semi-liquid materials. Interested crowds watch the proceedings.

The Scarlet Mystery Company which arrived from London, England, last week in St. John's, Nfld., and opened last Monday night for a week's engagement has made a great success. Lots of music and comedy in this city should not fail to see and hear these great artists, who will appear here for four nights on October 24th, 25th, 26th and 27th.—Advt.

No. 2 crib site at the west side is nearly ready, and Mr. Mayes is confident of getting the work completed in a few days. More boxes were removed yesterday with dynamite and as far as can be learned only two or three remain on this site. Great difficulty has been experienced in removing the boulders from No. 2, as they were nearly all above grade and had to be dug out from the bottom.

Farmers along the river are gradually getting their winter produce to town and steamers are having enormous freights. Prices at Indian town are fairly easy, though butter and eggs remain high. From the looks of things it seems that St. John is going to be as high priced a city as American and western places. This along with a bungling water service, exorbitant no-good gas, and no very marked advance in wages puts all kinds of socialist notions in the heads of plain men.

Laura Byron, a young woman who is frequently arrested for being drunk, was charged with that offence this morning and pleaded guilty. She said she knew nothing about using profane language and breaking windows on Adelaide street, as she was drunk and would not have done it if sober. It was shown that Laura was hilarious on Adelaide street last night and broke windows in five houses. As the result of putting her hand through the glass she received a severe cut on the right wrist. She was remanded.

At St. Andrew's Rollaway after the last band tonight there will be two races, both mile events. Hammon and Chalkor will skate the first race and as both are fast, evenly matched, and great rivals, there is sure to be a great race. Hammon feels confident of winning and if he does he will probably challenge Merritt or Pollis. McCaw and Wilson will skate the second race and both men are known to the public as fast skaters and evenly matched.

WOODSTOCK TO HAVE A BETTER WATER SYSTEM

Contract Was Also Awarded for Lighting the Streets.

WOODSTOCK, Oct. 11.—At a meeting of the town council last evening the tender of the Woodstock Railway, Light and Power Company was accepted for furnishing power to pump 135,000 gallons of water per year, and for installing, keeping in repair, and running forty street arc lights of 1,200 candle power, the lights to be run on what is known as the moonlight schedule, until one a. m. The amount of the contract is \$2,975. The council also accepted the tender of the Caledonia Iron Works, Montreal, for the installing of an electric motor and pump, for the sum of \$4,722. The town will lay a new suction and connect the new pump to the present system. This pump will have a capacity of 750 gallons per minute and will work under a fire pressure of 110 lbs., and a domestic pressure of 75 to 80 lbs.

This contract is considered to be one of the best and cheapest entered into by any town in the province. There will be double pumps and it is anticipated that with the installation a reduction in the insurance rates will be made. At a discussion the mayor and town solicitor were instructed to draw up contracts in accordance with the tenders accepted.

CLEVELAND DOES NOT THINK MUCH OF HEARST

He Was Astonished at the Choice Made by the Democrats—They Must Bear the Affliction.

NEW YORK, Oct. 11.—The World today publishes a statement by Grover Cleveland, the New York political campaign which it states was written yesterday by the ex-president at his home in Princeton. The statement follows: "It is difficult for me to overcome my reluctance to express my views of the present political situation in the state of New York, and yet I can never lose the interest in her political welfare which has grown out of my long residence there and my active participation in her political movements. I confess I was exceedingly surprised by the outcome of the recent Democratic state convention. Though I was not near enough to be in touch with the incidents leading up to this result, my estimate of the conservative good judgment of the Democracy of the state and my conception of Democratic principles and purposes were such that I was profoundly astonished at the selection made of a candidate to represent them in the pending canvass. "Of course, every voter of the state must settle with his own conscience in determining his action in this emergency, but I cannot but regard the Democratic situation presented to my old associates in New York as an afflictive one."

In the civic court this morning a prominent grocer sued a tenant for one month's rent. It was shown that the tenant vacated the premises on May 1st and offered the landlord the key, which was refused. The landlord, however, entered the house and made things ready for a new tenant, who took possession in June. The plaintiff and defendant got into a warm discussion which turned on what their wives had culled each other, and the case was finally brought to a close, when the judge suggested that the plaintiff withdraw his case. This was done.

Several candidates were initiated into the first degree of mysteries in the Union Lodge, Knights of Pythias, last evening. There will be a number for the next meeting of New Brunswick Lodge, in the North End. The new lodge will shortly be organized. It will originally consist of about twenty-five or thirty members, among whom are some of the most prominent residents of that section of the city. It is understood the new members from the north of the city will receive their degrees at the hands of the combined city lodge in the Castle hall, Germain street, which will be a notable event in local Pythianism. A most decided boom is on among the P's, and before the winter is over it is hoped a very large number of new members will be enrolled.
