CONCERT AT TRINITY.

The concert at Trinity school room last, evening was even a greater suc-cess than that of Wednesday night. There were a large number present, and expressions of pleasure during the performance were not lacking. Mr. Smily was irresistibly funny, and was feartify encored at each selection. Miss Smilly was irresistibly funny, and was heartily encored at each selection. Miss Gertrude Black-Edmonds and Miss Mary Jardhe Thomson sang in an ar-tistic and sympathetic manner. The Holy City and the Carnival were par-ticularly fine. Mr. Smily's song on Scotch economy was most enthusias-tically applauded. Each selection was pleasing, and the concert was univer-sally pronounced a success.

They sit around on the doorsteps, whitling sticks, throwing pebbles at the dogs, taking politics and making the time pass pleasantly by any form of amige-ment they happen to think of. This is hard labor. Amd since it is so, what must that of the excavators te? The public cannot be aware of the difficulty those prisoners experience in making life bearable or they would certainly do something to cheer them up affer such laborious tasks as tak-ing and sleeping. In the course of his remarks on the scripture he gave a scathing rebuke to those who, covetous of titles, obtained and used them undeservedly, and encouraged people to call them by these titles of D. Some of us, continued the blshop, are forced by the exigencies of the time into positions of prominence, for which we are not so well endowed intellectually as we should. But there is no reason why anyone should boast. The heads of some of our young men, as soon as they put on the habiliments of the minister, swell to the size of a prize cabbage. We need to appreciate the fact that human development is slow. No individual or race ever reached the highest place in a single bound. As a race we have no congenital influence behind us that yould place us in a high position at the present time. It is not to our discredit that we have no great minds among us, according to the world's standard, but we must selse every opportunity for improving ourselves and bide our time. The bishop then referred to the great change and advance that has taken place in his time. It used to be diffi-cult to find a man competent to act as secretary, now it was to pick the one out of many. Branching out, the bishop referred to the situation in the south and said that people wish to know why they do not rise against these lynchings and out-rages. It is better for them to be pa-tient than to court annihilation. It would be impossible for them to ob-tain rifles and munitions from the whites, and so they would be left at the mercy of their opponents. The white man is not what you might call brave. of Russia. The notice served on him characterized him as "untrustworthy politically," which is probably an of-ficial way of saying that his friendship

folal way of saying that his friendship for the Russian Government certainly cannot be trusted. Of course Mr. Ken-nan has, by his own frequent acknow-ledgement, been in relations, since his Siberian tour, with Russian revolu-tionists; and his visit to St. Peters-burg would seem to have been a rather Quizotic proceeding under the circum-stances. He was given extraordinary facilities by the Russian officials, and all these he turned against the gov-ernment with terrible effect, so far as American public opinion is concerned. Russians aver that many of his state-ments were founded on incorrect im-pressions rather than actual fact; but whether they were or not, he had fair-ly made himself persons non grata to a government which is very much ac-customed to having its own way.
