ELECTIONS IN KINGS AND ALBERT

Contests in Most of the Parishes Yesterday.

Municipal elections were held in Kings and Albert counties yesterday, and in some of the parishes the con tests were very exciting. Owing to lack of proper communication it is not easy to get all the results with certainty, but as far as can be learned the polls reported as follows:

ALBERT COUNTY.

Alma-In Alma William Romme and Judson Cleveland, the old councillors, were elected by acolamation. Coverdale-In Coverdale Sanford Ryan and A. L. Leaman, both the old councillors, were successful, defeating William Smith and Clifford Gross.

Eigin—In Elgin W. B. Jonah and W J. McKenzie received most votes, the defeated candidates being John Garland and Jacob Steeves. The old councillors were Messrs. Jonah and Gar-

Hillsboro-In Hillsboro Councillor Steeves and Stevens were elected by

Hopewell-In Hopewell the result was: W. J. Carnwath, 222; Isaac Prescott, 220; Benjamin Carter, 197, and Levi Downey, 186. The old councillors were Messrs. Carnwath and Downey. Harvey-In Harvey, Geo. D. Pres dott led the poll, with David Barbour second. The defeated candidates were Chas. W. Anderson and Henry Pind-Both the old councillors were de

KINGS COUNTY.

In Kars, Cardwell, Studhelm and Hammond the old councillors were elected by acclamation.

Greenwich.—A. L. Peatman and Chas. H. Gorham, both of the old

ors, were re-elected, the former with 121 votes, and the latter with 96. Odber A. Flewelling was defeatd, having only 52 votes.

Westfield.— Arthur Whelpley, re-elected, led the poll with 105 votes; Fred Currie, 83. James Lingley was defeated, having only 74 votes. Robert M. Ballentine, one of last year's councillors, did not offer for re-election Havelock.-In Havelock, the winners

votes, and J. D. Seeley with 196. Both of these held office last year. The defeated candidates were Frank Rouse, 140, and John McFarlane, 135, Sussex.-In Sussex, H. H. Parlee had 854 votes, and Mr. Eveleigh 335. McMonagle was defeated, having 272

Henry Gilbert, the old councillors, were slected by acclamation.

Norton.—In Norton, Mr. McNair led the poll, with Price second. Both were re-elected. Mr. Fowler was

Waterford.—In Waterford, William PARLIAMENT MEETS 41. Mr. McGarrigle is one of the old councillors. Mr. Myles is a new man. Kingston.-In Kingston, E. A. Flewelling and Hamlin Bradley were elect-

Upham.—In Upham, James Campbell got 102, Harry G. Curtis 94, and C. N. Fowler 65 votes. Mesers. Campbell and Fowler previously held office. Springfield.—In Springfield, John A. B. Urquhart had 186, Fred E. Sharp 136, and Sherman Johnson 158 votes. Mr. Sharp, the defeated candidate, was one of the old councillors. His colleague, C. Grant Murray, did not

Hampton.—In Hampton, S. H. Flew-elling and Mr. Fowler were elected.

Worry Habit Kills the Nerves

YOU CAN GET WELL IF YOU WILL STOP WORRYING AND USE

DR. CHASE'S NERVE FOOD

Dr. A. T. Schofield, a great English authority on diseases of the nerves, at-tributes the usual cause of such affments to "the worry habit," which he

Assert your will power and retermine that you will not worry or let little things irritate you, and keep using Dr. Chase's Nerve Food regularly and persistently week in and week out, and it will not be long until you will feel the thrill of new life and energy coming. sistently week in and week out, and it will not be long until you will feel the thrill of new life and energy coming back to your wasted and worn-out

There is no doubt about the ability of Dr. Chase's Nerve Food to cure you, though simplest, remedy known for for its extraordinary restorative power falling hair. A solution of salt and has been established in hundreds and water is also good for bathing sore

thousands of cases. Mr. Archibald Sutherland, Principal South Bar School, Sydney, N. S., writes: "I was greatly troubled with nervous the chest. After meals I often felt like vomiting and my stomach was sore. I was nervous and worried, frequently had headaches and shortness of breath

decided to try Dr. Chase's Nerve Food. After I had used three boxes I found myself very much benefitted. You can depend on me to recommend Dr. Chase's Nerve Food to all who suffer from any form of nervous disease, for I believe

A MILLION DAIRY GATTLE NEEDLES

COULD NOT INFLICT THE TORTURE WOMEN SUFFER FROM HEADACHES

Headache is not in itself a disease, but a eases, principally those of the stomach, liver and bowels, such as Constipation, Dyspepsia, Liver Trouble, Bad Blood, Female Complaints, General Debility and Weakness. Headache is common to both sexes, but more frequently affects females.

The varieties of headache most common are sick or bilious headache, nervous headache, headache from constipation, debility or indigestion, periodical and spasmodio headache. Undoubtedly the cause must be removed before permanent relief can be had.

Burdock **Blood Bitters**

removes the cause of the headache, and not only does this but it also restores the entire system to healthy action and buoy-

"I was troubled with headache for a number of years, but could get nothing to help me. I procured a bottle of Burdock Blood Bitters, and finding it was doing me so much good, I got two more. I am now fully cured and think there is nothing in the world like Burdock Blood Bitters for headache."

MRS. EDW. KEDDY. NEW GERMANY, ONT.

BELLEISLE MAN

SHOT IN THE SIDE Halter in the Wagon Caught in a Gun and It Was Discharged.

A party of young men from Kiersteadville started out shooting on Mon-day. They were in a carriage and had their guns lying in the bottom of it. Among the party was a young English-man known by the name of George. During the day, when it was found ne-cessary to unhitch the horse, he tried to get a halter out of the wagon. The halter caught in one of the guns, and the latter was discharged. George was the full charge of shot in the left side of the abdomen. It penetrated almost to the spine, perforating the bowels and seriously injuring the kidneys. He Gray's, at Kiersteadville, and Dr. T. D. Walker summoned from the city. Dr. Walker found that the young man was very seriously hurt. Word was received yesterday that he was doing nicely and it is possible that he ma:

May be Short Session-Increase in Customs Revenue For October.

OTTAWA, Oct. 31.—Customs revenue for October was \$3,986,158, an increase of \$327,032; for the four months an increase of \$830,063.

Mr. Fielding returned to the city to-day. Asked when the tariff commis-sion would resume, he said that it depended upon what was waiting here. He expected that in the course of a week or so it would be either at Tor-

The intimation conveyed by your cor respondent the other day that parliaald possibly meet early next year, and that the proposed revision of the tariff would be deferred until 1907, is strengthened from important sources. It was reported today that the date of the meeting of parliament is actually fixed for Thursday, January 11th. Should this prove to be true it will be welcome news to the mem-bers of both houses. It would imply a short session, as the government's pro-gramme of legislation would neces-sarily be of a slim character.

MEDICAL PROPERTIES OF SALT.

ments to "the worry habit," which he denounces as an "unmitigated evil."

Headache at top or back of head, noises in the ears, sudden starting or twitching, tenderness of the scalp or spine, sleeplessness, dyspepsia, pains and cramps, timidity, invitability, melancholy, are some of the symptoms of exhausted nerves.

Pure air, wholesome food, rest and the use of Dr. Chase's Nerve Food to rebuild and revitalize the wasted nerves cells is the ideal treatment for diseases of the nerves.

Assert your will power and retermine

Salt has healing and health-giving properties, both taken internally and as an outward application. The efficacy and strengthening qualities of sea baths are well known. Fisher folk will tell you that to drink a little sea water of longer is an unfailing cure for indigestion. People who are too delicate to stand the invigorating cold plunge of sea bathing are often recommended by their physicians to take warm sea baths. Old sores, having long defied treatment, have been cured by constant bathing in sea water, which is very good for Salt has healing and health-giving hot water, nightly for a week or so imparts a velvety softness to the comthe scalp, as it is the most efficacious

> If one has taken too much salt, either redicinally or in food highly seasoned ough to make one unpleasantly thirsty; a little acid, either in the form of lemonade or vinegar and water, will speedily remove the inconvenience.
>
> A bag of hot salt applied to the face or affected part is a great relief in neu-

on slight exertion.

"Several doctors treated me, but each for a different aliment, and I finally decided to try Dr. Chesses Nov. Nov. The time, will heal the gash quicker than anything else.- 'Housekeeper.'

The Kootenay Mail of Revelstoke has the following to say of a former St. John boy. "Trainmaster Stevens of form of nervous disease, for I believe fit has thoroughly cured me. I shall be glad to be the means of bringing this medicine to the notice of any one who is suffering as I did."

Dr. Chase's Nerve Food, 50 cents, at all dealers, or Edmanson, Bates & Co., Toronto. Portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

St. John boy. "Trainmaster Stevens of yancuver will act as superintendant of the mountain and Shuswap division during Supt. Kilpatrick's absence on his holiday trip." Albert Stevens is the sen of the late Robert Mr. Stevens, locomotive inspector of the I. C. R. His present position is that which was occupied by Supt. Downie before his promotion to this city.

AND TUBERCULOSIS

Stockman Says the Disease is Not Prevalent in N. B.

And Offers Reasons in Support of His Contention—Disease at Nappan Is No Sucprise to Him.

To the Editor of the Sun: Sir-The news that the cattle at the Experimental Farm at Nappan, N. S., were tuberculous would surprise no farmer who had heard the addresses given by the superintendent of that farm at agricultural meetings for the last five or six years, and had our farmers generally followed his advice of eping cows in a temperature of from 60 deg. to 70 deg. and never turning them out of the stable from November till April, tuberculosis might be, as the Amherst News erroneously states it is, prevalent throughout the country.

Fortunately for the health of our

herds, our farmers and dairymen have had sufficient good sense not to heed the advice given by Superintendent Robertson, and tuberculosis is not only not generally prevalent, but it is exceedingly rare among the herds of the maritime provinces.

The writer or speaker who states that tuberculosis is a prevalent disease among the cattle of New Brunswick grossly misrepresents the actual condi-tion, and until he produces proof for such a damaging and alarming state-ment may be classed as not only a pre-varicator, but if he is possessed of orgravity of his statement, as a malicious

Some years ago the St. John Board of Health passed a resolution, in which they stated in the preamble that this disease was generally prevalent throughout the province, and the very next day the secretary of the Farmers' and Dairymens' Association of New Brunswick, in a letter in the St. John and called upon the Board of Health to prove their contention or appear before the public as deliberately stating what was untrue. No steps were ever taken to vindicate the position taken by the Board of Health, and their statement stands today as it stood at that time as the opinion of a well-mean-ing body of men who had no authentic knowledge upon the subject with which

About the time that the above reso-JANUARY 11TH cows from Kings county dairymen, and O'Neill case. Needless to U. S. border, found himself stopped at Vanceboro and his 120 cows refused adnission to the United States until they should show by the tuberculin test that they were free from tuberculosis.

> the test, detained the cows the requisite time and not a single one of these cows gathered from between 60 and 70 different stables in Kings county, reacted or gave the slightest sign that they were tuberculous. What better proof could be wanted of the clean bill of health that our dairy farmers could show? Many of these herds that furnished cows to the Maine buyers have been and are producing just as much milk per cow as the herd at the experimental farm at Nappan could produce under the sweating system. Their owners believe in sunshine and fresh air, and while it may cost a little more for feed, the cows and their produce are kept healthy and vigorous, and their milk can be used with condence by the people who buy it. Good sanitation must go with feeding for milk production, else surely will the health of the animal be undermined. Does it look reasonable to any-one that cows kept sufficiently closely, the temperature of the stable at 60 degree when the air outside is be-

low zero, shall have that supply of fresh air requisite to health? Neither the Amherst News nor any

CANADA'S DESPATCH TO AUSTRALIA

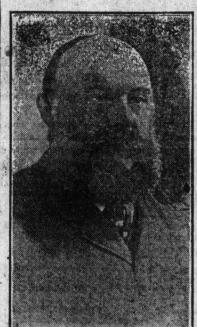

OTTAWA, Oct. 31.-As advised by cable the other day, Canada has aproached the Commonwealth govern ment with a view to a preferential agreement. The text of the Canadian general moved to enquire whether the government of the Commonwealth of Austria would be willing to enter into negotiations with the government of Canada, with a view to establishing preferential trade relations between the two countries; and if so, whether the Australian government would be prepared to offer stated tariff concessions to Canada, or would prefer to make the to Canada, or would prefer to make the subject one for consideration at a con-vention between the delegates repre-senting the Canadian and Australian

FORTY-FOUR YEARS A POLICE SERGEANT.

Sergeant John Hipwell Has Been Fifty-Five Years on the St. John Police Force A Good Officer

Sergt. John Hipwell has served in his present position as a sergeant of the St. John police force just forty-four years today. He has been attached to the force for fifty-five years. The sergeant is an Irishman and before coming to this country served for

time in the Royal Irish Constabu-He landed in Canada about 1850, and the following year he was sworn in a member of the St. John police force. Police duty in this city at that time

SERGT. JOHN HIPWELL.

wild fight took place. The sergeant was then twenty-three years of age, and remarkably strong and active, and could hold his own against anyone. Ten years after joining he was made ergeant. Some twelve years ago, on account of his advanced age, he made court sergeant. The aged officer has now reached the ripe age of seventy-seven years, but retains his faculties and much of his vigor. He has and his hearing is as good as ever. He has been an able and good policeman, with an excellent record.

When the sergeant joined the force the men carried a brace of pistols, 20 rounds of ammunition and a cutlass. During his long service the sergeant has worked on some very important cases and has arrested some hard ution of the St. John Board of Health | characters. He was particularly interwas under discussion, a cattle buyer ested in the capture of Slavin and harness, from the State of Maine bought 120 worked on the Munroe case and the trouble. Needless to say the sergeant is the sleighs.

ANOTHER MAN SHOT FOR A DEER.

PRESQUE ISLE, Oct. 31-A coroner has been called to Perham to investigate the fatal shooting of William Greene, aged 26, by a cousin, Leonard Greene, while the two, together with the former's brother, Joseph Greene, were hunting deer in the woods Sun-

day, outside Perham. saw a deer and levelling his rifle fired, it is alleged, killing his cousin. William, almost instantly. The shot passed through his heart.

dence that about two years ago, while to haul but supplies for the men. hunting, a brother of William Greene accidentally killed a brother of Leon- cess with the oil burner will be utilized.

KLONDIKERS TO TRY TO REACH NORTH POLE.

Have Planned a Short Gut Expedition.

May Start Next Summer-Yukon Men Regard Their Experience in the North as a Valuable Factor.

SEATTLE, Wash, Oct. 30,-An expedition in search of the North Pole will start from Dawson, Yukon Territory, in the summer of 1906, if the plans of the International Society for Polar Research and Experiment are carried out. Governor W. B. McInnis, of Yukon is one of the leaders in the movement, and Gen. Greely thinks the plans of the society feasible.

rector of Hillsborough, and Alice Nelson, his wife, the latter being the sis-The main difference between the plans of the Yukon explorers and those of expeditions in the past is that the Yukon men expect to use their knowledge of ways and means of existence and transportation in the Arctic. They point out many mistakes made by persons unaccustomed to the Arctic side of Lieutenant General Sir William

The International Society for Polar Research was organized in Dawson with two hundred members. One thousand persons attended the meeting Among the patrons were Gov. McInnis Dr. Alfred Thompson, member. of the Canadian parliament; Justices Dugas Craig and Macaulay, the three highest judges in the territory; Major Z. T. Wood, commander of the Northwest Mounted Police, and the foreign Consuls in Dawson. The scheme for the expedition was

originated by Dr. Anthony Varicle, who came to Dawson from Paris. In a lecture Charles MacDonald, clerk of the territorial court of the Yukon, explained the plans for the expedition. "Expeditions of all former Pole seekers," said Mr. MacDonald, "have been

considered on lines that would never be approved by northern travellers of experience." He continued:-"The most familiar example of polar indeavor is the Nansen expedition. In that expedition it is shown by Nansen's own book that he understood little of equipping and handling long distance expeditions. Yukoners handle them

Nansen worked in heavy skin robes and was immersed in sweat, then chilled in the ice thereof. Yukoners travel in the light parka, and never permit themselves to sweat.

with much more simplicity, ease and

"Nansen travelled with dogs weighing fifty pounds. Yukoners never us dogs weighing less than 100 to 150 pounds. "Nansen drove his dogs with each

hitched to a single strand, and they always were tangled and caused interminable trouble and endless delay Yukoners drive their dogs in tandem ested in the capture of Slavin and harness, and have scarcely any such Eleven Vessels, With 440 Men, "Nansen had no handles to his

COMES FROM A DISTINGUISHED FAMILY

(Charlottetown Patriot.) While other places are celebrating the centenary of Nelson's victory and death and are pointing to various monuments to his memory, we are proud to say that Charlottetown at least can rejoice in more interesting connection with the great hero than that of mere bronze or stone. We refer to the fact that in Charlottetown we have a descendant of Lord Nelson's family in the person of little Preston Mellish, son of Capt. A. J. B. Mellish, born here on June 10th of this year. As Lord Nelson left no direct descendant all his blood relations are necessarily collateral. It will be remembered that Capt. Mellish "captured" his wife - then Miss Evangeline Hutton - while campaigning in South Africa. Mrs. Mellish's grandfather, Commander Preston, R. N., married Caroline Rolfe, granddaughter of the Rev. Robt. Folfe,

ter of the Rev. Edmund Nelson, Lord Nelson's father. It may be of some interest to Canadians, especially those of the maritime provinces, to know that Mrs. Mellish is also a descendant on her father's climate who have tried to reach the Pepperell, Bart., the conqueror of Pole.

Louisburg, C. B., in the early days.

TYPHOID FEVER ON DOUGLAS AVENUE.

Water From Black Tom's Well Said to be the Cause of It All.

The death of Miss Sophie Anderson of Douglas avenue from typhoid fever, is said to be due to the water used from "Black Tom's Well," a source of water located between Tapley's house and Memorial Park. For some time past certain residents in the vicinity have been using this supply of water and there are now several cases of typhoid. Others who are ill are Hazen, Herbert and George Howard, children of R. P. Hamm, Miss McAllister, two children of Jones Smith and a lad named Cocksin. Others in the same houses who are not sick, have not used this water, and it is thought that drainage has rendered the well impure. Dr. Daniel and Dr. McInerney, when consulted on the matter, said that no tests of the water had been made. Miss Anderson was 28 years of age and resided at 249 Douglas avenue.
