Alkali in Shampoos Bad for the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary mulitised coconut oil (which is pure and greaseless), and is better than anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky bright, lustrous, fluffy and easy to manage.

You can get mulitised coconut oil at any pharmacy, at a very cheap, and a few ounces will supply every member of the family for months.

To Discard Freckles, Tan, Pimples, Wrinkles

The use of creams containing animal substance sometimes causes hair to grow. Hair when you use ordinary mulitised wax. There is nothing better for it than colored skin, as the wax actually absorbs the offensive cuticle. The latter is finally replaced by a clear, smooth, healthy complexion, full of life and expression. It's the sensible way to discard a freckled, tanned, over-red, blotchy or pimply skin. Get an ounce of mulitised wax at any drug store, and apply nightly like cold cream, erasing in the morning with soap and water. It takes a week or so to complete the transformation. The ideal wrinkle remedy is made by dissolving an ounce of powdered saskolite in a half pint of water. Bathing the face in the solution brings almost instantaneous results.

Quick, Painless Way To Remove Hairy Growth

(Helps to Beauty)

Here is a simple, unfailing way to rid the skin of objectionable hairs: With some powdered delatone and water make enough paste to cover the hairy surface, apply and in about two minutes rub off, wash the skin and every trace of hair has vanished. This is quite harmless, but to avoid disappointment be sure to get the delatone in an original package.
