BRITISH, AMERICANS AND JAPANESE BEAT THE BOXERS.

Isin, Aug. 19. The fact is briefly reported from Vienna. Details of the engagement come from the Reuter agent at lien Tsin, in a despatch dated August 0. In addition to the Americans the oree consisted of 375 British and 200 Japanese, all under the British general Dorward. The fight took place at a village ix miles southwest of Tien Tsin, where he allied forces found a considerable number of "Boxers" whom they engaged, killthe allied forces found a considerable number of "Boxers" whom they engaged, killing over 300 and taking 40 wounded prisoners who were sent to the hospitals of the allies. The village was burned. The Americans had five wounded, the Japanese six and the British none. Hundreds exers' flags, spears and swords were red. From Shanghai comes a report red by the assertion that it is from purely Chinese sources that the Empress
Dowager, after proceeding one day's journey from Pekin, became terrified at the
looting by General Tung Fuh Siang's
troops and went back to Pekin.

A Chinese telegram from Tsin An Fu
says that Prince Tuan has been captured
by a detachment of the allies. Other Chiness messages record, the formation of ely Chinese sources that the Empres

ese messages record the formation of a revisional government in Pekin by the lies; but this appears to be a purely allies; but this appears to be a pinery military measure and merely an elabora-tion of the scheme for dividing the city-into sections for police purposes.

Li Hung Chang has received a despatch stating that the allies entered Pekin easily, because the troops of General Tung Fuh Siang utterly refused to face the al-

Shanghai advices announce the receipt there of a Chinese official despatch as-serting that Emperor Kwang Su has been found and rescued by the Japanese. Messages from Tien Tsin report serious mortality among the American horses, owing to the heat.

Delayed advices to Reuter, dated Pekin, August 14, reiterate the statements regarding the treachery of the Chinese on the night before the relief. They had informed the members of the legations that orders had been issued to cease firing. This was followed by a desperate attack: and it was only the welcome sound of the cannon of the relieving force in the morncannon of the relieving force in the morning that renewed the courage of the foreigners. The correspondent adds:

"The Chinese admit having lost three thousand in the various attacks upon the legations. Our rations dwindled to one and a day, consisting of horse flesh and

Washington, Aug. 24.-The Chinese situ-

ation developed little of importance to-day. It is stated frankly by the officials day. It is stated frankly by the officials in the state, war and navy departments that no despatches have been received bearing on the problem which has yet to be solved, namely the disposition of China's affairs at the hands of the powers. In the absence of other food for recognition the receipt of two casualty speculation the receipt of two casualty lists from General Chaffee, dated at Tien Tsin, were made the basis for a report that he and the American force had evacuated Pekin. It was stated at the war department however, that no advices have been received that General Chaffee had left Pekin and it was said he would have advised the war department and given his reasons for doing so, had he contemplated such an important step.

A cabinet officer is authority for the statement that alleged differences among the powers brought on by the reported action of Russia have not dis-turbed the United States government in the least and there is no information in possession of the government that Russia has declared war or that she is pursuing a course, in any way dif-ferent from that of other governments rep-resented in China. It was also said that the satements regarding Russia has not-received consideration at the cabinet

Regarding the attitude of the American vernment in case serious differences ong the powers should arise as to their future course in China it was stated on authority today that the United States government remained opposed to any ter-ritorial division of China as was plainly ritorial division of China as was plainly stated in Secretary Hay's note of July 3rd. Every resource of diplomacy will be exhausted to prevent partition of the empire and it was said that the diversion of American troops to Manila, already announced by the war department was practiced by the way they never so the tical evidence to the other powers of the good faith of the United States in this matter. United States work in China has been accomplished in large part. by the relief of the legations and the further obligation, that of aiding to restore and maintain peace, can be accomplished through the troops already on Chinese soil. It is pointed out, however, that in view of the attitude already assumed by view of the attitude already assumed by the United States and the large part it has had in opening the way to Pekin. this government is in a position to de-mand commercial freedom in China as a minimum condition of the final set-tlement in the event of territorial division of the Chinese empire, should that be accomplished. The United States of course complished. The United States of course wants no territory and it is felt that her rights as to commercial freedom are too clear to be gainsaid by the other nations.

After the cabinet meeting today there was a conference in which Secretary Root and Acting Secretary Adee participated. It related to Chinese affairs and it was said to be confined largely to considering messages received from other powers on the United States and the large part it

answers to them. The suggestion that the powers be asked to participate in a march owing to the heat and heavy ro conference or to give some indication of future purposes in China, was believed to be under consideration and it was inti-mated that notes to the different powers London, Aug. 25, 3.45 a. m.—Five hunded American troops participated in a mal defeat of "Boxers" outside Tien in, Aug. 19. The fact is briefly report-from Vienna. Details of the engage at the close of the conference, that it related to matters which need the consideration of the president and covered the wide field of Chinese affairs. He said that nothing had developed of a serious nature in the late reports from China. It was also stated that the United States government is in frequent communication, with nothing had developed of a serious nature in the late reports from China. It was also stated that the United States government is in frequent communication with the other powers regarding the Chinese situation. During the afternoon Acting Secretary Adee had a conference with the acting chief of the bureau of navigation, the nature of which was not made gation, the nature of which was not made gation, the nature of which was not made gation. gation, the nature of which was not made public. It was said in the navy department, however, that so far as known here, we have no warships at Amoy. The Princeton has touched there occasionally while on duty in South Chinese waters but she is thought to be now in the vi inity of Shanghai. Despatches were pre inity of Shanghai. Despatches were pre-pared in the navy department for trans-mission to Admiral Remey and although not made public are understood to have contained Consul Johnson's despatch re-garding the Amoy uprising. Acting Sec-retary Hackett said, however, that no-warship had been ordered to Amoy, and that he had no knowledge that any ship een sent there. If such a step were aken, he said, it would be by Admiral Remey, who has entire liberty as to the

It can be stated, however, that this gove ernment has so far received no official or vell-authenticated information that the Thina or that it is her immediate purpose o do so. The published report that she as actually taken this step undoubtedly s disturbing to the administration, inas aich as such action would greatly com licate the situation and probably par-dyze the president's efforts to bring about an early peace. This apprefension a somewhat intensified by the fear that ermany also may contemplate a declar tion of war. Ithis regarded as not alto ether impossible, in view of the murder of the German minister, and the recent eported utterances of the emperor and ield marshal, Count Waldersee, that neasures of the most drastic character

What action the American government vould take under these circumstances not known, but it has been suggested that the president may at once ask for a con-erence of the powers with a view of arhe questions involved without resorting o war. It can be stated on the authority a member of the cabinet that under present conditions an extra session of con

ress is altogether improbable. The diversion of the troops now on the cacific from China to Manila is said by a sabinet official to be sufficient proof that there will be no war with China, so far is the United States is concerned, until diplomacy has failed to secure such repartion and indemnity as this government nay demand on account of the imprison nent of Minister Conger and our other egritioners and citizens and the property osses they have sustained during the

The question of the withdrawal of the Inited States forces from Pekin to Tier Inted States forces from Fesh to Hen Isin or Taku has been seriously consid-red by the president and by his adviser-ind a great deal of pressure has been brought to bear up on the administration take this step. But after mature deiberation it has been determined that the regotiations for the exttlement of the estions growing out of the disturbance n China must take place in the Chines apital and that while these negotiation ire pending and until they are complete t will be nece sary for the United State press to remain in the Chinese capital. While it is recognized that a with rawal of the forces from Pekin might be railed with satisfaction in this country t is soid that moral effect in China an upon the Chinese would be bad and would
