ELSIE FERGUSON SCORES AT ALLEN

Elsie Ferguson in "The Witness for the Defence" scored a decided hit at the Allen theatre last night. As the name implies patrons looked for something sensational and they were not disappointed as the story from start to finish was full of pathos and exciting situations and the role as played by the star drew much sympathy from the large audience.

The story deals with a young girl who is compelled to leave her lover and travel to India with her invalid father. The lovers part but decide to remain true.

Capt. Ballantyne, a real villain who is stationed at Bombay with the consent of the father for the daughter's hand who while wishing to remain true to her lover in England accedes to the wishes of her father and the marriage takes place.

The captain turns out to be a regular brute and the confiding wife has a most miserable existence. In a fit of jealousy the husband abuses her and in the struggle which follows he is accidentally killed by the wife. At the trial an admirer of Mrs. Ballantyne who proves to be the witness for the defence gives evidence which frees her. As a reward he insists on her marrying him but she refuses and while many complicated situations arise love triumphs and her lover of the early days claims her, has faith in her and they are happily united in spite of strenuous objections of his parents.

There are many extremely sympathetic situations throughout the entire play which is a master of stage craft from beginning to end. Backing up the feature is an exceptionally funny film entitled "The Haughty Wife," which is a real scream. A Chester outing rounds out a good two hour show which by the way is one of the Allen's best offerings so far this season.

NOT FOWL THIS TIME BUT PIGS

Thieves After Bigger Hunt
Another case of thieving which has just been brought to the attention of the Record occurred last Friday night when Westmont Farm, owned by Mr. P. H. Rieder was visited and two pigs weighing about 40 lbs. apiece were taken and another pig was found in the yard with a clothes line around its neck. The robbery was first discovered on Saturday morning and as the ground was quite soft, the imprint of the feet of the culprits and the direction they took was easily discernible. The police have been notified and have been quickly working on the case and hope to have the guilty parties in the toils before long. In conversation with Mr. Rieder over the phone the Record was informed that a reward of \$10.00 has been offered for any information that will tend to bring the guilty parties to justice.

NEW YORK, Nov. 6.—Pantaloons of the Knickerbocker variety will be worn by New York women in a short time, if the prediction of Miss A. Then they add a quantity of color to the lips.

PRINCIPLE OF 48-HOUR WEEK

EMPLOYER'S GROUP AT INTERNATIONAL DRAFT CONVENTION.

U. S. Asked to Adopt it by One Canadian Delegate.
Washington, Nov. 5.—Members of the employers' group at the International Labor Conference have prepared a unilateral convention on the 48-hour week. The convention was discussed at a lengthy meeting of the group to-day. While recognizing the principle of the 48-hour week, the employers' draft differs from that of the organizing committee in a number of vital reservations.

The text has not yet been made public, but the main reservations in the employers' draft are understood to be the following:

1. Guarantee of the indispensable requirements without which industry cannot normally exist.
2. Unanimous agreement to increase production.

Exceptions.

3. Where exceptions are claimed by any nation on account of its backward industrial condition, the exceptions cannot be held to apply to export industries.

4. Insistence on periodicity so that in seasonal trades, an average of eight hours will be regarded as sufficient.

5. Numerous exceptions in connection with the public works, emergency works and special industries of various kinds.

The general character of the employers' draft is stated to be to avoid numerous specific limitations on industrial output contained in the draft submitted by the organization of the committee. The meeting of the employers was behind closed doors.

It is understood, however, that Mr. Parsons, Canadian employer delegate, took a strong stand that Canada should not enter into any international convention limiting hours of labor unless first assured that the convention would be adopted by the United States.

Preparatory to adjournment tomorrow, the first international working women's congress to-day considered a plan of permanent organization. Suggestion by the British delegation that provision be made for the affiliation to a certain extent with specified political organizations was countered by a plan submitted by a group representing practically the other delegations which would limit membership to trade union organizations.

Under the latter plan another international meeting would be called within the year at the same time and place at the meeting of the international Labor conference of the League of Nations. It was suggested the president of the congress be in the United States.

Recommendations for legislation safeguarding mothers and babies secured a majority approval as well as a resolution favoring the prohibition of night work for both men and women except in continuous

industries regarded as a public necessity.

The congress at its session to-day also proved legislation prohibiting employment of women in industries in which poisonous materials are used. Recommendation was made that bureaus be established under direction of the League of Nations for the study of methods for correcting conditions inimical to motherhood and to co-ordinate the work of national research in dangerous trades with a view to substituting non-poisonous substances wherever possible.

Letter to News Record

RIGHTS OF THE PEOPLE

To the Editor:
With reference to the milk prices the public can demand an investigation. Who is the public? The people who put the Council into office. Why do they come back and ask such paltry questions? They have it within their power to quash anything that is not right.

The price of milk to-day is decidedly wrong. We do not get the pure milk. If we did we would not kick, but the cream separator has the first say. Then you have got to assay it afterwards to find the percentage of cream which you get.

We also want the weight put on the meat at the market. Who wants to buy a pig in a poke for that is all it is. Now I believe everybody wants what they pay for. Enough said!

A FEW SWEEPINGS FROM THE VICTORY LOAN "CLEAN-UP"

(By Dinty Moore)

From the appearance of results there will be a shortage of Honor Flags for 100 per cent. factories. We have however rushed an order to Toronto for more.

The Honor Banner winners to date

are:—
W. G. & R.
Wiegand Shirt Co.
Kaufman Rubber Co.
Kitchener Button Co.
Lang Tanning Co.
Greb Shoe Co. (4 crowns)
Baetz Bros.
Merchants Rubber Co.
John Forsyth Co.
Dominion Life Co.
Waterloo Mutual Fire Insur. Co.
Elmira Rubber Co.
Great West Felt Co.
Elmira Furniture Co.
Elmira Machinery & Transmission Co.
Dominion Lined Oil Co.—Baden.

As usual Elmira is right up in front.

Nothing so good as VICTORY BONDS is their motto.

What's the matter with the Phonola Company. They are the only Factory who has not "gone over the top" in Elmira.

The Man who succeeds is the man who knows his business and attends to it. Your business to-day is buying VICTORY BONDS to the limit. Now is the time to attend to it.

The John Forsyth Company are celebrating the winning of the Honor Flag with a Victory Loan dinner to their employees in Waterloo to-night at their new plant. We wish them every success in their new enterprise.

The Parade which was scheduled for last night will take place to-night at 7.30. The Committee regret this postponement but the Plants were unable to get their employees together in time for last night, but it's O.K. for to-night and you can bet your hat on that.

The Merchants Rubber employees will be out to-night with full regalia. It will be a sight well worth seeing. If you have to miss your pie and coffee, come and get your dessert on King Street. It will satisfy you.

The fireworks are all new and novel. "Pop" can hardly wait to get busy on the bombs.

Here's something to think over—Kitchener has approximately reached 40 per cent. of its objective. If we hope to win the Prince of Wales Honor Flag it will take a greater effort than has been demonstrated in the past. Loosen up! Get that flag for Kitchener.

In checking over the Board this morning we find that Wellesley Township is still heading the list, with Kitchener next to last. Shake it up! Let's get it.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How To Treat

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not to some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try taking aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

IT MEANS MOST TO THE WORKERS

They Have Every Reason for Aiding in the Success of the Victory Loan.

As the Victory Loan drive draws near its close it must be borne in mind that every dollar invested in Victory Bonds means that much more toward the general enjoyment of continued prosperity.

Large orders for surplus products of the Dominion will come from Great Britain if Canada can extend the necessary credit. If Canada cannot finance this business the Motherland will not experience any difficulty in getting the accommodation elsewhere. She is a good customer.

Canada is enjoying prosperity now to such an extent that the people have ample money with which to purchase Victory Bonds. The continuance of this prosperity will be in proportion to the scale upon which this money is invested in the Victory Loan for all the proceeds of the loan will be put into circulation in the Dominion benefitting every body as it goes on its rounds. It is the workers who are interested more than any other class in making the Victory Loan 1919 an unqualified success.
