

ADVERTISEMENTS.

Wampole's Peroxide of Hydrogen.

(Ozogen.)
(Aqua Hydrogenii Dioxidi.)
(Contains three (3) per cent. H_2O_2 .)

The most powerful Antiseptic, Disinfectant and Deodorant known,

It is prepared expressly for medical and surgical use—is absolutely harmless, and can be used either internally or externally with perfect safety.

Wampole's Peroxide of Hydrogen.

Is an aqueous solution of the Hydrogen Dioxide (three (3) per cent. by weight), and in accordance with requirements of the British Pharmacopœia, indicates a yield of eleven (11) volumes of available Oxygen, when subjected to the Nitrometer test.

It quickly destroys germs of all kinds; dissolves and removes purulent matter, sloughs, and the products of tissue decomposition; in fact, exerts a most remarkable cleansing and healing influence upon all diseased surfaces.

The value of PEROXIDE OF HYDROGEN as an antiseptic, disinfectant and deodorant is universally conceded by the medical profession, having been used during the past fifty (50) years, but of late to a much larger extent than ever before.

Wampole's Peroxide of Hydrogen.

is marketed in

One-Quarter ($\frac{1}{4}$) Pound Bottles.
One-Half ($\frac{1}{2}$) " " "
One (1) " " "

Also in five (5) Pint Bottles, containing four (4) Pounds.

On request we will promptly and gladly supply descriptive literature, as well as samples in sufficient quantities, as will enable those who may be interested to fully substantiate the claims we make for this, one of the most interesting of our newer preparations.
