Yorkshire Post

"They take the reader right up to the first-line trenches. Here there is no learned nonsense about strategy; the material is human all the way through. . . ."

Weekly Despatch

"The creator of 'Sergeant Michael Cassidy' gets to work again, and with excellent effect. This latest book of his throws a more illuminating light on life at the front than any book I have yet read. And for three reasons—the perspective is true, the colours are natural, and the point of view is the intimate one of the sympathetic insider. . . . Humour, sympathy, and knowledge—those are his main colours, and he works infinite gradations with them. The series dealing with Driver Robert Brown is a series of gems."

Broad Arrow

"We wish success to writers such as 'Sapper,' for they can show how we must model our men in order to be successful in future struggles."

Spectator

"We do not know who 'Sapper' may be; at all events he knows what he is writing about, and is not ashamed to deal with the reality of things, to strip bare those emotions which in more conventional times we were taught to hide. . . . Peace to your humour, Cassidy, you speak the truth."

Times

"Capital reading."

London Opinion

"The war has produced one great new humorist who has been inspired by the drolleries which march side by side, for those who can see them, with the terrors of Armageddon. I refer to 'Sapper,' who, from his pen-name and the nature of his work, one may assume to be an Engineer officer, although his identity may not be revealed."

Scotsman

"Cassidy is a character who will appeal to everyone, and his description of work and play in the fighting line are both racy and vivid."
