**ALBUMS**

THE BEST. THE CHEAPEST.  
THE MOST POPULAR.

UNSURPASSED FOR RICHNESS, BEAUTY AND DURABILITY.

AGENTS WANTED.

 **THE FASTEST SELLING ALBUMS IN THE WORLD.**

In the manufacture of our Albums we have taken especial pains to procure rich and handsome colors of morocco and the finest grade of cardboard, and have exercised the utmost care in making the bindings strong and durable. We use the finest quality of gold-leaf on the sides and corners of our Albums. The market has been flooded during the past few years with a cheap, inferior grade of Albums, very loosely bound, the leaves being composed of the poorest and cheapest grade of cardboard, the bindings being an inferior imitation of French morocco, liable to fall to pieces with very little handling, and in place of using gold-leaf in the finishing, what is commonly known as Dutch Metal is often used. Our Albums are made in the strongest manner possible, and all finely finished. (OVER)
